A Message from Our Chair

The past year has been another of significant and positive transformation for our Charity.

It started with the announcement of two significant appointments. The first being Mark Brider as Chief Executive Officer, a new role created to lead the development and delivery of our Charity's new long-term strategy, and the second of Ben Francis as our first-ever Patron.

Ben, who is founder and CEO of international fitness community and apparel brand Gymshark, is the perfect champion to help us raise awareness and the much-needed funds to ensure our hospitals continue to be at the forefront of what is possible.

We met the graduated release from lockdown with great optimism as we looked forward to getting back out with our loyal army of supporters where it was possible and safe to do so.

COVID-19 has undoubtedly drawn out the best in our community. Our inaugural Dragon Boat Race, our biggest event in over two years, was a huge triumph. Hundreds of supporters came together on one day to raise a significant amount of money to ensure our Charity could keep doing all it could to benefit the work of our two fantastic hospitals.

Our Charity's priority has, and always will be, to address the most urgent needs of our hospitals and so we're delighted our Woodland House Appeal, to build a brand-new, standalone bereavement centre at our Women's Hospital, is close to breaking ground. Whilst we can't ever ease the heartbreak of losing a precious child, we can help create an environment that recognises and honours their loss and we're proud this much-needed centre, which will be the first of its kind in a UK-hospital setting, will set a new international standard for pregnancy or baby loss aftercare.

Our youth mental health campaign, Fight for All The Feels, which was launched as a direct response to the pandemic, has also continued to raise income at a pace. Our first peer support workers are now already in post within Forward Thinking Birmingham, our mental health partnership for 0 to 25-year-olds, using their own lived experiences to aid other young people with their medical and personal recovery. These inspirational individuals are helping us to raise awareness of the youth mental health challenge in Birmingham and, with it, tackle the stigma which still surrounds it.

More determined than ever to make sure our expert doctors and nurses can continue to care for those that need us now, as well as in the future, we've worked hard to grow our income and invest in the areas of fundraising where we know we can deliver results. This has also seen us trial a number of new initiatives this year, with great successes, most notably in terms of increasing our number of regular givers as well as testing new digital fundraising mechanics.

Looking ahead, we continue to have ambitious plans to grow our Charity income and increase our impact, both in the Midlands, across the UK and beyond, to allow our hospitals to continue delivering projects that go above and beyond NHS standards.

On behalf of my fellow Trustees, I'd like to thank colleagues from across the Charity for their passion, resilience and drive over the past 12 months. I'd also like to extend a sincere and heartfelt thank you to everyone who has made a major contribution and a very real and significant difference to our two hospitals. Together we have transformed the lives of our very deserving patients.

Thank you for your loyal and generous support.

A handwritten signature in black ink, reading 'Bruce Keogh'. The signature is written in a cursive style with a long horizontal stroke extending from the bottom of the 'h'.

The Trustees (who are also Directors for the purposes of Company Law) present their report and audited financial statements for the year ended 31 March 2022.

Structure, Governance and Management

Governing Document

The Charity is a company limited by guarantee, incorporated in England and Wales on 23 January 2015 (registered number 09404174), and registered as a Charity with the Charity Commission on 12 March 2015 (registered Charity number 1160875). The Charity is governed by its Articles of Association which define the objects and powers of the company.

On 1 February 2017 Birmingham Children's Hospital and Birmingham Women's Hospital came together as a single organisation, Birmingham Women's and Children's NHS Foundation Trust. At that point the funds of Birmingham Women's Hospital Charity were joined with those of Birmingham Children's Hospital Charity and the objects of the Charity were updated to include patients of both Birmingham Children's Hospital and Birmingham Women's Hospital.

The name of the Charity was officially changed on 23 October 2017 to Birmingham Women's and Children's Hospital Charity and funds are held in one of two linked charities depending on the hospital donors wish to support.

The Charity has a wholly owned subsidiary, Red Balloon Trading CIC (registered in England and Wales number 05996296) which sells branded and other merchandise and generates commercial income from exploitation of the Charity's brands. The results of Red Balloon Trading CIC have been consolidated with those of the Charity and are shown separately in note 2.2.

Trustees

The Trustees who have served during the year 1 April 2021 to 31 March 2022 are set out on page 5. Birmingham Women's and Children's NHS Foundation Trust (BWCNFT) has the right to appoint up to three Trustees. Between eight and twelve other Trustees are appointed by the Trustees. Trustees elect the Chairman each year. Decisions are taken by Trustees at regular meetings and procedures are in place to ensure that Trustees appointed by BWCNFT cannot form a majority and may not chair the Charity's committees.

Trustees are volunteers and receive no remuneration or benefits from the Charity. Any expenses claimed are set out in Note xx to the accounts. The personal donations made by the Trustees overall outweigh the total expenses claimed.

Trustees are appointed for a four-year term and can be re-elected to a maximum term of office of ten years. The Charity recruits new Trustees as vacancies arise and/or skills gaps are identified. New Trustees receive an induction that includes provision of relevant documentation and meetings with key staff at the Charity and the Hospital. All Trustees are encouraged to attend relevant training courses.

Committees

The Charity has established a number of Committees to support Trustees in the governance of the Charity. Each Committee has approved Terms of Reference setting out their areas of responsibility and the limits of their delegated powers. Members of committees include Trustees and others with the expertise to help those committees conduct their business. All the Committees are supported by

the Charity's Company Secretary. In addition to the named Trustee members, any Trustee may attend any Committee meeting.

Finance and Risk Committee	Chair: Amerdeep Nagra Jeremy Roper David Melbourne	Gwenny Scott, Company Secretary Mark Brider, Charity Chief Executive Karen Cutler, Accounts Manager
Investment Advisory Committee	Chair: Keith Jecks Amerdeep Nagra Andrew Kirton	Ian Burrows Hugh Reynolds John Russell Gwenny Scott, Company Secretary Mark Brider, Charity Chief Executive
Grants Committee	Ruth Lester Jonathan Tritter	Mark Brider, Charity Chief Executive Caron Eyre, Director of Nursing Quality (BWCNFT) Stephen O'Loughlin, Grants Manager Gwenny Scott, Company Secretary

Administration

Trustees are responsible for strategic direction and policy of the Charity, with responsibility for day-to-day operations delegated to the Charity's staff. Trustees are not paid for their time and staff remuneration is set at market rates using industry comparators for similar roles.

