NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 MARCH 2021

1. ACCOUNTING POLICIES

Basis of preparing the financial statements

The financial statements of the charitable company, which is a public benefit entity under FRS 102, have been prepared in accordance with the Charities SORP (FRS 102) 'Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) (effective 1 January 2019)', Financial Reporting Standard 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' and the Companies Act 2006. The financial statements have been prepared under the historical cost convention, as modified by the revaluation of certain assets.

Income

All incoming resources are included on the Statement of Financial Activities (SOFA) when the charity is legally entitled to the income and the amount can be quantified with reasonable accuracy.

Income from room hire is recognised when the hire takes place.

Office hire is recognised by reference to the period to which it relates. Rent is charged in accordance with the terms of the rental agreement.

Fitness centre income is recognised when paid. When a payment is made for an extended period it is credited evenly over the period to the SOFA.

Donations and similar incoming resources represent monies received by the charity from charitable donations and gifts. These are recognised in the Statement of Financial Activities upon receipt.

Grant income is accounted for on an accruals basis and is shown in the financial statements when the Charity earns the unconditional right to the funds. Grants received for a specific purpose are treated as restricted funds. Revenue grants are credited directly to the Statement of Financial Activities and Capital grants are released over the life of the asset in line with the depreciation policy.

Interest Receivable

Interest on funds held on deposit is included when receivable and the amount can be measured reliably by the charity; this is normally upon notification of the interest paid or payable by the Bank.

Expenditure

Liabilities are recognised as expenditure as soon as there is a legal or constructive obligation committing the charity to that expenditure, it is probable that a transfer of economic benefits will be required in settlement and the amount of the obligation can be measured reliably. Expenditure is accounted for on an accruals basis and has been classified under headings that aggregate all cost related to the category. Where costs cannot be directly attributed to particular headings they have been allocated to activities on a basis consistent with the use of resources.

The cost of generating funds comprises those costs associated with attracting grant income. Charitable expenditure comprises those costs incurred by the Charity in the delivery of its activities, both costs directly attributable and indirect support costs. Governance costs include those costs associated with meeting constitutional and statutory requirements of the Charity.

All costs allocated between expenditure categories are on a basis designed to reflect their resource usage. For some costs this means direct allocation to activities, other costs are apportioned, e.g. by staff time spent on the activity, or another equitable usage measure.

Joint delivery costs are recognised in the period which they are awarded to the extent that they have been expended in accordance with the funding terms and conditions.

The Charity initially identifies the costs of its support functions. Support costs include back office costs, finance, personnel, payroll and governance costs which support the charities programmes and activities. Having identified its governance costs, the remaining support costs together with the governance costs are apportioned between the three key charitable activities undertaken in the year.

NOTES TO THE FINANCIAL STATEMENTS - continued
FOR THE YEAR ENDED 31 MARCH 2021

1. ACCOUNTING POLICIES - continued

Allocation and apportionment of costs

Costs have been allocated as far as possible between the expenditure categories of the SOFA on a basis designed to reflect the use of the resource. Costs relating to a particular activity are allocated directly. Others have been apportioned based on the estimated usage of the resource.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Freehold Property - 2% on cost

Fixtures and Fittings - 20% on cost

Improvements to Property - 2% on cost

Plant and Machinery - 20% on cost

Included in freehold property is a land element which has a nil depreciation rate.

Taxation

The charity is exempt from corporation tax on its charitable activities.

Fund accounting

Unrestricted funds are available for use at the discretion of the Trustees in furtherance of the general objectives of the Charity and which have not been designated for other purposes.

Designated funds are unrestricted funds earmarked by the Trustees for particular purposes falling in future time periods.

Restricted funds are funds subject to specific restrictions imposed by donors or which have been raised by the Charity for particular purposes. The aim and use of each restricted fund is set out in the notes to the financial statements.

A future explanation of the nature and purpose of each fund is included in the notes to the financial statements.

Foreign currencies

Assets and liabilities in foreign currencies are translated into sterling at the rates of exchange ruling at the balance sheet date. Transactions in foreign currencies are translated into sterling at the rate of exchange ruling at the date of transaction. Exchange differences are taken into account in arriving at the operating result.

Hire purchase and leasing commitments

Assets obtained under hire purchase contracts or finance leases are capitalised in the balance sheet. Those held under hire purchase contracts are depreciated over their useful lives. Those held under finance leases are depreciated over their estimated useful lives.

The interest element of these obligations are charged to the SOFA over the relevant period. The capital element of the future payments is treated as a liability.

Rentals paid under operating leases are charged to the SOFA on a straight line basis over the period of the lease.

Pension costs and other post-retirement benefits

The charity operates a defined contribution scheme for the benefit of its employees. Contributions payable are recognised in the profit and loss account when due.

Trade and other debtors are recognised at the settlement amount due after any trade discount offered. Prepayments are valued at the amount prepaid net of any trade discounts due.

Cash at bank and in hand

Cash at bank and cash in hand includes cash and short term highly liquid investments with a short maturity of three months or less from the date of acquisition or opening of the deposit or similar account.

Creditors and provisions

Creditors and provisions are recognised where the charity has a present obligation resulting from a past event that will probably result in the transfer of funds to a third party and the amount due to settle the obligation can be measured or estimated reliably. Creditors and provisions are normally recognised at their settlement amount after allowing for any trade discounts due.

Financial instruments

The charity only has financial assets and financial liabilities of a kind that qualify as basic financial instruments. Basic financial instruments are initially recognised at transaction value and subsequently measured at their settlement value with the exception of bank loans which are subsequently measured at amortised cost using the effective interest method.

Hire purchase and leasing commitments

Assets obtained under hire purchase contracts or finance leases are capitalised in the balance sheet. Those held under hire purchase contracts are depreciated over their useful lives. Those held under finance leases are depreciated over their estimated useful lives.

The interest element of these obligations are charged to the SOFA over the relevant period. The capital element of the future payments is treated as a liability.

Rentals paid under operating leases are charged to the SOFA on a straight line basis over the period of the lease.

Going Concern

The trustees consider that there are no material uncertainties about the charity's ability to continue as a going concern.

Legal status of the charity

The charity is a company limited by guarantee. In the event of the charity being wound up, the liability in respect of the guarantee is limited to £10 per member of the charity.

The Board of Trustees have reviewed the market value and feel that the value in use of the property is greater than the market value due to the subsidised rents they offer clients and that the NBV of £1,398,140 reflects this (2019: £1,431,073). As a result the Board of Trustees have decided not to impair the asset. The Board of Trustees will review the position annually.

Included within Freehold Property is land, to the value of £120,000 that is not depreciated.

The freehold property is not considered to be a mixed use property by the trustees as the property is used to establish a third sector hub to benefit the community rather than to earn rentals.
