Chalgrove Solar Limited

Directors' Report For The Year Ended 31 December 2019

The directors present their report with the financial statements of the Company for the year ended 31 December 2019.

This directors' report has been prepared in accordance with the provisions applicable to companies entitled to the small companies' exemption.

Further information on the basis of preparation of these financial statements and the going concern assumption can be found in note 2.

Principal activity

The principal activity of the Company in the year under review was the operation of the 21MW solar farm in Oxfordshire and this is expected to continue to be the principal activity of the Company.

Impact of COVID-19

Since the start of 2020 there has been an outbreak of COVID-19 (coronavirus) which has led to uncertainty in the market. The directors continue to follow advice given by the World Health Organisation and Public Health England to ensure that best practice measures are followed. To date there has not been a material impact on the company's operations. The directors do not believe that there is a significant risk to the business as a result of the COVID-19 pandemic but will continue to monitor any future developments.

Dividends

The loss during the year ended 31 December 2019 was £(8,696,228) (31 December 2018: £108,810 profit).

The directors did not pay any interim dividend in the period (31 December 2018: £nil).

The directors have not recommended payment of a final dividend (31 December 2018: £nil).

Events since the end of the year

Information relating to events since the end of the year is given in the notes to the financial statements.

Directors

The directors shown below have held office during the whole of the period from 1 January 2019 to the date of this report.

S C Tetot
J K Rhodes-Journeay

Chalgrove Solar Limited

Directors' Report

For The Year Ended 31 December 2019

Going concern

The directors have a reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future, in spite of the post balance sheet events discussed in note 13. Accordingly, they continue to adopt the going concern basis in preparing the financial statements.

The impact of the COVID-19 pandemic on operations and going concern has been assessed by the directors. To date, there has not been a material impact on the Company's operations or supply chain. The directors expected a negative impact on power prices in the short term due to a reduction in demand for electricity and lower commodities prices and whilst this has happened to a degree, we have recently seen power prices stabilising at more normal levels. Therefore to ensure more certainty over its cash flows, the Company entered in to power price fix agreements until September 2021 and as such power price variations are not expected to cause any going concern issues. The directors will continue to closely monitor the situation and to take appropriate action if deemed necessary.

Further details regarding the adoption of the going concern basis can be found in note 2 of the Accounting Policies.

Risks and uncertainties

The Company is exposed to fluctuations in UK power prices. The company seeks to manage the volatility in power prices by fixing prices at least six months in advance whenever possible.

The outbreak of COVID-19 is a very significant humanitarian and economic event facing many businesses. It has become clear that this will result in a significant economic slowdown, if not recession, in the months ahead. However, the directors believe that the impact of COVID-19 to the Company will be a temporary disruption and will ultimately pass. In the meantime, the business model has been stress tested to understand what the impact would be, with further details provided in the Going concern section of this annual report.

Directors' indemnities

The Company has made qualifying third party indemnity provisions for the benefit of its directors which were made during the period and remain in force at the date of this report.

Statement as to disclosure of information to auditors

So far as the directors are aware, there is no relevant audit information (as defined by Section 418 of the Companies Act 2006) of which the Company's auditors are unaware, and each director has taken all the steps that he or she ought to have taken as a director in order to make himself or herself aware of any relevant audit information and to establish that the Company's auditors are aware of that information.

Chalgrove Solar Limited

**Directors' Report
For The Year Ended 31 December 2019**

Auditors

The auditors, Deloitte LLP, will be proposed for re-appointment at the forthcoming Annual General Meeting.

On behalf of the board:

S C Tetot - Director

11 December 2020

Chalgrove Solar Limited

Statement of Directors' Responsibilities For The Year Ended 31 December 2019

The directors are responsible for preparing the Directors' Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law), including Financial Reporting Standard 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland'. Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Independent auditor's report to the members of Chalgrove Solar Limited

Report on the audit of the financial statements

Opinion

In our opinion the financial statements of Chalgrove Solar limited (the 'company'):

- give a true and fair view of the state of the company's affairs as at 31 December 2019 and of its loss for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice, including Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland"; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

We have audited the financial statements which comprise:

- the statement of comprehensive income;
- the balance sheet;
- the statement of changes in equity;
- the related notes 1 to 14.

The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" (United Kingdom Generally Accepted Accounting Practice).

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the auditor's responsibilities for the audit of the financial statements section of our report.

We are independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the Financial Reporting Council's (the 'FRC's') Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

We are required by ISAs (UK) to report in respect of the following matters where:

- the directors' use of the going concern basis of accounting in preparation of the financial statements is not appropriate; or
- the directors have not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the company's ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

We have nothing to report in respect of these matters.

