The financial statements have been prepared under the historical cost convention.

First year adoption of Financial Reporting Standard 102 (FRS 102) Section 1A

These financial statements for the year ended 31 July 2017 are the first that are prepared in accordance with FRS 102 Section 1A. The previous financial statements were prepared in accordance with UK GAAP, the date of transition to FRS 102 Section 1A is 1 August 2015.

The transition to FRS102 Section 1A small entities has resulted in no changes in accounting policies to those used previously and therefore there is no impact on opening equity and profit for the comparative period.

Investments in associate undertakings are recognised at cost.

Taxation

Taxation for the year comprises current and deferred tax. Tax is recognised in the Profit and loss account, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

Current or deferred taxation assets and liabilities are not discounted.

Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the year end and that are expected to apply to the reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.