The Charity is led by Mark Brider, Chief Executive, who was appointed in May 2021.

Gwenny Scott is the Company Secretary of the Charity and is remunerated via a Service Level Agreement with BWCNFT. This remuneration is determined on the basis of benchmarking information and the time allocated to the responsibilities.

Fundraising for the Charity is carried out by the BWCNFT Fundraising Department and funded by a grant from the Charity.

Financial services are provided under a Service Level Agreement with University Hospitals Birmingham NHS Foundation Trust.

External advisors are set out on page 4; they are subject to periodic review and competitive tender in accordance with Standing Orders and recognised best practice.

Objects and Activities

The objects of the Charity are, for the public benefit:

- (a) to further any charitable purpose or purposes relating to the general or any specific purposes of the Foundation Trust or the purposes of the health service;
- (b) to promote, protect, preserve and advance all or any aspects of the health of the public; and

- (c) to advance and promote knowledge and education in medicine including by engaging in and supporting medical research (and the dissemination of the useful results).

There are three linked charities with objects as follows:

- Birmingham Children's Hospital Charity, governed by a Declaration of Trust dated 26 September 2017 – "for charitable purposes relating to the general or specific purposes of Birmingham Women's and Children's NHS Foundation Trust or to the National Health Service in relation to children's health services".
- Birmingham Women's Hospital Charity, governed by a Declaration of Trust dated 26 September 2017 – "for charitable purposes relating to the general or specific purposes of Birmingham Women's and Children's NHS Foundation Trust or to the National Health Service in relation to women's health services".
- Hannah Eliza Guy Charity, governed by Schemes of the Charity Commission dated 2 November 1987, 10 March 2004 and 1 April 2015 – "to promote the preservation or recovery of physical or mental health or the rehabilitation of persons (with a preference for babies and children under 14 years of age) who have been suffering from illness and who are or have been patients of the Birmingham Children's Hospital, Birmingham Women's Hospital, or any of the following Hospitals: Queen Elizabeth Hospital; Queen Elizabeth Psychiatric Hospital; or Birmingham Dental Hospital; or such other hospitals as may from time to time form a part of the NHS Trusts (or their successors) currently responsible for the Hospitals listed above."

Mission

The Trustees' mission is to make things better for the patients at Birmingham Children's Hospital and Birmingham Women's Hospital, their families and the staff who treat them by providing additional facilities, equipment and research and by creating a caring environment for all who use the Hospitals.

They deliver on their mission by raising funds which they award as grants to BWCNFT who deliver patient benefits and make a difference to patients and families, by providing new equipment, funding research and training, and improving the Hospital environment.

Public Benefit

The Charity is a Public Benefit Entity and Trustees confirm they are aware of and have taken account of public benefit guidance published by the Charity Commission.

The Charity delivers its public benefit through the care and treatment of NHS patients by Birmingham Women's and Children's NHS Foundation Trust. Grants from the Charity lead to an enhancement in healthcare for hospital patients from all walks of life, regardless of their background or personal circumstances.

About Birmingham Women's and Children's NHS Foundation Trust

Birmingham Women's and Children's NHS Foundation Trust (BWCNFT) is the first NHS Trust of its type in the UK, formed in February 2017 to drive forward a commitment to provide the highest quality, world-class care that women, children and families want and deserve.

Every day its UK and globally-respected surgeons, doctors, nurses, midwives and allied healthcare professionals provide some of the most advanced treatments, complex surgical procedures and cutting-edge research, to improve care today and develop even better care for the future.

Home to the country's leading teaching centres, it is passionate about nurturing and developing the skills of the present and future workforce, along with investing in the very best training and education to foster life-long learning.

Birmingham Women's Hospital is a centre of excellence, providing specialist services to over 50,000 women, men and their families every year from Birmingham, the West Midlands and beyond.

It is one of only two dedicated women's hospitals in the UK, with the busiest single site maternity unit, delivering more than 8,200 babies a year. It offers a full range of gynaecological, maternity and neonatal care and its Fertility Centre is considered to be one of the best in the country. The hospital is also an international centre for education, research and development with a research budget of over £3 million per year.

Birmingham Children's Hospital is the UK's leading specialist paediatric centre, caring for sick children and young people up to the age of 16. Based in the heart of Birmingham city centre, the hospital is a world leader in some of the most advanced treatments, complex surgical procedures and cutting-edge research and development. It is a nationally designated specialist centre for epilepsy surgery, and boasts a paediatric major trauma centre for the West Midlands, a national liver and small bowel transplant centre and a centre of excellence for complex heart conditions, the treatment of burns, cancer and liver and kidney disease. Its Paediatric Intensive Care Unit (PICU) and medical care services are rated Outstanding by the Care Quality Commission.

The Trust is also home to one of the largest Child and Adolescent Mental Health Services in the country, comprising a dedicated inpatient Eating Disorder Unit and Acute Assessment Unit for regional referrals of children and young people with the most serious of problems (Tier 4) and the Forward Thinking Birmingham mental health service for 0 to 25-year olds.

Strategy and Performance

Future Plans and Strategy

The Charity has a proud history of supporting key developments at Birmingham Children's Hospital. This includes clinical areas such as the Burns Centre, the Renal Unit, the Emergency Department, Cardiac Theatres and Waterfall House, a state-of-the-art building which opened its doors in 2018 and is home to the UK's first paediatric Rare Diseases Centre as well as a Children's Cancer Centre.

The Charity also strives to enhance the experience of patients. Examples of this include the entirely charitably funded Magnolia House for bereaved families, the children's outdoor playground as well

as family-friendly wards and department refurbishments which help to make our hospital less of a daunting and scary place for its brave patients.

