ACE Academy is a program which was established in order to broaden local community awareness of organisations and resources that can support participants in the pursuit of personal and vocational ambitions. We intend to support local communities in addressing issues such as, unemployment, juvenile delinquency, and social issues prevalent to groups that are typically considered "vulnerable" or hard to reach. We are focused on building effective learning pathways that not only develop employability but deliver these tools through innovative, creative methods which have been implemented with a range of transferable skills. Despite the obvious outcome of progressing participants creatively, our aim is also to integrate a formative learning process in order to help make participants more employable. For example, support with problem solving, budgeting, self representation and learning how to implement a SWOT analysis in business, and in everyday life.