Other information

The directors are responsible for the other information. The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in respect of these matters.

Responsibilities of directors

As explained more fully in the directors' responsibilities statement, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Report on other legal and regulatory requirements

Opinions on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the directors' report has been prepared in accordance with applicable legal requirements.

In the light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we have not identified any material misstatements in the directors' report.

Matters on which we are required to report by exception

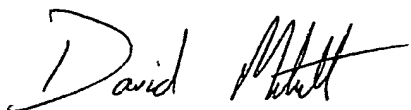

Under the Companies Act 2006 we are required to report in respect of the following matters if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit; or
- the directors were not entitled to prepare the financial statements in accordance with the small companies regime and take advantage of the small companies' exemptions in preparing the directors' report and from the requirement to prepare a strategic report.

We have nothing to report in respect of these matters.

Use of our report

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Chalgrove Solar Limited

Notes to the Financial Statements For The Year Ended 31 December 2019

1. General information

Chalgrove Solar Limited is a private company, limited by shares, registered in England and Wales. The company's registered number and registered office address can be found on the Company Information page.

**Notes to the Financial Statements - continued
For The Year Ended 31 December 2019**

2. Accounting policies

Basis of preparing the financial statements

The financial statements have been prepared in accordance with the applicable United Kingdom accounting standards, including Financial Reporting Standard 102 section 1A small entities - 'The Financial Reporting Standard applicable in the United Kingdom and Republic of Ireland' ('FRS 102'), and with the Companies Act 2006. The particular accounting policies adopted are described below and have been applied consistently throughout the current and prior financial period.

Section 1A for small companies has been applied on the basis that the entity meets the criteria set out within the Companies Act. The directors believe the entity is part of an eligible group on the basis that the ultimate controlling party is not listed on any market.

The Company has taken advantage of the exemptions available to small entities under section 1A in relation to presentation of a cash flow statement and disclosures of net finance charge, current taxation, financial instruments, share capital and reserves.

The financial statements are prepared under the historical cost convention, except for the modification to a fair value basis for certain financial instruments as specified in the accounting policies below.

Going concern

The financial statements have been prepared on the basis the Company is a going concern, which the directors consider appropriate.

The directors have separately reviewed integrated forecasts for the Company, for the foreseeable future being at least 12 months from the date of approval of the annual report which indicate that in spite of the post balance sheet events discussed in note 13, the Company will be able to meet its cash flow demands and liabilities as they fall due from cash flows from operations and existing working capital.

The impact of the COVID-19 pandemic on operations and going concern has been assessed by the directors. To date, there has not been a material impact on the Company's operations or supply chain. The directors expected a negative impact on power prices in the short term due to a reduction in demand for electricity and lower commodities prices and whilst this has happened to a degree, we have recently seen power prices stabilising at more normal levels. Therefore to ensure more certainty over its cash flows, the Company entered in to power price fix agreements until September 2021 and as such power price variations are not expected to cause any going concern issues. The directors will continue to closely monitor the situation and to take appropriate action if deemed necessary.

The directors have written confirmation that RI Income UK Holdings Limited intends to continue to financially support the Company during the 12 months following the date the financial statements are signed. And after the financial period end and as detailed in note 13, the Company had its interest free loan waived via a capital contribution and also issued share capital at par in December 2020. The proceeds of the issued share capital were used to pay down the intercompany loan and returned the Company to a net asset position and means that the loans now reflect an amount that the Company projects will be repaid in full.

Notes to the Financial Statements - continued
For The Year Ended 31 December 2019

2. Accounting policies - continued

Critical accounting judgements and key sources of estimation uncertainty

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the amounts reported for assets and liabilities as at the balance sheet date and the amounts reported for revenues and expenses during the year. However, the nature of estimation means that actual outcomes could differ from those estimates.

Critical judgements

The following judgements (apart from those involving estimates) have had the most significant effect on amounts recognised in the financial statements.

Deferred taxation

Deferred tax assets are only recognised when management deem that it is highly probable that there will be sufficient taxable profits in future periods which can utilise the deferred tax asset.

Operating lease commitments

The classification of leases as operating or finance leases requires the Company to determine, based on evaluation of the terms and conditions of the arrangements, whether it acquires the significant risks and rewards of ownership of these assets and accordingly whether the lease requires recognition on the balance sheet.

Key sources of estimation uncertainty

The estimates and assumptions which have a significant risk of causing a material adjustment to the carrying amount of assets and liabilities are as follows.