No new appeals were launched during the reporting period; instead the Charity continued to raise funds for Fight For All The Feels, its first fundraising campaign for Forward Thinking Birmingham, BWCNFT's unique mental health service for 0 to 25-years-olds. As Europe's youngest city, Birmingham was experiencing a youth mental health challenge long before COVID-19 was around. The pandemic intensified existing mental health issues and created new ones, so this appeal addressed the issue of youth mental health head on.

At Birmingham Women's Hospital, the Charity has continued to raise money for Woodland House, a brand-new, purpose-built bereavement centre where grieving families will be able to spend time together in safe, secure and serene surroundings after suffering loss through miscarriage, stillbirth or neonatal death. This appeal is now drawing to a close and we're delighted to be planning to break ground on this much-needed new centre, a first of its kind within a UK-hospital setting.

Continued investment in research is a priority for the Trustees, to encourage and improve research skills and ensure researchers can continue to identify and better understand illnesses in order to develop treatment for the patients of the future.

The Charity also continues to support schemes that improve the experience of patients and their families, and the education and continued professional development of staff.

Over the last 12 months, the Charity has continued to invest in growing its donor base as well as develop new digital fundraising approaches to raise the capital needed to support BWCNFT's immediate needs.

Throughout 2022/23, the Charity will continue to inspire its community to raise the required funds to transform the lives of patients treated at BWCNFT and ensure each hospital's urgent and long terms needs are supported.

Risk Management

Trustees continue to monitor key strategic risks through the Board Assurance Framework, which captures the risks associated with the achievement of the Charity's objectives. This enables the Charity to identify gaps in control and monitor the implementation of actions to ensure that resources, activity and assurance are directed towards the highest risk areas.

The strategic risks set out in the Board Assurance Framework are as follows:

1. *Failure to ensure governance arrangements are both rigorous and support the Charity's ambitions to increase annual income.* The Finance and Risk Committee oversees this risk and the changes to processes which aim to ensure governance arrangements are both robust and support the Charity's objectives.
2. *Failure to ensure Fundraising Target is achieved.* Progress towards achieving the annual fundraising target is reviewed each quarterly by a Quarterly Performance Group, the

outcome of which is reported to the Finance and Risk Committee which considers whether the mitigations and plans in place are adequate to control the risk.

3. *Failure to ensure the Charity's funds are invested so as to adequately balance risk and return.*
This risk is monitored by the Investment Advisory Group through its regular oversight of investment performance and detailed biannual reports from the Investment Managers.

Performance in the Year

During the year Trustees approved grants, inclusive of allocated support costs, of £3.595million (2020/21: £3.179 million). The section on grant activities below gives more details and illustrates the variety of projects funded by the Charity.

Total income for the Charity decreased to £5.779 million (2020/21: £6.012million). Legacy income also rose from levels seen in previous years. Donations from individuals and companies held up well across our appeals.

COVID-19

The COVID-19 pandemic continued to have a significant impact on fundraising activity, as planned activities and events had to remain agile in order to adhere to ever-changing government restrictions.

This saw a number of third-party and supporter-organised activities postponed once again, such as the Great Birmingham Run. Similarly, a number of our own events had to remain virtual, including our annual Hundred Heroes recognition event and Christmas Concert, in order to keep our supporters and staff safe from ever-changing variant of the virus.

The government's roadmap out of lockdown offered a welcome step-change during the summer months, allowing events such as our annual abseil and inaugural Dragon Boat Race to safely go ahead as planned. Both were a roaring success and provided our supporters with a much-needed reason to come together with friends and family to raise vital funds to support our deserving women, babies, children, young people and families.

The outpouring of love for the NHS remained strong and we saw a rise in individuals setting personal challenges, including one inspirational youngster who raised over £200,000 after pledging to run a mile a day for 26 days to say thank you to our hospital for the care she's received over the last seven years.

Yet while the world was opening up, restrictions within the hospitals remained in order to protect our patients and hospital colleagues from the growing variants of COVID-19. This meant access to our hospitals was limited, which significantly reduced our ability to cultivate, steward and solicit our audiences.

However, a number of successful grants were secured to bolster our two live appeals, Woodland House and Fight For All The Feels, including a £200,000 donation from Garfield Weston to support the Women's Hospital.

The philanthropic and corporate partnership secured with international fitness community and apparel brand, Gymshark, remained strong and relationships were strengthened further when the brand's founder and CEO, Ben Francis, was announced as the Charity's first-ever Patron in June 2021.

During the year Trustees approved grants, inclusive of allocated support costs, of £3.595million (2020/21: £3.179million). The section on grant activities below gives more details and illustrates the variety of projects funded by the Charity.

Total income for the Charity was £5.78million, slightly below the previous year (2020/21: £6.012million), with reductions in fundraised income and legacies, but an increase in investment income.

Fundraising

The Charity gives a grant to BWCNFT to be spent on the costs of its fundraising department. All fundraising is then delegated to BWCNFT which decides how to allocate the grant across different fundraising activities. Trustees receive regular reports about fundraising activity.

The Charity is registered with the Fundraising Regulator and supports the Code of Fundraising Practice. In particular, it wishes to ensure that those fundraising on its behalf do not exploit vulnerable people or unreasonably intrude on a person's privacy, and that any fundraising approaches are not unreasonably persistent and do not involve undue pressure.

The Charity has published a Complaints Policy on its websites and is registered to receive suppression notifications from the Fundraising Preference Service. During the year the Charity received and dealt with no complaints about the Charity and received no suppression notifications from the Fundraising Preference Service.

The ratio of fundraising costs to fundraising income for the Charity rose to 39p per £1 raised (2020/21: 32p per £1 raised). The increase in the cost income ratio is as a result of additional staff costs relating to the new fundraising strategy. The Charity has set a medium term cost income ratio target of 30% by 2025/26 linked to planned growth in income primarily driven by expanded activities in Philanthropy and Partnerships.

Investments

The Investment Advisory Committee provides detailed oversight of the performance of the Charity's investment managers.

The Hannah Eliza Guy endowment is invested in COIF Charities Investment Fund Income Units, managed by CCLA Investment Management Limited. Income is held as cash in a separate bank account until spending decisions are taken. During the 12 months to 31 March 2022 the fund delivered a total return, net of fees, of 11.62%.

