**Notes to the Abbreviated Accounts**

For the year ending 09 March 2016

**1 Accounting policies****Basis of accounting**

The financial statements have been prepared under the historical cost convention, and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2015). The accounts are prepared under the historic cost convention and incorporate the results of the principal activity which is described in the director's report. The company's principal activity is exposed to inherent uncertainties and global market fluctuations beyond the control of the company's management. Current adverse market conditions show few signs of a significant improvement. The company meets its working capital requirements from its day to day activities in this market place and as a result of the market conditions has been unable to fully employ its resources during and since the balance sheet date. The director is considering formal closure of the business in the most cost efficient basis. No material variation or adjustment to the financial statements has been considered necessary to reflect this resolve. The company has taken advantage of the exemption in Financial Reporting Standard number 1 from the requirement to produce a cash flow statement on the grounds that it is a small company.

**Turnover**

Turnover represents the invoiced value of goods and services supplied by the company, net of value added tax and trade discounts.
