### 2. Significant accounting policies (continued)

#### Administrative expenses

The Company has no employees. Certain administrative expenses of the Company, including Directors' remuneration, were borne by Thomas Cook Group plc, the Company's ultimate parent undertaking, during the accounting period with no recharge made to the Company as the Directors spend the majority of their time on other Group companies.

#### *Called up Share capital*

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new ordinary shares or options are shown in equity as a deduction, net of tax, from the proceeds.

#### *Taxation*

Current tax, namely UK corporation tax, is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Provision is made for deferred tax so as to recognise all temporary differences which have originated but not reversed at the balance sheet date that result in an obligation to pay more tax, or a right to pay less tax, in the future. This is calculated on a non-discounted basis by reference to the average tax rates that are expected to apply in the relevant jurisdiction and for the periods in which the temporary differences are expected to reverse. Deferred tax assets are assessed at each balance sheet date and are only recognised to the extent that their recovery against future taxable profits is probable.

#### *Foreign currency*

Transactions in currencies other than the functional currency of the Company are translated at the exchange rate on the date of the transaction. Foreign currency monetary assets and liabilities held at the period end are translated at period end exchange rates. The resulting exchange gain or loss is dealt with in the income statement.