Other donations which do not need to be spent straight away in supporting the Hospitals are invested with the objective to deliver a total return of CPI inflation plus 3% over a rolling five-year period, whilst limiting total volatility.

Investments are held across two Investment Managers, Veritas LLP and CCLA, each with the same investment objectives. The Investment Advisory Committee is satisfied with the performance of both managers during the period. Over the last 12 months, Veritas and CCLA delivered returns of 11.62% and 9.9% respectively. These returns were comfortably in excess of the CPI-related return objective of 3.6%.

The Charity's governing document allows the Trustees to invest in any manner they see fit, provided they take appropriate expert advice and have regard to the suitability of investments and the need for diversification. In addition, the Trustees do not consider that direct investments connected to the tobacco industry would be appropriate for a Charity which works to improve the health of the public.

Funds intended to be used to pay grants in the near future are held as cash on deposit to minimise short term investment risk.

Reserves

At the end of the reporting period the total consolidated funds held by the Charity were £19,395,000.

This sum includes funds which are restricted and not available for general purposes of the Charity, at a total £3,105,000 and the Hannah Guy Endowment Fund at £1,025,000

At the end of the reporting period, a total £2,470,000 was committed for expenditure within 2022/23.

Free reserves at the end of the financial year were £13,793,000.

This includes £5,400,000, which can only be realised by disposing of tangible fixed assets or programme related investments.

The Charity expects to disburse a further proportion of these free reserves during the year to provide sustainable, long-term support to Birmingham Children's Hospital and Birmingham Women's Hospital. This support can be in the form of research grants, new equipment and facilities, and staff and patient education and welfare.

This is in line with the Reserves Policy, which enables a disbursement strategy to support existing appeals and the maintenance of current levels of grant making whilst using surplus income to build reserves as much as possible over a period of six to eight years. There is currently no target range for reserves, but a desire to see the value of reserves grow year by year.

Full details of these funds can be found at note 17 to the Accounts.

Grant Making

Designated Funds

Each year between 20% and 25% of the Charity's income is designated by donors for a particular ward, department or clinical specialty. Trustees recognise those designations by providing Designated Funds into which the donations are paid and from which authorised fund advisors from the wards, departments and specialties can spend money on charitable purposes.

The designated funds are known locally as Earmarked Funds.

Designated Funds can be spent at any time and (subject to oversight by the Charity) fund advisors have a wide discretion as to what can be purchased. Guidance is provided as to what types of expenditure can qualify as charitable, but the allocation of expenditure will be driven by the fund advisors and the things they deem to be most important. Often donors will influence what is purchased, in particular where they have identified a particular piece of equipment or similar that they have chosen to raise money for. Typical expenditure can include equipment, staff training and conference attendance, minor environmental improvements, research consumables and toys and games for patients.

Patterns of expenditure in recent years are as follows:

	2021-22			
Research	£119,598	£314,957	£474,644	£440,400
Building and refurbishment	£590,102	£172,867	£300,463	£121,900
Equipment	£593,860	£1,227,095	£1,142,049	£1,850,000
Patient welfare & education	£434,441	£535,384	£771,692	£708,300
Staff welfare & education	£357,024	£635,910	£204,922	£150,000
Total Value	£2,095,025	£2,886,214	£2,893,770	£3,270,600

Major Appeals

BWCNFT regularly identifies key projects which could only proceed thanks to charitable funding. These form the basis of major appeals and campaigns and any donations received are held separately to fund the projects they relate to.

Fight For All The Feels

A further £526,000 was raised to support Fight For All the Feels, in aid of Forward Thinking Birmingham – the Trust's unique mental health service for children, young people and young adults.

This campaign launched as a direct response to COVID-19 and has introduced a new youth mental health model of care, delivered by peer support workers.

The first of their kind in the UK, within Children's and Adolescent Mental Health Services (CAMHS), each of the peer support workers, who are all aged between 16 and 25-years-old, have their own

lived-experiences of mental illness, therefore, not only can they help young people with their medical recovery, they can also aid them with their personal recovery too.

A total of £926,000 has now been raised to support the programme. The ultimate ambition is to raise £1.6million to deliver 20 whole time equivalent peer support workers and a team leader fully-funded for three years.

Through its successful implementation, we intend to demonstrate the effectiveness and benefit of peer support workers to the existing clinical model, so these roles become the norm and are rolled out as a blueprint for the rest of the UK.

Woodland House

Woodland House will be a purpose-built bereavement centre at our Women's Hospital where grieving families can spend time together after suffering loss through miscarriage, stillbirth or neonatal death.

The first of its kind in a UK-hospital setting, Woodland House will set a new international standard of care for families who have experienced the heartbreak of pregnancy and baby loss.

This appeal will officially close in spring 2022. The Trust intends to break ground on this much-needed centre early summer 2022.

Research

There is a strong and proud history of research and innovation at both Birmingham Women's and Birmingham Children's Hospital.

As the Charity that supports these two world-class hospitals, it's our job to encourage the next great idea and so we are committed to championing high-quality research into women's and children's health and diseases.

Charitable donations have delivered internationally recognised research which has discovered new life-changing and life-saving cures and treatments, equipping our staff with the knowledge, skills and resources needed to accelerate and advance medical breakthroughs and pioneer change.

In the past year, charitable funding has supported a number of research projects to better the future for generations to come.

This includes the launch of the UK's first national study into identifying research priorities for patients diagnosed with congenital heart disease (CHD).

Twelve children in the UK are born with CHD every day, making it the most common type of birth defect.

Medical and surgical advances over the last 70 years have meant survival rates have improved, with approximately 97% of children diagnosed with CHD now expected to reach adulthood. However,

these children often need treatment throughout their lives, requiring specialist review during childhood and into adulthood.

To date, research into the conditions, and its impact on those living with it, has been surprisingly limited, highlighting a need to address the lack of evidence to inform clinical decision-making.

Mr Nigel Drury, a Consultant in Paediatric Cardiac Surgery at our Children's Hospital, launched this national study, along with collaborators from other leading institutions, to identify the most important research questions.

