M L Cheadle

Director

Approved by the board on 23 November 2015

**M Cheadle Electrical Services Limited**  
**Notes to the Abbreviated Accounts**  
**for the year ended 31 July 2015**

**1 Accounting policies**

***Basis of preparation***

The accounts have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective 4/1/2008).

***Turnover***

Turnover represents the value, net of value added tax and discounts, of materials provided to customers and work carried out in respect of electrical services provided to customers.

***Depreciation***

Depreciation has been provided at the following rates in order to write off the assets over their estimated useful lives.

Tools and office equipment	20% reducing balance
Motor vehicles	25% reducing balance

***Stocks***

Stock and work in progress is valued at the lower of cost and net realisable value. Cost is determined on a first in first out basis. Net realisable value represents estimated selling price less costs to complete and sell. Provision is made for slow moving, obsolete or damaged stock where the net realisable value is less than cost.

***Deferred taxation***

Full provision is made for deferred taxation resulting from timing differences between the recognition of gains and losses in the accounts and their recognition for tax purposes. Deferred taxation is calculated on an un-discounted basis at the tax rates which are expected to apply in the periods when the timing differences will reverse.

***Leasing and hire purchase commitments***

Assets held under finance leases and hire purchase contracts, which are those where substantially all the risks and rewards of ownership of the asset have passed to the company, are capitalised in the balance sheet and depreciated over their useful lives. The corresponding lease or hire purchase obligation is treated in the balance sheet as a liability.

The interest element of the rental obligations is charged to the profit and loss account over the period of the lease and represents a constant proportion of the balance of capital repayments outstanding.

Rentals paid under operating leases are charged to income on a straight line basis over the lease term.

***Going concern***

The company currently meets its daily working capital requirement through operating revenues and financial support from the director and creditors. On this basis the director considers it appropriate to prepare the accounts on the going concern basis. The accounts do not include any adjustments that would result from the failure to raise any additional finance that may prove necessary.