Decommissioning provision

Liabilities for decommissioning costs are recognised when the Company has an obligation to decommission and restore the land, with which the project has been built upon, to its original state. The obligation is assessed annually for changes in estimated costs which are then discounted to their net present value. If the net present value is deemed to be immaterial then no provision is recognised.

Impairment of tangible fixed assets

During the year, the recoverability of tangible fixed assets was considered as an indicator of impairment was identified (see note 13 for more details). A value in use calculation lead to an impairment of tangible fixed assets with the asset now being carried at amount expected to be recovered in full through use. This situation will be closely monitored, and adjustments made in future periods if future market activity indicates that adjustments are appropriate.

Notes to the Financial Statements - continued
For The Year Ended 31 December 2019

2. Accounting policies - continued

Turnover

Turnover represents the value of power generated during the year, excluding value added tax, in the UK.

Turnover recognition

Turnover is recognised when the significant risks and rewards are considered to have transferred to the buyer and is recorded at the fair value of the consideration received or receivable. The following specific recognition criteria must also be met before turnover is recognised:

a) Generation and embedded benefits turnover

Turnover from the sale of electricity represents the invoice value, pre sales tax, of electricity provided to third parties and is recognised when electricity is generated. Embedded benefits are paid to generating plant located on the distribution network to reflect the lower cost of transporting electricity to the end user and are recorded at the invoice value.

b) ROCs turnover

Renewable Obligation Certificates (ROCs) are issued to qualifying renewable generators under the terms of the generating station's OFGEM Renewable Obligation registration. These certificates may be traded separately from the electricity to which they relate. The ROCs are recorded as accrued income at fair value and recognised in turnover when the electricity to which they relate is generated. Any impairment of ROCs due to reduction in the market price is recorded in profit and loss. However, the Company is no longer a qualifying entity (see note 13 for details) and accordingly no ROC related revenue has been recognised in the financial year and furthermore the brought forward accrued ROC income was impaired to £nil.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Solar farm plant & machinery - Straight line over 25 years

Plant and machinery is stated at cost less accumulated depreciation and accumulated impairment in value. Such cost includes the cost of replacing part of such plant and equipment when that cost is incurred if the recognition criteria are met, but excludes the costs of day-to-day servicing which is expensed as incurred.

Notes to the Financial Statements - continued
For The Year Ended 31 December 2019

2. Accounting policies - continued

Financial instruments

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument.

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities.

Financial assets and liabilities

All financial assets and liabilities are initially measured at transaction price (including transaction costs), except for those financial assets classified as at fair value through profit or loss, which are initially measured at fair value (which is normally the transaction price excluding transaction costs), unless the arrangement constitutes a financing transaction. If an arrangement constitutes a financing transaction, the financial asset or financial liability is measured at the present value of the future payments discounted at a market rate of interest for a similar debt instrument.

Financial assets and liabilities are only offset in the statement of financial position when, and only when there exists a legally enforceable right to set off the recognised amounts and the Company intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Financial assets are derecognised when and only when a) the contractual rights to the cash flows from the financial asset expire or are settled, b) the Company transfers to another party substantially all of the risks and rewards of ownership of the financial asset, or c) the Company, despite having retained some, but not all, significant risks and rewards of ownership, has transferred control of the asset to another party.

Financial liabilities are derecognised only when the obligation specified in the contract is discharged, cancelled or expires.

Equity instruments

Equity instruments issued by the Company are recorded at the fair value of cash or other resources received or receivable, net of direct issue costs.

Notes to the Financial Statements - continued
For The Year Ended 31 December 2019

2. Accounting policies - continued
Financial instruments - continued

Impairment of assets

Assets, other than those measured at fair value, are assessed for indicators of impairment at each balance sheet date. If there is objective evidence of impairment, an impairment loss is recognised in profit or loss as described below.

Non-financial assets

An asset is impaired where there is objective evidence that, as a result of one or more events that occurred after initial recognition, the estimated recoverable value of the asset has been reduced. The recoverable amount of an asset is the higher of its fair value less costs to sell and its value in use.

Where indicators exist for a decrease in impairment loss, the prior impairment loss is tested to determine reversal. An impairment loss is reversed on an individual impaired asset to the extent that the revised recoverable value does not lead to a revised carrying amount higher than the carrying value had no impairment been recognised for financial assets carried at amortised cost, the amount of impairment is the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the financial asset's original effective interest rate.

For financial assets carried at cost less impairment, the impairment loss is the difference between the asset's carrying amount and the best estimate of the amount that would be received for the asset if it were to be sold at the reporting date.

