# VIRTUAL POWER SOLUTIONS LIMITED NOTES TO THE FINANCIAL STATEMENTS

for the year ended 31 December 2021

#### 1 Accounting policies

#### VIRTUAL POWER SOLUTIOINS LIMITED

Virtual Power Solutions Limited was incorporated in England and Wales on 3rd October 2014, registered number 09247528.

#### Statutory Information

Virtual Power Solutions Limited is a private company, limited by shares, registered in England and Wales. The company's registered number and registered office address can be found on the General Information page.

#### Basis of preparation

The accounts have been prepared under the historical cost convention and in accordance with FRS 102, The Financial Reporting Standard applicable in the UK and Republic of Ireland (as applied to small entities by section 1A of the standard).

#### Intangible fixed assets

Intangible assets represent the purchase price incurred including the tax charged (non-refundable) after rebates and discounts, as well as all costs directly attributable to the preparation of the asset for its intended use. Intangible assets acquired free of charge from the government are valued at fair value. Internally generated Intangible assets are recognised at cost. These assets are associated with development usually subsidised project expenses, by public support. Development expenditure is capitalised when it is probable that the asset will generate future economic benefits. If these conditions are not met the expenditure is expensed in the period. Intangible assets are tested at each reporting date, regardless of any impairment sign.

#### Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Plant and machinery

Between 2 to 10 years

#### Stocks

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

#### **Provisions**

Provisions are recognised when the company has: (i) a present legal or constructive obligation arising from past events: (ii) for which it is more likely than not that an outflow of internal resources will be required to pay the obligation; and (iii) the amount can be reasonably estimated.

Whenever one of the criteria is not met or the existence of the obligation is conditional on the occurrence (or non-occurrence) of a future event, the company discloses this as a contingent liability, unless the assessment of the outflow of resources to pay can be considered remote. Provisions are measured at the present value of estimated expenditures to pay the obligation using a pre-tax risk-free interest rate, which reflects the market valuation for the discount period and the risk of the provision in question.

#### **Taxation**

Taxation for the year comprises current and deferred tax. Tax is recognised in the Income Statement, except to the extent that it relates to items recognised in other comprehensive income o r directly i n equity. deferred and liabilities Current or taxation assets are not discounted. Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

#### Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed a t the balance sheet date. Timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the year end and that are expected to apply to the reversal of the timing difference. Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

#### Foreign currencies

Assets and liabilities in foreign currencies are translated into sterling at the rates of exchange ruling at the balance sheet date. Transactions in foreign currencies are translated into sterling at the rate of exchange ruling at the date of transaction. Exchange differences are taken into account in arriving at the operating result.

#### Hire purchase and leasing commitments

Rentals paid under operating leases are charged to profit or loss on a straight line basis over the period of the lease.

#### Investments

Investments are shown at cost to the investing company, less a provision for impairment where the value of investments is considered to have fallen below the value at which they are stated.

#### **Turnover**

Turnover represents net invoiced sales of goods and services, excluding VAT.

#### Financial instruments

The company has elected to apply the provisions of Section 11 'Basic Financial Instruments' and Section 12 'Other Financial Instruments Issues' of FRS 102 to all of Its financial instruments. Financial instruments are recognised in the company's balance sheet when the company becomes party to the contractual provisions of the instrument. Financial assets and liabilities are offset, with the net amounts presented in the financial statements, when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or to realise the asset and settle the liability simultaneously.

#### Basic financial assets

Basic financial assets, which include debtors, cash and bank balances, are initially measured at transaction price, and are substantially carried at amortised cost using the effective interest method. Unless the arrangement constitutes a financing transaction, where the transaction is measured at the present value of the future receipts discounted at a market rate of interest. Financial assets classified as receivable within one year are not amortised.

#### Basic financial liabilities

Basic financial liabilities, including creditors, bank loans and preference shares classified as debt, are initially recognised at fair value, net of transaction price. It is then subsequently stated at amortised cost. The difference between the nominal value and the fair value is recognised in the profit and loss over the loan period using the effective interest rate method. Financing obtained is classified in current liabilities except if VPS has an unconditional right to defer payment of the liability for at least 12 months after the balance sheet date, in which case they are classified as non-current liabilities. Financial liabilities classified as payable within one year are not amortised. Debt instruments are subsequently carried at amortised cost, using the effective interest method. Trade creditors are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Amounts payable are classified as current liabilities if payment is due within one year or less. If not, they are presented as non-current liabilities. Trade creditors are recognised initially at transaction price and subsequently measured at amortised cost using the effective interest method.
