Notes to the Financial Statements
30 April 2018

1. Accounting policies

(a) Basis of preparation

The financial statements have been prepared under the historical cost convention and in accordance with FRS 102, the Financial Reporting Standard applicable in the UK and Republic of Ireland (as applied to small entities by section 1A of the standard).

(b) Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable, net of discounts and value added taxes. Revenue from the rendering of services is recognised by reference to the stage of completion of the contract. The stage of completion of a contract is measured by comparing the costs incurred for work performed to date to the total estimated contract costs.

(c) Taxation

Taxation represents the sum of tax currently payable and deferred tax. The company's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period. Deferred tax is recognised in full in respect of all timing differences between the treatment of certain items for taxation and accounting purposes, at the average tax rates that are expected to apply when the timing differences reverse, based on current tax rates and laws. The carrying amount of deferred tax assets is reviewed at the end of each accounting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

(d) Provisions

Provisions (i.e. liabilities of uncertain timing or amount) are recognised when there is an obligation at the reporting date as a result of a past event, it is probable that economic benefit will be transferred to settle the obligation and the amount of the obligation can be estimated reliably.

(e) Foreign currency

Transactions in foreign currencies are recorded at the average exchange rate for the month in which the transaction takes place. Monetary assets and liabilities denominated in foreign currencies are translated at the closing rates at the balance sheet date. All exchange differences are included in the profit and loss account.

2. Company limited by guarantee

The company is limited by guarantee and consequently does not have share capital.
