**This Is The Big Deal Limited**

**Strategic report  
For the year ended 30 September 2022**

**Review of the business**

The Company's principal activity is the provision of a leading UK energy auto-switching service that is dedicated to finding better energy deals for consumers.

The loss for the financial year was £321,942 (2021: £4,576,937 inclusive of group recharges). The Company generated revenue of £42,663 for the year to 30 September 2022, significantly down on £8,467,491 for the prior period. The continued turbulence within the UK energy market has directly impacted the auto-switch service offering by the Company, and as such has been minimal during the year as the Company took the decision to pause operations whilst alternative autosave products continue to be pursued.

At year end, the Company had a cash balance of £7,747 (2021: £1,124,962) and net liabilities of £10,398,020 (2021: £10,076,078). The increase in net liabilities is primarily due to the reduction in cash held and decrease in accrued income.

**Principal risks and uncertainties**

The management of the business and the execution of the Company's strategy are subject to a number of risks and the Directors operate a continuous process of identifying, evaluating and managing such risks. The key business risks and uncertainties faced by the Company are considered to relate to: compliance with existing and changing regulatory requirements which is managed via specialist in-house legal and compliance resources as well as regulatory training and development; reliance on high performing tech & data science solutions which is mitigated through continued development in core technology infrastructure; reliance on the UK energy market; retention of key people and cyber risk. Further information in respect of key person risk and cyber risk are detailed within the Financial Review on pages 68 to 70 of the Future plc Annual Report 2022.

The company continues to focus closely on working capital and cash management, including regular review of outstanding debtors, prompt invoicing and assessing the need for any discretionary or variable marketing spend. Given the net liability position at year end, a letter of support has been provided by the Company's new ultimate parent, Future plc, confirming that funding will be made available to the Company if required in order to settle its obligations as they fall due for a period of at least 12 months from the approval of these financial statements.

**Strategy and future developments**

Each Director is aware of their individual responsibilities under section 172 of The Companies Act 2006 and act in good faith to promote the success of the company for the benefit of its shareholders. Collectively, the Directors are responsible and have regard for the longer-term success of the Company including formulation of the overall strategy to help deliver the Company's objectives, maintaining business relationships, acting in the interests of the Company's employees and to maintain high standards of business conduct and corporate responsibility.

Due to the turbulent UK energy market, the current auto-switch process is paused whilst alternative autosave products are pursued.

**Key performance indicators**

Given the nature of the Company, the Directors do not consider it necessary to provide an analysis of KPIs, beyond the performance shown in the Statement of Comprehensive Income.

**Approved by the Board and signed on its behalf by**

R W Tompkins  
Director  
25 January 2023

**This Is The Big Deal Limited**

**Directors' report  
For the year ended 30 September 2022**

The Directors present their Annual Report and Financial Statements for the year ended 30 September 2022. The comparatives presented are for the 9 months ended 30 September 2021, following the decision to change the accounting reference date during the prior period to align with its parent, Future plc.

**Principal activities**

The Company, trading as Look After My Bills, 'LAMB', is a UK energy auto-switching service provider. The Company's principal activity is the provision of an energy auto-switching service that is dedicated to finding better energy deals for consumers. However, due to the turbulent UK energy market, the current auto-switch process is paused whilst alternative autosave products continue to be pursued.

**Dividends**

The directors do not recommend payment of a dividend in respect of the financial year, dividends of £nil were paid during the year (2021: £nil).

**Future developments**

This Is The Big Deal's strong reputation and experience in the domestic energy market complement GoCompare's long-established position as a leading provider of financial and non-financial products comparison services, together with strengthening the Future Group's Autosave capabilities within the energy sector. Pursuing alternative autosave products and continued tech and product development expertise will aim to reduce hassle for consumers by making *good deals easier to find and switch to*.

**Directors**

The Directors who served during the period and up to the date of signing this report were:

Z E Byng-Thorne  
P A Ladkin-Brand (appointed 1 November 2021)  
R W Tompkins (appointed 18 December 2022)  
R B Addison (resigned 31 October 2021)

**Political Contributions**

The Company made no political donations or incurred any political expenditure during the period (2021: none).

**Financial risk management**

The Company's activities expose it to a variety of financial risks, principally liquidity risk.

**Credit risk**

The entity receives substantially all of its income from a fellow Group undertaking, GoCompare.com Limited. If a customer were to default on amounts due to Energylinx Limited, LAMB would not receive its respective income, however would still incur the cost of its marketing spend. However, due to the turbulent UK energy market, the current auto-switch process is paused whilst alternative autosave products continue to be pursued, therefore the Company is not exposed to credit risk.