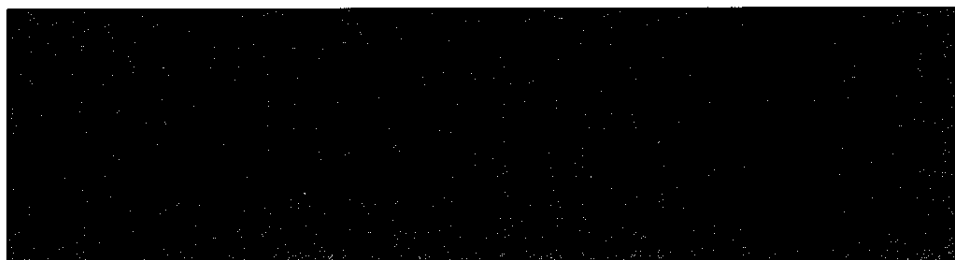

The results will lead to the high-quality, collaborative, multi-centre trials needed to improve outcomes for patients and families.

Patient Benefit Grants

Twice each year the Charity invites anyone in the Hospitals to apply for charitable funds if they have an idea for a project which would benefit patients. Applications are scored by members of the Grants Committee which meets to discuss and agree its recommendations to the Trustees. Typical grants cover toys and games, social activities for patients, new equipment and patient educational materials.

Funding for these grants comes from general, unrestricted donations and legacies.

The funding allocated in recent years is as follows:

Going Concern

The Trustees consider that there are no material uncertainties about the Charity's ability to continue as a going concern. The budget and forecast for 2022/23 take into account the uncertainties associated with the ongoing impact of COVID-19, and fundraising income performance during 2021/22 and the first quarter of 2022/23 provide assurance that the assumptions upon which the budget and forecast are based are reasonable.

The Charity has sufficient cash, unrestricted funds and reserves to satisfy all its debtors and to fulfil its commitments for 2022/23. There are therefore no material uncertainties affecting the current year's accounts.

Thanks

The Charity would like to thank all those who have helped financially and in other ways during the year.

Our ability to continue our vital support for Birmingham Children's Hospital and Birmingham Women's Hospital is dependent on our ability to maintain and increase donations from the general public. Trustees are therefore grateful for the support from those who not only donate their own money, but who inspire others to donate through their fundraising efforts.

The Charity is also grateful to the staff and clinicians of the Hospitals who have supported us and contributed to the Charity's continuing progress.

We invite readers of this Report to show your support in a number of ways:

- Making a donation – perhaps to a specific ward or department;
- Becoming a regular donor via our online Direct Debit facility;
- Organising or taking part in a fundraising event or challenge;
- Remembering us in your will;
- Asking your school or employer to adopt us as their good cause;
- Buying something from our online shop;
- Volunteering for us.

For more details about ways to help, please visit our websites – www.bch.org.uk / www.bwh.org.uk

**BIRMINGHAM WOMEN'S AND CHILDREN'S HOSPITAL CHARITY
ANNUAL REPORT AND FINANCIAL STATEMENTS 2021-22**

Statement of Trustees' responsibilities in respect of the Trustees' Annual Report and the Financial Statements

The charity trustees (who are also the directors of the Birmingham Women's and Children's Hospital Charity for the purposes of company law) are responsible for preparing a trustees' annual report and financial statements in accordance with the applicable law and United Kingdom Accounting Standards.

Company Law requires the charity trustees to prepare financial statements for each year which give a true and fair view of the state of affairs of the charitable company and the group and of the income and expenditure, of the charitable group for that period. In preparing these financial statements, the trustees are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether the financial statements comply with applicable accounting standards and statements of recommended practice, subject to any material departures disclosed and explained in the financial statements;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the charity will continue its activities.

The trustees are responsible for keeping proper accounting records that disclose with reasonable accuracy at any time the financial position of the charity and to enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the charity and the group and hence taking reasonable steps for the prevention and detection of fraud and other irregularities.

The Trustees are responsible for the maintenance and integrity of the corporate and financial information included on the charitable company's website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Statement as a disclosure to our auditors

In so far as the Trustees are aware at the time of approving our trustees' annual report:

- there is no relevant information, being information needed by the auditor in connection with preparing their report, of which the group's auditor is unaware, and

- the trustees, having made enquiries of fellow directors and the group's auditor that they ought to have individually made, have each taken all steps that they are obliged to take as a director in order to make themselves aware of any relevant audit information and to establish that the auditor is aware of that information.

By order of the board of trustees

Sir Bruce Keogh
Chairman

BIRMINGHAM WOMEN'S AND CHILDREN'S HOSPITAL CHARITY

ANNUAL REPORT AND FINANCIAL STATEMENTS 2021-22

Independent auditor's report to the trustees of Birmingham Women's & Children's Hospital Charity

We have audited the financial statements of Birmingham Women's and Children's Hospital Charity (the 'parent charity') and its subsidiary (the 'group') for the year ended 31 March 2022 which comprise of the Consolidated Statement of Financial Activities, the Charity Statement of Financial Activities, the Consolidated Balance Sheet, the Charity Balance Sheet, the Consolidated Statement of Cash Flows and notes to the financial statements, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" (United Kingdom Generally Accepted Accounting Practice).

In our opinion, the financial statements:

- give a true and fair view of the state of the group's and of the parent charity's affairs as at 31 March 2022 and of the group's and the parent charity's income and expenditure for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the charity in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the trustees' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the group's or the parent charity's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the trustees with respect to going concern are described in the relevant sections of this report.

Other information

The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. The trustees are responsible for the other information. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of the audit, or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Opinions on other matters prescribed by the Companies Act 2006

In our opinion based on the work undertaken in the course of the audit:

- the information given in the Trustees' Report which includes the Strategic Report and the Directors' Report prepared for the purposes of company law, for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the Strategic Report and the Directors' Report included within the Trustees' Report has been prepared in accordance with applicable legal requirements.

Matters on which we are required to report by exception

In light of the knowledge and understanding of the group and the parent charity and its environment obtained in the course of the audit, we have not identified material misstatements in the Strategic Report or the Directors' Report included within the Trustees' Report.

