**1 Accounting policies**

**Basis of preparation**

The full financial statements, from which these abbreviated accounts have been extracted, have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (Effective April 2008).

**Going concern**

The financial statements have been prepared on a going concern basis notwithstanding the excess of liabilities over assets as the director believes the beneficial owners will continue to make funds available to enable the company to meet liabilities as and when they fall due. The director has no reason to believe that financial support will not continue in the future and considered it appropriate to adopt a going concern basis. The accounts do not contain any adjustments that would be necessary should this basis not be appropriate.

**Stock**

Stock is valued at the lower of cost and net realisable value, after due regard for obsolete and slow moving stocks. Net realisable value is based on selling price less anticipated costs to completion and selling costs.

**Financial instruments**

Financial instruments are classified and accounted for, according to the substance of the contractual arrangement, as financial assets, financial liabilities or equity instruments. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities. Where shares are issued, any component that creates a financial liability of the company is presented as a liability in the balance sheet. The corresponding dividends relating to the liability component are charged as interest expense in the profit and loss account.