**This Is The Big Deal Limited**  
**Directors' report**  
**For the year ended 30 September 2022**

**Liquidity risk**

Liquidity risk is the risk that the Company, although solvent, may not have sufficient financial resources available to enable it to meet its debt interest and repayment obligations as they fall due. Liquidity risk is managed on a group basis, see page 172 of the Future plc Annual Report 2022.

**Statement of Directors' responsibilities in respect of the Annual report and the financial statements**

*The directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and regulations.*

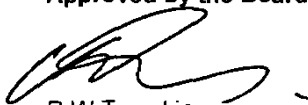

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice and applicable law (United Kingdom Accounting Standards and applicable law), including FRS 101 "Reduced Disclosure Framework".

Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable UK accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- assess the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and
- use the going concern basis of accounting unless they either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error, and have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the company and to prevent and detect fraud and other irregularities.

**Approved by the Board and signed on its behalf by**

R W Tompkins  
Director  
25 January 2023

For the year ended 30 September 2022, the Company was entitled to exemption from audit under section 479A of the Companies Act 2006 relating to subsidiary companies.

**Director's responsibilities:**

- the members have not required the Company to obtain an audit of its accounts for the year in question in accordance with section 476;
- the Directors acknowledge their responsibilities for complying with the requirements of the Act with respect to accounting records and the preparation of the accounts.

The notes on pages 10 to 18 form part of these financial statements. The financial statements were approved by the Board on 25 January 2023 and signed on its behalf.

**This Is The Big Deal Limited**

**Notes to the financial statements  
For the year ended 30 September 2022**

**1. General information**

This Is The Big Deal Limited is a private company limited by shares incorporated in England and Wales. Its registered office is Imperial House, Imperial Way, Newport, NP10 8UH. The Company's subsidiary is located in the United Kingdom. The principal activity of the Company is the provision of an energy auto-switching service that is dedicated to finding better energy deals for consumers.

The financial statements have been presented in pounds sterling which is the functional currency. During the prior period, the company changed its accounting reference date to 30 September from 31 December to align with its parent, Future plc. The comparative period presented is therefore the 9 months ended 30 September 2021. Given the differing length in accounting periods, the current year and comparative are not directly comparable.

**2. Summary of significant accounting policies**

**Basis of preparation**

The financial statements of the Company have been prepared in accordance with Financial Reporting Standard 101, 'Reduced Disclosure Framework' (FRS 101). The financial statements have been prepared under the historical cost convention, except for certain financial assets that are measured at fair value, and in accordance with the Companies Act 2006.

The preparation of financial statements in conformity with FRS 101 requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in note 3.

In these financial statements, the Company has applied the exemptions available under FRS 101 in respect of the following disclosures:

- A Cash Flow Statement and related notes under IAS 7;
- Comparative period reconciliations for intangible assets and tangible fixed assets;
- Disclosures in respect of capital management;
- Specified disclosure exemptions for related party transactions entered into between two or more members of a group in respect of the disclosures that would otherwise be needed under IAS 24 Related Party Disclosures;
- Disclosure of the compensation of Key Management Personnel;
- The effects of new but not yet effective IFRSs; and
- Certain disclosures required by IFRS13 Fair Value Measurement and the disclosures required by IFRS 7 Financial Instrument Disclosures.

No new accounting standards, or amendments to accounting standards, or IFRIC interpretations that are effective for the period ended 30 September 2022, have had a material impact on the company.

The accounting policies set out below have, unless otherwise stated, been applied consistently to all periods presented in these financial statements.

Given the net liability position at year end, a letter of support has been provided by the Company's ultimate parent, Future plc, confirming that funding will be made available to the Company if required in order to settle its obligations as they fall due for a period of at least 12 months from the approval of these financial statements. The provision of the letter of support allows the directors to consider it appropriate to adopt the going concern basis of accounting in preparing the financial statements.

**This Is The Big Deal Limited**

**Notes to the financial statements  
For the year ended 30 September 2022**

**2. Summary of significant accounting policies (continued)**

**Revenue**

Revenue represents amounts receivable in respect of energy switching services provided to customers, primarily via *GoCompare.com Limited*, a fellow trading subsidiary of the *Future plc* group. Revenue is recognised at the point at which a successful switch is confirmed at the fair value of the consideration received or receivable, net of an estimate for cancellations. Revenue is accrued and validated through data and ultimately cash receipts received.