We have nothing to report in respect of the following matters where Companies Act 2006 requires us to report to you if, in our opinion:

- adequate and proper accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of trustees' remuneration specific by law are not made; or
- we have not received all the information and explanations we require for our audit.

BIRMINGHAM WOMEN'S AND CHILDREN'S HOSPITAL CHARITY ANNUAL REPORT AND FINANCIAL STATEMENTS 2021-22

Independent auditor's report to the trustees of Birmingham Womens & Children's Hospital Charity

Responsibilities of trustees

As explained more fully in the trustees' responsibilities statement set out on page 18, the trustees (who are also the directors of the charitable company for the purposes of company law) are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the trustees determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the trustees are responsible for assessing the group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the trustees either intend to liquidate the charity or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. Based on our understanding of the charity and its activities, we identified that the principal risks of non-compliance with laws and regulations related to the Charities Act 2011, the Charities Statement of Recommended Practice, UK tax legislation, pensions legislation, employment regulation and health and safety regulation, anti-bribery, corruption and fraud, money laundering, and we considered the extent to which non-compliance might have a material effect on the financial statements. We also considered those laws and regulations that have a direct impact on the preparation of the financial statements, such as the Companies Act 2006.

We evaluated the trustees' and management's incentives and opportunities for fraudulent manipulation of the financial statements (including the risk of override of controls) and determined that the principal risks were related to posting revenue recognition associated to cut-off, manual journal entries to manipulate financial performance, management bias through judgements and assumptions in significant accounting estimates, in particular in relation to use of restricted and endowment funds, and significant one-off or unusual transactions.

Our audit procedures were designed to respond to those identified risks, including non-compliance with laws and regulations (irregularities) and fraud that are material to the financial statements. Our audit procedures included but were not limited to:

- Discussing with the trustees and management their policies and procedures regarding compliance with laws and regulations;
- Communicating identified laws and regulations throughout our engagement team and remaining alert to any indications of non-compliance throughout our audit; and
- Considering the risk of acts by the charity which were contrary to applicable laws and regulations, including fraud.

Our audit procedures in relation to fraud included but were not limited to:

- Making enquiries of the trustees and management on whether they had knowledge of any actual, suspected or alleged fraud;
- Gaining an understanding of the internal controls established to mitigate risks related to fraud;
- Discussing amongst the engagement team the risks of fraud; and
- Addressing the risks of fraud through management override of controls by performing journal entry testing.

There are inherent limitations in the audit procedures described above and the primary responsibility for the prevention and detection of irregularities including fraud rests with management. As with any audit, there remained a risk of non-detection of irregularities, as these may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal controls.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Use of the audit report

This report is made solely to the charity's members as a body in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the charity's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the charity and the charity's members as a body for our audit work, for this report, or for the opinions we have formed.

BIRMINGHAM WOMEN'S AND CHILDREN'S HOSPITAL CHARITY
ANNUAL REPORT AND FINANCIAL STATEMENTS 2021-22

Notes to the Accounts

1 Accounting Policies

1.1 Basis of preparation and assessment of going concern

The financial statements have been prepared in accordance with Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) (effective 1 January 2015) - (Charities SORP (FRS 102)), and the Companies Act 2006.

Birmingham Women's and Children's Hospital Charity meets the definition of a public benefit entity as defined by FRS 102. Assets and liabilities are initially recognised at historic cost or transaction value with the exception of investments which are included at market value.

The Trustees consider that there are no material uncertainties about the Charity's ability to continue as a going concern. The budget and forecast for 2022-23 take into account the uncertainties associated with the recovery from the impact of Covid-19. Fundraising income performance during 2021-22 and the first quarter of 2022-23 provide assurance that the assumptions upon which the budget and forecast are based are reasonable.

1.2 Group financial statements

The financial statements consolidate the results of the charity and its wholly owned subsidiary Red Balloon Trading CIC on a line-by-line basis. A separate Income Statement and Balance Sheet for the subsidiary is presented in note 2.2.

1.3 Structure of Funds

Where there is a legal restriction on the purpose to which a fund may be put, the fund is classified either as an *endowment fund*, where the donor has expressly provided that only the income of the fund may be applied, or as a *restricted income fund* where the donor has provided for the donation to be spent in furtherance of a specified charitable purpose. Endowment funds, where the capital is held to generate income for charitable purposes, are sub analysed between those where the Trustees have the discretion to spend the capital, *expendable endowment*, and those where there is no discretion to expend the capital, *permanent endowment*. The charity has one permanent endowment fund and no expendable endowments.

Those funds which are neither endowment nor restricted income funds, are *unrestricted income funds* which are sub-analysed between *designated (earmarked) funds* where the donor has made known their non-binding wishes or where the Trustees, at their discretion, have created a specific fund for a specific purpose, and *wholly unrestricted funds* which are wholly at the Trustees' unfettered discretion.

The major funds held in each of these categories are disclosed in note 17.

1.4 Income

All income is recognised in the Statement of Financial Activities when the group has entitlement to the income, any performance conditions have been met, it is probable that the income will be received and the amount can be quantified with reasonable accuracy.

For legacies, entitlement is taken as the earlier of the date on which either: the Charity is aware that probate has been granted, the estate has been finalised and notification has been made by the executor(s) to the Charity that a distribution will be made, or when a distribution is received. Receipt of a legacy is only considered probable when the amount can be measured reliably and the Charity has been notified of the executor's intention to make a distribution. Where legacies have been notified to the Charity, or the Charity is aware of the granting of probate, and the criteria for income recognition have not been met, then the legacy is treated as a contingent asset and disclosed if material (see note 13)

Income arising from the investment of the endowment fund, though expendable, are wholly restricted to promote the preservation of health and recovery of patients and former patients of Birmingham Women's Hospital and Birmingham Children's Hospital and other Birmingham hospitals.

BIRMINGHAM WOMEN'S AND CHILDREN'S HOSPITAL CHARITY ANNUAL REPORT AND FINANCIAL STATEMENTS 2021-22

1.5 Donated Goods and Services and Role of Volunteers

Donated goods to the Charity are received from supporters for use within the hospital or as raffle prizes. They are not directly traded and the resulting income is accounted for as fundraising income - this year the value of which is £30k (£254k in 2020/21). The Charity does not currently hold any such goods.

