## 1. Accounting Policies

### 1.1. Basis of Preparation of Financial Statements

The financial statements have been prepared under the historical cost convention and in accordance with the provisions of Financial Reporting Standard 102 section 1A small entities, the Financial Reporting Standard applicable in the United Kingdom and the Republic of Ireland and the Companies Act 2006.

FRS 102 section 1A small entities is mandatory for accounting periods beginning on or after 1 January 2016, but may be applied early to periods ending on or after 31 December 2014. The company has taken the option to apply the standard early in the preparation of these financial statements. Information on the impact of first-time adoption of FRS 102 section 1A small entities is given in note 12.

The financial statements are prepared in sterling, which is the functional currency of the company. Monetary amounts in these financial statements are rounded to the nearest pound.

### 1.2. Statement of Cash Flow

The company has taken advantage of the exemption in Financial Reporting Standard 102 "Cash flow statements" Section 1.12B not to produce a cash flow statement on the grounds that it is a small company.

### 1.3. Financial Instruments

#### Financial assets

Financial assets, other than investments and derivatives, are initially measured at transaction price (including transaction costs) and subsequently held at cost, less any impairment.

#### Financial liabilities and equity

Financial liabilities and equity are classified according to the substance of the financial instrument's contractual obligations, rather than the financial instrument's legal form. Financial liabilities, excluding convertible debt and derivatives, are initially measured at transaction price (including transaction costs) and subsequently held at amortised cost.

#### Finance costs

Finance costs are charged to profit or loss over the term of the debt using the effective interest rate method so that the amount charged is at a constant rate on the carrying amount. Issue costs are initially recognised as a reduction in the proceeds of the associated capital instrument.

### 1.4. Investments

Investments in subsidiaries are measured at cost less accumulated impairment.

### 1.5. Deferred Taxation

Deferred balances are recognised in respect of all timing differences that have originated but not reversed by the balance sheet date, except:

- The recognition of deferred tax assets is limited to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits;
- Any deferred tax balances are reversed if and when all conditions for retaining associated tax allowances have been met; and
- Where timing differences relate to interests in subsidiaries, associates, branches and joint ventures and the group can control their reversal and such reversal is not considered probable in the foreseeable future.

Deferred tax balances are not recognised in respect of permanent differences except in respect of business combinations, when deferred tax is recognised on the differences between the fair values of assets acquired and the future tax deductions available for them and the differences between the fair values of liabilities acquired and the amount that will be assessed for tax.

Deferred income tax is determined using tax rates and laws that have been enacted or substantively enacted by the reporting date.

### 1.6. Preparation of Consolidated Financial Statements

The company has taken advantage of the exemption allowed by Financial Reporting Standard 102, "Consolidated and separate financial statements", Section 9.3A not to prepare consolidated accounts on the basis that the company is itself a wholly-owned subsidiary whose immediate parent company is established under the law of an EEA state.

### 1.7 Judgements in applying accounting policies and key sources of estimation uncertainty

In preparing these financial statements, the directors consider that there are no significant judgements in applying the accounting policies. Nor are there any key sources of uncertainty.

### 1.8 Revenue

Revenue comprises the invoiced value of goods and services supplied by the company, net of Value Added Tax and trade discounts.

The company had no employees during the year other than the directors, who received no remuneration.