**Cost of sales and administrative expenses**

Cost of sales comprise all costs which are directly attributable to marketing of a specific product. In the current period this represents payments made in respect of marketing & advertising costs. Administrative expenses comprise all other staff, systems and remaining costs incurred.

**Finance costs**

Finance costs comprise of interest paid which is recognised in the Statement of Comprehensive Income as it accrues and is calculated by using the effective interest rate method. Accrued interest is included within the carrying value of the interest bearing financial liability.

**Taxation**

*Current tax*

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities on the taxable income for the period. The tax rates and tax laws used to compute the amount are those enacted or substantively enacted by the reporting date.

Current tax assets and liabilities also include adjustments in respect of tax expected to be payable or recoverable in respect of previous periods. Current tax relating to items recognised directly in equity or other comprehensive income is recognised in equity or other comprehensive income as appropriate.

*Deferred tax*

Deferred tax is provided in full using the balance sheet liability method, providing for temporary differences arising between the carrying amount of assets and liabilities for accounting purposes, and the amounts used for taxation purposes. It is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is recovered, using tax rates enacted or substantially enacted by the reporting date.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised. Deferred tax relating to items recognised outside the income statement is recognised either in other comprehensive income or directly in equity as appropriate. Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

**Investments in subsidiary undertakings**

Investments in subsidiary undertakings are stated at cost less provision for any impairment in value.

**Cash and cash equivalents**

Cash and cash equivalents includes cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours.

**This Is The Big Deal Limited****Notes to the financial statements  
For the year ended 30 September 2022****2. Summary of significant accounting policies (continued)****Financial assets***Recognition and initial measurement*

Trade receivables are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument. A financial asset (unless it is a trade receivable without a significant financing component) is initially measured at fair value plus transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

*Classification and subsequent measurement*

The Company's financial assets include trade and other receivables and cash at bank, which are classified and measured at amortised cost. These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

The Company determines the classification of its financial assets at initial recognition. Financial assets are not reclassified subsequent to their initial recognition unless the Company changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

*Impairment of financial assets*

The Company assesses at each balance sheet date whether any financial assets held at amortised cost are impaired. Financial assets are impaired where there is evidence that one or more events occurring after the initial recognition of the asset may lead to a reduction in the estimated future cash flows arising from the asset. Impairment losses on financial assets classified as loans and receivables are calculated as the difference between the carrying value and the present value of estimated future cash flows discounted at the asset's original effective interest rate. Impairment losses and any reversals of impairments are recognised through the Statement of Comprehensive Income. Objective evidence of impairment may include default on cash flows from the asset and reporting financial difficulty of the issuer or counterparty.

*Derecognition of financial assets*

A financial asset is derecognised when the rights to receive cash flows from that asset have expired or when the Company transfers substantially all the risks and rewards of ownership of the financial assets.

**Financial liabilities**

Financial liabilities are measured initially at fair value less directly attributable transaction costs.

After initial recognition, financial liabilities are subsequently measured at amortised cost using the effective interest rate method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss.

*Derecognition of financial liabilities*

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification, is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognised in the Statement of Comprehensive Income.

**This Is The Big Deal Limited****Notes to the financial statements  
For the year ended 30 September 2022****2. Summary of significant accounting policies (continued)****Offsetting of financial instruments**

Financial assets and financial liabilities are offset and the net amount is reported in the Statement of Financial Position if, and only if, the Company has a currently enforceable legal right to offset the recognised amounts and it intends to settle on a net basis, or to realise the assets and settle the liabilities simultaneously. Income and expenses are not offset in the Statement of Comprehensive Income unless required or permitted by any accounting standard or interpretation.

**Leases***Company as a lessee*

The Company recognises a right of use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease repayments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or the site on which it is located, less any lease incentives received. The Company presents right of use assets within tangible assets. The right-of-use asset is subsequently depreciated using the straight line method from the commencement date to the earlier of the end of the useful life of the right of use asset or the end of the lease term. The estimated useful lives of right-of-use assets are determined on the same basis as those of tangible assets. The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the incremental borrowing rate. The lease liability is measured at amortised cost using the effective interest method.