It should be noted that all Trustees / Company Directors give their time and skills freely to run the Charity as do members of the various advisory committees.

Due to the nature of the role of volunteers it is not possible to quantify the monetary value of their varied contributions but an outline of the activities they undertake for the charity is explained below:

Fund Advisors - there are around 414 Hospital staff who, through delegated Trustee Authority make recommendations as to how the Charity's designated funds are spent to benefit the patients of the Hospital. These funds are designated (or earmarked) by the Trustees to be spent for a particular purpose or in a particular ward or department in accordance with the purpose of the donation. Each fund advisor has delegated power to authorise up to £1,000 of expenditure from the relevant designated fund. Fund advisors wishing to recommend expenditure in excess of £1,000 require authority from the Company Secretary who has Trustee delegated authority to approve expenditure up to £20,000. Requests in excess of this amount up to £50,000 require the authority of the Charity Chairman and requests over this value require full Trustee Board approval.

Fundraisers - there are many volunteers locally who actively support fundraising for the charity by directly raising funds through sponsored activities collecting through online support pages. Activities include, but not limited to, cycling, skydiving and walking as well as volunteers who organise fundraising events on behalf of the Charity.

1.6 Expenditure and Irrecoverable VAT

All expenditure is accounted for on an accruals basis and has been classified under headings that aggregate all costs related to the category. All expenditure is recognised once there is a legal or constructive obligation to make a payment to a third party.

Included within provisions are the values of grants awarded by the trustees at the balance sheet date. These grants are considered individually with regards to the timings of the requirements to allow the provisions to be split between amounts considered expendable within one year and amounts expendable after one year.

Irrecoverable VAT is charged against the category of expenditure for which it was incurred.

1.7 Allocation of Overhead and Support Costs

Overhead and support costs which are not wholly attributable to an expenditure type have been apportioned between Costs of Raising Funds and Charitable Activities. The analysis of overhead and support costs and the basis of allocation is shown in note 5.

- a) Costs of Generating Funds are all costs attributable to generating income for the Charity other than income arising from charitable activities, and represent fundraising costs together with investment management fees. Fundraising costs include expenses for fundraising activities and a grant paid to a related party, Birmingham Women's and Children's NHS Foundation Trust. The grant was used to pay the salaries and overhead costs for the Hospital's fundraising office.
- b) Costs of Charitable Activities comprise all expenditure identified as wholly or mainly incurred in the pursuit of the charitable objects of the Charity. These costs, where not wholly attributable, are apportioned, and in addition to direct costs include an apportionment of overhead and support costs as shown in the second stage allocation disclosed in note 6.

**BIRMINGHAM WOMEN'S AND CHILDREN'S HOSPITAL CHARITY
ANNUAL REPORT AND FINANCIAL STATEMENTS 2021-22**

1.8 Fixed Assets

Investments

Investments - are stated at market value as at the balance sheet date. The Statement of Financial Activities includes the gains and losses arising on revaluation and disposals throughout the year.

Exceptionally, where the size or nature of a holding of securities is such that the disposal of those securities would have a material effect on the quoted market price, a separate disclosure by way of note would advise of the adjustment to the market price and valuation necessary to reflect this situation. Currently the Charity does not hold any investments of this type.

Tangible Fixed Asset

The tangible fixed asset relates to the improvement of the leasehold premises at Rowchester Court. Expenditure incurred is being depreciated over the remaining life of the lease term.

1.9 Gains and Losses

All gains and losses are taken to the Statement of Financial Activities as they arise. Realised gains and losses on investments are calculated as the difference between sales proceeds and opening carrying value (purchase price if later). Unrealised gains and losses are calculated as the difference between the market value at the year end and the opening market value (or purchase price if later).

1.10 Debtors

Debtors are measured at their recoverable amount. There are currently no provisions for bad or doubtful debts.

1.11 Cash at bank and in hand

Cash at bank and in hand includes cash and any short term highly liquid investments with a maturity of three months or less from the date of acquisition or opening of the deposit or similar account.

1.12 Creditors

Creditors and provisions are recognised where the charity has a present obligation resulting from a past event that will probably result in the transfer of funds to a third party and the amount due to settle the obligation can be measured or estimated reliably.

1.13 Concessionary Loan

The charity extended a loan to its trading subsidiary Red Balloon Trading CIC on 1st April 2014. The current balance is £30,000. The loan is repayable upon demand with an interest rate of 4% above the Nat West Base rate chargeable from time to time throughout its duration. It is not therefore possible to calculate the capital and interest element of the loan over its life. It is carried at its initial value in the balance sheet with the interest payable being recognised in the SOFA.

1.14 Pensions

National Employment Savings Trust Scheme (NEST)

The Charity contributes to the National Employment Savings Trust Scheme (NEST), a defined contribution pension scheme.

A defined contribution pension scheme is a post-employment benefit plan under which the Charity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. Contributions are therefore charged to the SOFA in the year in which they become payable in accordance with the rules of the scheme.

ANNUAL REPORT AND FINANCIAL STATEMENTS 2021-22**

2 Prior Year Comparators

The primary statements provide prior year comparators in total. The individual comparators can be found within the relevant notes to the accounts.

2.1 Related party transactions and trustees' expenses and remuneration

Patients of Birmingham Women's Hospital and Birmingham Children's Hospital are the main beneficiaries of the Charity. The Charity has made Charitable Grants to Birmingham Women's and Children's NHS Foundation Trust and these are detailed in note 7.

None of the trustees, or parties related to them, have received remuneration or received any other benefits from employment with Birmingham Women's and Children's Hospital Charity, although two of the Trustees being Sir Bruce Keogh and Sarah-Jane Nicholson who served during the year were employed by Birmingham Women's and Children's NHS FT and in their NHS capacity receive remuneration £260k in aggregate for the role they perform within the Hospitals. The trustees have purchased trustee indemnity insurance at a cost of £1,295 (20/21: £1,272) for £5M worth of cover.

