### **Director's responsibilities statement for the year ended 31 December 2018**

---

The director is responsible for preparing the director's report and the financial statements in accordance with applicable law and regulations.

Company law requires the director to prepare financial statements for each financial period. Under that law the director has elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the director must not approve the financial statements unless she is satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period.

In preparing these financial statements, the director is required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements.

The director is responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable her to ensure that the financial statements comply with the Companies Act 2006. She is also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

### 1 Accounting policies

Dolphin East Limited is a private company limited by shares incorporated in England and Wales. The registered office is 67 Brook Street, London, W1K 4NJ.

#### *Accounting convention*

The financial statements have been prepared in accordance with FRS 102 Section 1A Small Entities.

The financial statements are prepared in sterling, which is the functional currency of the company.

The financial statements have been prepared on a historical cost basis. The principle accounting policies adopted are set out below.

#### *Turnover*

The turnover is shown exclusive of Value Added Tax.

Turnover represents the value of all rechargeable costs incurred and project fees earned in relation to contracts. Recharged costs are recognised by reference to the costs which have been incurred on projects.

In respect of project fees, where a contract is not completed at the period end the amount of revenue recognised in the current period is based on a percentage of completion of the project. The percentage of completion of the project is based on the staff costs required to complete the project as this provides the most accurate estimation of the percentage of completion at the period end.

#### *Current and deferred taxation*

The tax expense for the period comprises current and deferred tax. Tax is recognised in profit or loss, except that a change attributable to an item of income or expense recognised as other comprehensive income or to an item recognised directly in equity is also recognised in other comprehensive income or directly in equity respectively.

The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the reporting date in the countries where the company operates and generates taxable income.

Deferred tax balances are recognised in respect of all timing differences that have originated but not reversed by the balance sheet date, except:

- The recognition of deferred tax assets is limited to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits;
- Any deferred tax balances are reversed if and when all conditions for retaining associated tax allowances have been met; and
- Where timing differences relate to interests in subsidiaries, associates, branches and joint ventures and the group can control their reversal and such reversal is not considered probable in the foreseeable future.

Deferred tax balances are not recognised in respect of permanent differences except in respect of business combinations, when deferred tax is recognised on the differences between the fair values of assets acquired and the future tax deductions available for them and the differences between the fair values of liabilities acquired and the amount that will be assessed for tax.

### 1 Accounting policies (*continued*)

#### *Foreign currencies*

Transactions denominated in foreign currencies are recorded at the rates of exchange ruling at the dates of the transactions, or at an average rate for the period if the rates do not fluctuate significantly. Monetary assets and liabilities are translated at period end exchange rates or, where appropriate, at rates of exchange fixed under the terms of the relevant transaction. The resulting exchange rate differences are charged to the profit and loss account.

#### *Financial instruments*

Financial liabilities and equity are classified according to the substance of the financial instrument's contractual obligations, rather than its legal form. Financial liabilities are initially measured at transaction price (including transaction cost) and subsequently held at amortised cost.

Financial assets are initially measured at transaction price (including transaction costs) and subsequently held at cost, less any impairment.

### 2 Turnover

The turnover and profit before tax are attributable to the one principal activity of the company.

A geographical analysis of turnover is given below:

	2018 £	2017 £
United Kingdom	<u>18,117,212</u>	<u>15,512,506</u>

### 3 Director's remuneration