**Provisions**

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. Where the Company expects some or all of the expenditure required to settle a provision to be reimbursed, the reimbursement is recognised as a separate asset but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the Statement of Comprehensive Income net of any reimbursement. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

**Contingent liabilities**

The Company discloses a contingent liability where it has a possible obligation as a result of a past event that might, but will probably not, require an outflow of economic benefits, or where there is a probable outflow of economic benefits which cannot be reliably measured.

**Share Capital**

Shares are classified as equity when there is no contractual obligation to transfer cash or other assets to holders of the financial instruments.

**This Is The Big Deal Limited****Notes to the financial statements  
For the year ended 30 September 2022****3. Critical accounting judgements and estimates**

During the preparation and review of the accounts, the Director's have not identified any critical accounting judgements and estimates.

**4. Revenue**

All revenue in the current and prior period was generated from the Company's principal activity of providing an energy auto-switching service to facilitate online energy cost comparison and switching. All revenue was generated in the UK.

**5. Operating loss**

Operating loss is stated after charging:

	Year to 30 September 2022 £	9 months to 30 September 2021 £
Depreciation of tangible fixed assets	-	352
Loss on disposal of fixed assets	-	3,030

**6. Employee benefit expense**

As at 30 September 2022, there were no directly employed individuals providing services on behalf of the Company (30 September 2021: nil). Until 31 March 2021 Gocompare.com Limited, a fellow group company, employed all individuals on behalf of the group and recharged staff, and other, related costs to other group subsidiaries. On 1 April 2021, employee contracts were transferred to Future Publishing Limited.

During the prior period, the Company benefitted from the services of employees legally employed by GoCompare.com Limited and was recharged £2,220,718 in respect of these services, and subsequently £1,192,555 by Future Publishing Limited. There was no recharge in the current year due to the pause in the auto-switch offering.

**This Is The Big Deal Limited****Notes to the financial statements  
For the year ended 30 September 2022****7. Directors' remuneration**

The Company does not have any employees. The Directors did not receive emoluments from the Company in respect of their services to the Company in either period and none of their services were directly attributable to the Company. The emoluments and Company contributions to defined contribution pension schemes of the Directors were paid by the Company's fellow Group undertaking, Future Publishing Limited. No recharge or direct allocation of their remuneration is made to the Company.

**8. Taxation****Analysis of the tax charge**

The tax charge on the loss before income tax for the period was as follows:

	<b>Year to 30 September 2022</b>	<b>9 months to 30 September 2021</b>
	<b>£</b>	<b>£</b>
<b>Corporation tax</b>		
Current tax on loss for the period	-	-
<b>Total current tax</b>	-	-
<b>Deferred tax</b>		
Origination and reversal of timing differences	-	-
<b>Total deferred tax</b>	-	-
<b>Taxation on loss on ordinary activities</b>	-	-

**This Is The Big Deal Limited****Notes to the financial statements  
For the year ended 30 September 2022****8. Taxation (continued)**

The tax assessed for the period is higher than (2021: higher than) the standard rate of corporation tax in the UK of 19.0% (2021: 19.0%) as set out below:

	Year to 30 September 2022 £	9 months to 30 September 2021 £
Loss before taxation	<u>(321,942)</u>	<u>(4,576,937)</u>
Taxation calculated at 19.0% (2021: 19%)	<u>(61,169)</u>	<u>(869,618)</u>
<b>Effects of:</b>		
Expenses not deductible for tax purposes	-	21
Losses surrendered for Group Relief	<u>61,169</u>	<u>869,597</u>
	<u>-</u>	<u>-</u>

In the UK budget of 3 March 2021, it was announced that the main corporation tax will increase from 19% to 25% with effect from 1 April 2023. This change was substantively enacted on 24 May 2021 within the Finance Bill 2021.

**9. Investments in subsidiaries**

	Shares in group undertakings £
<b>Cost</b>	
At beginning and end of period	<u>1</u>
<b>Provisions</b>	
At 1 October 2021	-
Write off of investment following subsidiary being dissolved	<u>(1)</u>
At 30 September 2022	<u>(1)</u>
<b>Net book value</b>	
At 30 September 2022	<u>-</u>
At 30 September 2021	<u>1</u>

Details of the Company's investment are set out below:

Name	Country of incorporation	Proportion of voting rights and shares held	Principal activity
<i>Direct Subsidiary Undertakings:</i>			
Look After My Bills Ltd	UK	100%	Dormant

The registered address of the subsidiary undertaking was: Imperial House, Imperial Way, Newport, NP10 8UH. Given the dormant nature of the undertakings, Look After My Bills Ltd was dissolved on 4 January 2022.
