Notes to the financial statements

year ended 31st March 2021

1. General information

The principal activity of the company is a property development company. The company is a private limited company, which is incorporated in England and Wales (no 08499323). The address of the registered office is First Floor, 35 Brook Street, Ilkley, West Yorkshire, LS29 8AG.

2. Statement of compliance

These financial statements have been prepared in compliance with Section 1A of FRS 102, 'The Financial Reporting Standard applicable in the UK and the Republic of Ireland'.

3. Accounting policies

Basis of preparation

The financial statements have been prepared on the historical cost basis, as modified by the revaluation of certain financial assets and liabilities and investment properties measured at fair value through profit or loss.

The financial statements are prepared in sterling, which is the functional currency of the entity.

Going concern

The financial statements have been prepared on the basis that the company can continue to operate as a going concern. The directors, having made due and careful enquiry, are of the opinion that the company has adequate working capital to execute its operations over the next 12 months. This conclusion was made having considered the impact of the worldwide Covid-19 pandemic on future operations and the potentially reduced level of trade anticipated. The directors, therefore, have made an informed judgement, at the time of approving the financial statements, that there is a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future.

Judgements and key sources of estimation uncertainty

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the amounts reported for assets and liabilities as at the date of the statement of financial position and the amounts reported for revenues and expenses during the year. However, the nature of estimation means that actual outcomes could differ from those estimates. Details of these judgements are set out in the accounting policies.

Financial instruments

Financial instruments are classified and accounted for, according to the substance of the contractual arrangement, as either financial assets, financial liabilities or equity instruments. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.

4. Staff costs

The average number of persons employed by the company during the year, including directors, amounted to 3 (2020: 3).