Where indicators exist for a decrease in impairment loss, and the decrease can be related objectively to an event occurring after the impairment was recognised, the prior impairment loss is tested to determine reversal. An impairment loss is reversed on an individual impaired financial asset to the extent that the revised recoverable value does not lead to a revised carrying amount higher than the carrying value had no impairment been recognised.

Notes to the Financial Statements - continued
For The Year Ended 31 December 2019

2. Accounting policies - continued

Taxation

Current tax, including UK corporation and foreign tax, is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more, tax, with the following exceptions:

- provision is made for tax on gains arising from the revaluation (and similar fair value adjustments) of fixed assets, and gains on disposal of fixed assets that have been rolled over into replacement assets, only to the extent that, at the balance sheet date, there is a binding agreement to dispose of the assets concerned. However, no provision is made where, on the basis of all available evidence at the balance sheet date, it is more likely than not that the taxable gain will be rolled over into replacement assets and charged to tax only where the replacement assets are sold;

- deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

Where items recognised in other comprehensive income or equity are chargeable to or deductible for tax purposes, the resulting current or deferred tax expense or income is presented in the same component of comprehensive income or equity as the transaction or other event that resulted in the tax expense or income.

Deferred tax assets and liabilities are offset only if the Company has a legally enforceable right to set off current tax assets against current tax liabilities.

Notes to the Financial Statements - continued
For The Year Ended 31 December 2019

2. Accounting policies - continued

Cash

Cash at bank and in hand on the balance sheet comprise of cash in hand and deposits held at call with banks.

Accrued income

Accrued income represents accruals for electricity generation and in the prior year included unbilled ROC income.

Dividend distribution

Dividend distribution to the Company's shareholders is recognised as a liability in the financial statements in the year in which the dividends are approved by the Company's shareholders.

Decommissioning provision

Liabilities for decommissioning costs are recognised when the Company has an obligation to decommission and restore the land, with which the project has been built upon, to its original state. The obligation is assessed annually for changes in estimated costs which are then discounted to their net present value. If the net present value is deemed to be immaterial then no provision is recognised.

When this provision relates to an asset with sufficient future economic benefits, a decommissioning asset is recognised and included as part of the associated plant and machinery and depreciated accordingly. Changes in these estimates and changes to the discount rates are dealt with prospectively and reflected as an adjustment to the provision with a corresponding decommissioning asset included within plant and machinery. Unwinding of the discount on the provision is included in the income statement within interest expense.

Operating leases

Rentals paid under operating leases are charged to income on a straight line basis over the term of the lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised on a straight-line basis over the lease term.

Borrowing costs

Borrowing costs are expensed as incurred.

3. Turnover

The turnover and loss (2018 - profit) before taxation are attributable to the one principal activity of the Company.

4. Employees and directors

There were no staff costs for the year ended 31 December 2019 nor for the year ended 31 December 2018.

The average number of employees during the year was NIL (2018 - NIL).

Services are provided to the Company through a third party asset management agreement.

Chalgrove Solar Limited

Notes to the Financial Statements - continued For The Year Ended 31 December 2019

4. Employees and directors - continued

No Directors received any remuneration from the Company during the period (31 December 2018: Nil).

5. Operating (loss)/profit

The operating loss (2018 - operating profit) is stated after charging:

	2019	2018
	£	£
Rentals under operating lease	131,901	126,629
Depreciation - owned assets	821,523	800,509
Auditor's remuneration - auditing of financial statements	5,850	5,320

At 31 December 2019	8,550,000
	<u>8,550,000</u>
At 31 December 2018	17,299,192
	<u>17,299,192</u>

Impairment in the year relates to tangible fixed assets being impaired down to their recoverable amount through a value in use calculation - see note 13 for more information.

Chalgrove Solar Limited

Notes to the Financial Statements - continued For The Year Ended 31 December 2019

7. Debtors: amounts falling due within one year

	2019 £	2018 £
Trade debtors	-	13,538
Amounts owed by group companies	106,842	107,399
Other debtors	-	19,876
Deferred tax asset	1,639,279	94,430
Accrued income	32,786	1,191,654
Prepayments	62,929	55,684
	<u>1,841,836</u>	<u>1,482,581</u>

Deferred tax asset

	2019 £	2018 £
Accelerated capital allowances	1,439,352	94,430
Tax losses carried forward	199,927	-
	<u>1,639,279</u>	<u>94,430</u>

Within amounts owed by group companies there is an amount of £96,341 (31 December 2018: £Nil) owed by Glens of Foudland Wind Farm Limited for intercompany group relief surrendered and £10,501 (31 December 2018: £107,399) which relates to an intercompany group relief surrender estimate. All amounts are repayable on demand.

