Notes to the Financial Statements

Year ended 30 June 2019

1 GENERAL INFORMATION

The company is a private company limited by shares and is registered in England and Wales. The address of the registered office is 3 Hill Street, Cheslyn Hay, Walsall, West Midlands, WS6 7HR, United Kingdom.

2 STATEMENT OF COMPLIANCE

These financial statements have been prepared in compliance with FRS 102 Section 1A, 'The Financial Reporting Standard applicable to the UK and Republic of Ireland'.

3 ACCOUNTING POLICIES

BASIS OF PREPARATION

The financial statements have been prepared on the historical cost basis, as modified by the revaluation of certain assets.

The financial statements are prepared in sterling, which is the functional currency of the company.

JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the amounts reported. These estimates and judgements are continually reviewed and are based on experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

TURNOVER

Turnover is measured at the fair value of the consideration received or receivable for goods and services supplied, net of discounts and Value Added Tax.

CURRENT TAX

Current tax is recognised on taxable profit for the current and past periods. Current tax is measured at the amounts of tax expected to pay or recover using the tax rates and laws that have been enacted or substantively enacted at the reporting date.

GOODWILL

Purchased goodwill arises on business acquisitions and represents the difference between the cost of

acquisition and the fair values of the identifiable assets and liabilities acquired.

Goodwill is initially recorded at cost, and is subsequently stated at cost less any accumulated amortisation and accumulated impairment losses. It is amortised on a straight-line basis over the useful economic life of the asset. Where a reliable estimate of the useful life of goodwill cannot be made, the life is presumed not to exceed five years.

INTANGIBLE ASSETS

Intangible assets are initially measured at cost, and are subsequently measured at cost less any accumulated amortisation and accumulated impairment losses or at a revalued amount. However, Intangible assets acquired as part of a business combination are measured at the fair value at the acquisition date.

Any intangible assets carried at a revalued amount are recorded at the fair value at the date of revaluation, as determined by reference to an active market, less any subsequent accumulated amortisation and subsequent accumulated impairment losses.

Amortisation is calculated so as to write off the cost of an asset, less its estimated residual value, over the useful economic life of that asset as follows:

Goodwill

20% straight line

TANGIBLE ASSETS

Tangible assets are initially measured at cost, and are subsequently measured at cost less any accumulated depreciation and accumulated impairment losses or at a revalued amount.

Any tangible assets carried at a revalued amount are recorded at the fair value at the date of revaluation less any subsequent accumulated depreciation and subsequent accumulated impairment losses.

Depreciation is calculated so as to write off the cost of an asset, less its estimated residual value, over the useful economic life of that asset as follows:

Office equipment

25% reducing balance

Motor vehicles

20% reducing balance

IMPAIRMENT

A review for indicators of impairment is carried out at each reporting date, with the recoverable amount being estimated where such indicators exist. Where the carrying value exceeds the recoverable amount, the asset is impaired accordingly. Prior impairments are also reviewed for possible reversal at each reporting date.

STOCKS

Stocks are measured at the lower of cost and estimated selling price less costs to complete and sell. Cost includes all costs of purchase, costs of conversion and other costs incurred in bringing the stocks to their

present location and condition.

FINANCIAL INSTRUMENTS

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the entity after deducting all of its financial liabilities.
