#### Notes to the financial statements for the seven months ended 31 July 2018

#### **General Information**

Non-Standard Finance plc is a public limited company incorporated and domiciled in the United Kingdom. The address of the registered office is 5<sup>th</sup> Floor, 6 St Andrew Street, London, EC4A 3AE.

The unaudited interim financial statements do not constitute the statutory financial statements of the group within the meaning of section 434 of the Companies Act 2006. The statutory financial statements for the year ended 31 December 2017 were approved by the board of directors on 28 March 2018 and have been delivered to the Registrar of Companies in England and Wales. The report of the auditors on those financial statements was unqualified, did not draw attention to any matters by way of emphasis and did not contain any statement under section 498(2) or (3) of the Companies Act 2006. No statutory accounts have been delivered to the Registrar of Companies in England and Wales in respect of the period covered by these interim accounts.

#### 1. Basis of preparation

These interim accounts and notes have been prepared to support the proposed dividend on the Ordinary Shares in accordance with and for the purposes of sections 836 and 838 of the Companies Act 2006, and on the basis of accounting policies which are in accordance with International Financial Reporting Standards ("IFRS") for determining whether the proposed distribution would contravene said Act. These interim accounts are abridged and unaudited.

The accounting policies for Non-Standard Finance plc ("the Company") are explained in the relevant notes.

The accounts have been prepared under the historical cost basis.

# 2. Accounting policies

The accounting policies applied in preparing the unaudited interim financial statements are consistent with those used in preparing the statutory financial statements for the year ended 31 December 2017.

Taxes on profits in interim periods are accrued using the tax rate that will be applicable to expected total annual profits.

New and amended standards and interpretations need to be adopted in the first interim financial statements issued after their effective date (or date of early adoption). There are no new IFRSs or IFRICs that are effective for the first time for the seven months ended 31 July 2018 which have a material impact on the Company.

#### Investments in subsidiaries

Investments in subsidiaries are stated at cost less any provision for impairment.

## Share based payments

The Company has applied the requirements of IFRS 2 Share-based payments. The Company grants options under employee savings-related share option schemes (typically referred to as Save As You Earn schemes (SAYE)) and makes awards under the Long Term Incentive Schemes (LTIP). All of these schemes are equity-settled.

Equity-settled share-based payments are measured at fair value at the date of grant. The fair value determined at the grant date of the equity-settled share-based payments is expensed in the consolidated statement of comprehensive income on a straight-line basis over the vesting period, based on the Group's estimate of shares that will eventually vest. The corresponding credit is made to a share-based payment reserve within equity. The grant by the Company of options and awards over its equity instruments to the employees of subsidiary undertakings is treated as an investment in the Company's financial statements. At the end of the vesting period, or upon exercise, lapse or forfeit (if earlier), this credit is transferred to retained earnings.

#### Repurchase of share capital (own shares)

Where the Company purchases its own share capital, the consideration paid is deducted from shareholders' equity as treasury shares until they are sold or reissued. Where such shares are subsequently sold or reissued, any consideration received is included in shareholders' equity.

## 3. Related party transactions

During the period the Company received dividends from its subsidiaries of £7,700,000 (2017: $\pm$ 6,394,057).