During the year no expenses for Trustees were paid to themselves or directly to third parties. (During 2020/21 payments for one Trustee was paid at a total of £95.04. There was also a credit note for £100 for one trustee).

	Accommodation	Travel	Training	Other	Total
2021/22					
No Trustees	0.00	0.00	0.00	0.00	0.00
2020/21					
Two Trustees	95.04	0.00	0.00	(100.00)	(4.96)

The value of unclaimed expenses incurred by Trustees wholly and necessarily in the course of executing their trustee duties has been calculated at £1,124.97 (£0 2020/21). Due to the COVID-19 pandemic, all of the trustee meetings during the year were online.

BIRMINGHAM WOMEN'S AND CHILDREN'S HOSPITAL CHARITY
ANNUAL REPORT AND FINANCIAL STATEMENTS 2021-22

- 2.2** The Charity wholly owns a trading subsidiary; 'Red Balloon Trading CIC' which gift aids all its profits to the Charity. Red Balloon Trading CIC is a community interest company limited by guarantee, registered in England and Wales No. 5996296 which sells branded merchandise and generates income from commercial exploitation of the Charity's brands. As the Charity controls the Company its accounts have been consolidated into those of the Charity. The Red Balloon Trading CIC stand alone trading results for 2021/22 and 2020/21 are shown below:

All support costs have been allocated to unrestricted funds due to minimal restricted transactions on the basis of the number of transactions processed and is shown at note 6 of these accounts.

* Accommodation costs above include £26,600 in relation to the lease payments made for the offices at Rowchester Court.

BIRMINGHAM WOMEN'S AND CHILDREN'S HOSPITAL CHARITY
ANNUAL REPORT AND FINANCIAL STATEMENTS 2021-22

5.2 Governance Costs

Calculated governance costs for 2021/22 are £162.7k (2020/21 £134.0k). They relate to costs associated with the governance of operating the charity and include such items as Statutory audit, Company registration, and legal costs as well as an apportionment of remuneration and financial services costs for time spent on governance issues.

Internal audit now sits with BWCH NHS FT and will be part of their ongoing yearly audit.

6 Analysis of Charitable Expenditure

Expenditure on charitable activities was £3,595k (2020/21 £3,180k) of which £267k was restricted (2020/21 £33k).

The Charity, under a Scheme of Delegations, either incurred expenditure with third parties in pursuance of grants or reimbursed expenditure incurred by beneficiaries. The charity did not undertake any direct charitable activities during the year.

Support costs attributable to Charitable Expenditure have been apportioned between categories on the basis of the number of individual transactions undertaken by the charity.

	2022			2021		
	Grant Funded	Support	Total	Grant Funded	Support	Total
	Activity	Costs	2022	Activity	Costs	2021
	£000	£000	£000	£000	£000	£000
Medical Research	440.4	21.9	462.3	474.6	16.6	491.2

BIRMINGHAM WOMEN'S AND CHILDREN'S HOSPITAL CHARITY ANNUAL REPORT AND FINANCIAL STATEMENTS 2021-22

17.3 Unrestricted and Designated (Earmarked) Funds - *continued*

The objects of the material designated funds are as follows:-

- I** The Neonatal Equipment Fund is designated for equipment and amenities for patients on the Neonatal Unit at Birmingham Women's Hospital.
- J** Designated funds relate to wards and clinical departments within the Birmingham Women's Hospital for which donors have indicated their non-binding wishes when making their generous gifts.
- K** General unrestricted funds are those funds for which a donor has not expressed any specific non-binding wish and the unrestricted income accruing to the Charity. These funds are applied for any charitable purpose for the benefit of the patients of Birmingham Women's Hospital at the discretion of the Trustees.
- L** Ward 10 fund is designated for equipment and amenities for patients on ward 10.
- M** Cystic Fibrosis and Child Chest Fund is designated for equipment and amenities for patients with cystic fibrosis and respiratory illness.
- N** The PICU Ward Fund is a ward fund designated for the welfare and benefit of staff and patients on the Paediatric Intensive Care Unit.
- O** The Heart Unit Ward Fund is designated for the welfare and benefit of staff and patients on the wards treating cardiac patients.
- P** The Haematology & Oncology Fund is a ward fund designated for the welfare and benefit of staff and patients on the relevant wards.
- Q** Support through Music
- R** BWCH Research Program Appeal is designated funding to build research capacity and capability.
- S** The Heart Unit Fund is designated to support the education and training of staff, to promote research and clinical advances for the benefit of the children of the Heart Unit at Birmingham Children's Hospital.
- T** The Mental & Public Health Campaign will be delivering integrated mental health prevention and early intervention solutions as part of a £2.3M programme that will span five years.
- U** Ward 8 fund is designated for equipment and amenities for patients on ward 8.
- V** Fight for all the feels campaign
- W** All About Play Appeal supports play facilitators across Birmingham Children's Hospital.
- X** The Leukaemia and Haematology Research fund will support research and training in these areas.
- Y** The Eye Department Research and Equipment fund will support research and the purchase of equipment for the Eye Department.
- 1A** Other designated funds relate to other wards and clinical departments within Birmingham Children's Hospital for which donors have indicated their non-binding wishes when making their generous gifts.
- 1B** General unrestricted funds are those funds for which a donor has not expressed any specific non-binding wish and the unrestricted income accruing to the Charity. These funds are applied for any charitable purpose for the benefit of the patients of Birmingham Children's Hospital at the discretion of the Trustees.

Due to the limitations imposed by the Covid-19 pandemic throughout 2020/21 expenditure from designated funds was significantly lower than in previous years. In particular, some clinical services were reduced, non-essential services and the majority of research activities were paused, and most visitors, including volunteers and providers of services that enhance the patient experience were prohibited from attending the Trust's hospital sites. Staff were also prioritising their time on essential services, including redeployment to other organisations.

As restrictions are lifted during 2021/22 and the Trust focuses on recovering services, supporting staff resilience and providing holistic care to patients, many of whom have been impacted significantly by the effects of the pandemic, we expect expenditure to accelerate. We will work with the advisers appointed to oversee designated funds to develop their expenditure plans to best support the Trust's patients during this period.