8. Creditors: amounts falling due within one year

	2019 £	2018 £
Trade creditors	106,563	60,221
Amounts owed to group companies	20,334,151	19,938,297
VAT	9,265	36,323
Other creditors	57,410	57,410
Accruals	20,630	22,386
	<u>20,528,019</u>	<u>20,114,637</u>

Amounts owed to group companies are repayable on demand.

Within amounts owed to group companies there is an interest free loan from its immediate parent company, RI Income UK Holdings Limited of £5,101,272 (31 December 2018: £5,093,482), an interest bearing amount of £15,208,205 owed to BRI Finance UK Limited (31 December 2018: £14,836,905) and the remaining balance relates to group relief owed to RI UK Solar Holdings Limited of £24,674 (31 December 2018: £7,910).

Included within the interest bearing amount is an interest charge during the period of £711,370 (31 December 2018: £340,069).

Refer to note 13, for post balance sheet date changes to the intercompany loans.

Notes to the Financial Statements - continued For The Year Ended 31 December 2019

9. Leasing agreements

Minimum lease payments under non-cancellable operating leases fall due as follows:

	2019	2018
	£	£
Within one year	136,191	134,032
Between one and five years	544,763	536,128
In more than five years	2,179,054	2,278,545
	<u>2,860,008</u>	<u>2,948,705</u>

10. Deferred tax

	£
Balance at 1 January 2019	(94,430)
Credit to Income Statement during year	<u>(1,544,849)</u>
Balance at 31 December 2019	<u><u>(1,639,279)</u></u>

11. Off-balance sheet arrangements

The Company enters into operating lease arrangements for the land on which the wind farm is located. The Company's lease rental expense is disclosed in note 5 and the Company commitments under these arrangements are disclosed in note 9. There are no other material off-balance sheet arrangements.

12. Related party disclosures

The Company has taken advantage of exemption, under the terms of Financial Reporting Standard 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland', not to disclose related party transactions with wholly owned subsidiaries within the group.

Notes to the Financial Statements - continued
For The Year Ended 31 December 2019

13. Events after the financial period

Adjusting events

On 24 August 2020, the UK Energy Regulator, OFGEM withdrew the Company's Renewable Obligation Scheme accreditation. This action was taken after the conclusion of an on-going audit of the original accreditation delivered an unsatisfactory assurance rating and OFGEM was unable to attain suitable satisfaction that certain accreditation conditions had been met.

The accreditation entitled the Company to Renewable Obligation Certificates (ROCs) which were a substantial source of income. The revocation of this accreditation means that no further ROCs are to be issued to the Company and the accrued income from ROCs held on the Balance Sheet at 31 December 2018 will not be realised. This represents an adjusting event and therefore the current ROC debtor was impaired to £nil in the year ended 31 December 2019, with an impairment of £1,170,897 charged to the profit or loss.

The ruling led to a further adjusting event as it materially impacts the future cash flows of the Company and constitutes an indicator of impairment in relation to the Fixed Assets. An assessment was carried out to determine whether Fixed Assets held, at the Balance Sheet date of 31 December 2019, are at the lesser of a carrying amount or the recoverable amount. The recoverable amount was deemed to £8,550,000 and was determined by applying a value in use calculation that modelled the present value of future cash flows associated with the Fixed Assets. The difference between the carrying amount and the recoverable amount was charged as an impairment to the profit or loss and equated to £7,990,691.

Non-adjusting events

The Company is financed through two intercompany loans, one that bears interest and one that is interest free - both are repayable on demand. As a result of the value in use calculation it became apparent that the Company would unlikely be in a position to pay these loans back in full from future cash flows. As such, on 7 December 2020, the parent company agreed to waive the remaining interest free loan balance of £5,093,482 via a capital contribution. On the same date, the Company issued share capital 8,522,440 at £1 par and used the proceeds to repay £8,522,440 of the interest bearing loan. The outstanding amounts on the interest bearing loan following the repayment reflects an amount that the Company projects will be repaid in full and as such there is no requirement to write down the intercompany loans as at 31 December 2019 and this constitutes a non-adjusting event after the financial period.

Initial indications show that an impairment review conducted as at the signing date of these financial statements would lead to a further impairment due to movements in the forward power price curve. However, a full assessment will be performed at 31 December 2020 with any resulting impairment charge being booked in the profit or loss of the financial statement for the year ended 31 December 2020.

As noted in the Directors' Report the directors have considered the impact of the COVID-19 pandemic. At the time of signing, it is expected that the pandemic will have a limited impact on the performance of the solar farm. Accordingly, there has been no adjustment to any current or prior year figures as a result of the pandemic, and the going concern basis is still deemed appropriate.
