NOTES TO THE STATEMENT OF AFFAIRS (Continued)

4. Prescribed Part

The Insolvency Act 1986 provides that, where a company has created a floating charge after 15 September 2003, a prescribed part of the company's net property must be made available to the unsecured creditors and not be distributed to the floating charge holder except in so far as it exceeds the amount required for the satisfaction of unsecured claims. The net property represents the assets available after the costs and expenses of the insolvency procedure and the discharge of preferential creditors' claims in full. No provision has been included within the estimated statement of affairs regarding the costs and expenses of the insolvency procedure.

The method of calculating the prescribed part is given below: Where the net property does not exceed £10,000 (the prescribed minimum) it may be considered that the cost of making a distribution is disproportionate to the benefits and no prescribed part is required to be set aside.

Where the net property exceeds £10,000 the prescribed part is calculated at a value of 50% of the first £10,000 plus a further 20% of the net property which exceeds £10,000, up to a maximum prescribed part of £600,000.

Based upon the information currently available, it is estimated that there will not be a prescribed part fund available in this case.
