BL Broadgate Fragment 5 Limited

Strategic Report for the Year Ended 31 March 2021

The directors present their Strategic Report for the year ended 31 March 2021.

Business review and principal activities

BL Broadgate Fragment 5 Limited ("the company") is a wholly owned subsidiary of The British Land Company PLC and operates as a constituent of The British Land Company PLC group of companies ("the group").

The company's principal activity is as an investment holding company in the United Kingdom (UK).

As shown in the company's Profit and Loss Account on page 5, the company's turnover and profit on ordinary activities before taxation is £2,272,400 compared to turnover and profit on ordinary activities before taxation of £1,383,070 in the prior year. This is due to the increased level of income from shares in group undertakings compared to the prior year.

Dividends of £2,272,400 (2020: £1,383,070) were paid in the year.

The Balance Sheet on page 7 shows that the company's financial position at the year end has, in net assets terms, remained consistent with the prior year.

The company is a subsidiary of The British Land Company PLC. The company's strategy is the same as the group's strategy - to deliver an above average annualised total return to shareholders, which is achieved by creating attractive environments in the right places focused around the people who work, shop and live in them.

The Board of the group uses total return, to monitor the performance of the group. This is a measure of growth in total equity per share, adding back any current year dividend.

Any expected future developments of the company are determined by the strategy of the group.

For more information also see The British Land Company PLC group annual report.

The performance of the group, which includes the company, is discussed in the group's annual report which does not form part of this report.

Principal risks and uncertainties

This company is part of a large property investment group. As such, the fundamental underlying risks for this company are those of the property group as discussed below.

The group generates returns to shareholders through long-term investment decisions requiring the evaluation of opportunities arising in the following areas:

- demand for space from occupiers against available supply;
- identification and execution of investment and development strategies which are value enhancing;
- availability of financing or refinancing at an acceptable cost;
- economic cycles, including their impact on tenant covenant quality, interest rates, inflation and property values;
- legislative changes, including planning consents and taxation;
- engagement of development contractors with strong covenants;
- key staff changes; and
- environmental and health and safety policies.

These opportunities also represent risks, the most significant being change to the value of the property portfolio. This risk has high visibility to directors and is considered and managed on a continuous basis. Directors use their knowledge and experience to knowingly accept a measured degree of market risk.

The group's preference for prime assets and their secure long term contracted rental income, primarily with upward only rent review clauses, presents lower risks than many other property portfolios.

The financial and political risks for the company are managed in accordance with the group financial risk management policy, as disclosed in the consolidated group financial statements.

The company has no third party debt and no associated third party interest rate exposure.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have prepared the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards, comprising FRS 101 "Reduced Disclosure Framework", and applicable law). In preparing these financial statements, the directors are required to:

- select suitable accounting policies and apply them consistently;
- state whether applicable United Kingdom Accounting Standards, comprising FRS 101, have been followed, subject to any material departures disclosed and explained in the financial statements;
- make judgements and accounting estimates that are reasonable and prudent; and
