Notes to the financial statements

for the year ended 31 March 2018

1 Company information

The company is a private company limited by shares and is registered in England and Wales. The company's registered address is Beeston Lodge, Beeston Lane, Spixworth, Norwich, Norfolk, NR10 3TN.

2 Principal accounting policies

2.1 Statement of compliance

These financial statements have been prepared in accordance with applicable United Kingdom accounting standards, including Financial Reporting Standard 102 section 1A - 'The Financial Reporting Standard applicable in the United Kingdom and Republic of Ireland for smaller entities' ('FRS 102 1A'), and with the Companies Act 2006.

The preparation of financial statements in compliance with FRS 102 requires the use of certain critical accounting estimates. It also requires management to exercise judgement in applying the company's accounting policies (see below).

The functional and presentational currency of the company is Sterling (£).

The following principal accounting policies have been applied:

2.2 Turnover

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the company and the Revenue can be reliably measured. Revenue is measured as the fair value of the consideration received or receivable, excluding discounts, rebates, value added tax and other sales taxes. The following criteria must also be met before revenue is recognised:

Sale of energy:

Revenue from the sale of energy is recognised when all of the following conditions are satisfied:

- the company has transferred the significant risks and rewards of ownership to the buyer;
- the company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- the amount of revenue can be measured reliably;
- it is probable that the company will receive the consideration due under the transaction; and
- the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Turnover represents amounts receivable for energy generated in the year net of any applicable value added tax. Any uninvoiced income is accrued in the period in which it has been generated.

2.3 Going concern

The accounts have been prepared on a going concern basis. The directors have reviewed capital requirements for twelve months from the date of approving these financial statements, which indicate the business can continue to trade for at least twelve months to 31 December 2019.

2.4 Deferred taxation

Full provision is made for deferred tax assets and liabilities arising from all timing differences between the recognition of gains and losses in the financial statements and recognition in the tax computations.

Deferred tax assets are only recognised to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Deferred tax assets and liabilities are calculated at the tax rates expected to be effective at the time the timing differences are expected to reverse.

Deferred tax balances are not discounted.

2.5 Tangible fixed assets

Tangible fixed assets are stated at cost less depreciation and any impairment.

2.6 Depreciation

Plant and equipment depreciation is calculated on a basis to write off each of the assets over their useful life.

2.7 Judgements in applying accounting policies and key sources of estimation uncertainty

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an on-going basis. Estimates are based on historical experience and other assumptions that are considered reasonable in the circumstances. The actual amount or values may vary in certain instances from the assumptions and estimates made. Changes will be recorded, with corresponding effect in profit or loss, when, and if, better information is obtained.

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment within the next financial year are included below.

Critical judgements that management has made in the process of applying accounting policies disclosed herein and that have a significant effect on the amounts recognised in the financial statements relates to the following:

Judgements in applying accounting policies and key sources of estimation uncertainty (Cont.)

Deferred taxation

The assessment of the probability of future taxable income against which deferred tax assets can be utilised is based on the Company's latest budget and specific limits to the use of any unused tax loss or credit. If a positive forecast of taxable income indicates the probable use of a deferred tax asset, especially when it can be used without a time limit, that deferred tax asset is usually recognised in full.

Useful lives of depreciable assets

Management reviews its estimate of the useful lives of depreciable assets at each reporting date, based on the expected utility of the assets.
