Enclosure: Request for Information (RFI) regarding the potential acquisition of the U.S. Postal Service's (USPS) mail processing facilities.

Very truly yours,

() [Signature] [Title]
Director, Office of Management and Enterprise Services

Sincerely,

() [Signature] [Title]

Director, Office of Management and Enterprise Services

the general rule does not apply, and the director may take decisions without regard to any of the provisions of the articles relating to directors' decision-making

Unanimous decisions

13 (1) A decision of the directors is taken in accordance with this article when all eligible directors indicate to each other by any means that they share a common view on a matter

(2) Such a decision may take the form of a resolution in writing, copies of which have been signed by each eligible director or to which each eligible director has otherwise indicated agreement in writing

(3) References in this article to eligible directors are to directors who would have been entitled to vote on the matter had it been proposed as a resolution at a directors' meeting

(4) A decision may not be taken in accordance with this article if the eligible directors would not have formed a quorum at such a meeting

Calling a directors' meeting

14 (1) Any director may call a directors' meeting by giving notice of the meeting to the directors or by authorising the company secretary (if any) to give such notice

(2) Notice of any directors' meeting must indicate—

(a) its proposed date and time,

(b) where it is to take place, and

(c) if it is anticipated that directors participating in the meeting will not be in the same place, how it is proposed that they should communicate with each other during the meeting

(3) Notice of a directors' meeting must be given to each director, but need not be in writing

(4) Notice of a directors' meeting need not be given to directors who waive their entitlement to notice of that meeting, by giving notice to that effect to the company not more than 7 days after the date on which the meeting is held. Where such notice is given after the meeting has been held, that does not affect the validity of the meeting, or of any business conducted at it

Participation in directors' meetings

15 (1) Subject to the articles, directors participate in a directors' meeting, or part of a directors' meeting, when—

(a) the meeting has been called and takes place in accordance with the articles, and

(b) they can each communicate to the others any information or opinions they have on any particular item of the business of the meeting

(2) In determining whether directors are participating in a directors' meeting, it is irrelevant where any director is or how they communicate with each other

(3) If all the directors participating in a meeting are not in the same place, they may decide that the meeting is to be treated as taking place wherever any of them is

16 (1) At a directors' meeting, unless a quorum is participating, no proposal is to be voted on, except a proposal to call another meeting

(2) The quorum for directors' meetings may be fixed from time to time by a decision of the directors, but it must never be less than two, and unless otherwise fixed it is two

(3) If the total number of directors for the time being is less than the quorum required, the directors must not take any decision other than a decision—

(a) to appoint further directors, or

(b) to call a general meeting so as to enable the members to appoint further directors

Chairing of directors' meetings

17. (1) The directors may appoint a director to chair their meetings

(2) The person so appointed for the time being is known as the chairman

(3) The directors may terminate the chairman's appointment at any time

(4) If the chairman is not participating in a directors' meeting within ten minutes of the time at which it was to start, the participating directors must appoint one of themselves to chair it.

Casting vote

18 (1) If the numbers of votes for and against a proposal are equal, the chairman or other director chairing the meeting has a casting vote

(2) But this does not apply if, in accordance with the articles, the chairman or other director is not to be counted as participating in the decision-making process for quorum or voting purposes

Conflicts of interest

19 (1) If a proposed decision of the directors is concerned with an actual or proposed transaction or arrangement with the company in which a director is interested, that director is not to be counted as participating in the decision-making process for quorum or voting purposes

(2) But if paragraph (3) applies, a director who is interested in an actual or proposed transaction or arrangement with the company is to be counted as participating in the decision-making process for quorum and voting purposes

(3) This paragraph applies when—

(a) the company by ordinary resolution disapplies the provision of the articles which would otherwise prevent a director from being counted as participating in the decision-making process,

(b) the director's interest cannot reasonably be regarded as likely to give rise to a conflict of interest, or

(c) the director's conflict of interest arises from a permitted cause

(4) For the purposes of this article, the following are permitted causes—

(a) a guarantee given, or to be given, by or to a director in respect of an obligation incurred by or on behalf of the company or any of its subsidiaries,

the Commission shall be responsible for the implementation of the provisions of this Regulation.

(c) arrangements pursuant to which benefits are made available to employees and directors or former employees and directors of the company or any of its subsidiaries which do not provide special benefits for directors or former directors

(6) Subject to paragraph (7), if a question arises at a meeting of directors or of a committee of directors as to the right of a director to participate in the meeting (or part of the meeting) for voting or quorum purposes, the question may, before the conclusion of the meeting, be referred to the chairman whose ruling in relation to any director other than the chairman is to be final and conclusive

(7) If any question as to the right to participate in the meeting (or part of the meeting) should arise in respect of the chairman, the question is to be decided by a decision of the directors at that meeting, for which purpose the chairman is not to be counted as participating in the meeting (or that part of the meeting) for voting or quorum purposes

Records of decisions to be kept

20 The directors must ensure that the company keeps a record, in writing, for at least 10 years from the date of the decision recorded, of every unanimous or majority decision taken by the directors

Directors' discretion to make further rules

21 Subject to the articles, the directors may make any rule which they think fit about how they take decisions, and about how such rules are to be recorded or communicated to directors

22 (1) Any person who is willing to act as a director, and is permitted by law to do so, may be appointed to be a director—

(a) by ordinary resolution, or

(b) by a decision of the directors

(2) In any case where, as a result of death, the company has no members and no directors, the personal representatives of the last member to have died have the right, by notice in writing, to appoint a person to be a director

(3) For the purposes of paragraph (2), where 2 or more members die in circumstances rendering it uncertain who was the last to die, a younger member is deemed to have survived an older member

1. d. v. 1. 17. 1. 3

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.

1. The first step in the process of identifying a problem is to define the problem. This involves identifying the symptoms of the problem and determining the scope of the problem. Once the problem has been defined, the next step is to identify the causes of the problem. This involves identifying the factors that are contributing to the problem and determining the underlying causes. Once the causes have been identified, the next step is to develop a plan of action. This involves identifying the steps that need to be taken to solve the problem and determining the resources that will be needed to implement the plan. Once a plan of action has been developed, the next step is to implement the plan. This involves carrying out the steps that have been identified in the plan and monitoring the progress of the implementation. Finally, the last step in the process is to evaluate the results of the implementation. This involves determining whether the problem has been solved and whether the resources have been used effectively.

1. The first step in the process of identifying a problem is to determine the nature of the problem. This involves a thorough understanding of the situation and the factors that may be contributing to the problem. Once the problem has been identified, the next step is to develop a plan of action to address the problem. This plan should be based on a clear understanding of the problem and the resources available to solve it. The plan should also take into account the potential risks and benefits of different solutions. Once the plan has been developed, the next step is to implement the plan. This involves putting the plan into action and monitoring the progress of the solution. Finally, the last step in the process is to evaluate the results of the solution. This involves assessing the effectiveness of the solution and determining whether the problem has been resolved.

1. The first of these is the fact that the majority of the population of the United States is now living in urban areas. This is a result of the process of urbanization, which has been going on since the beginning of the 20th century. The process of urbanization is the movement of people from rural areas to urban areas. This is done for a variety of reasons, including the search for better living conditions, the desire for education, and the need for employment. The process of urbanization has led to the growth of large cities and the decline of small towns. This has had a significant impact on the way we live and work. The majority of the population now lives in cities, which are often characterized by high population density, a high level of economic activity, and a high level of social and cultural diversity. This has led to the development of new social and cultural norms, and has also led to the development of new economic and political structures. The process of urbanization is a complex one, and it is one that has shaped the world as we know it today.
