#### 1. ACCOUNTING POLICIES

#### **Accounting convention**

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2015).

#### Turnover

Turnover represents fees received for work done during the period, excluding value added tax.

Fee income represents revenue earned under a wide variety of contracts to provide media distribution services. Revenue is recognised as earned when, and to the extent that, the company obtains the right to consideration in exchange for its performance under these contracts. It is measured at the fair value of the right to consideration, which represents amounts chargeable to customers, including expenses and disbursements but excluding value added tax.

Revenue is generally recognised as contract activity progresses so that for incomplete contracts it reflects the partial performance of the contractual obligations. For such contracts the amount of revenue reflects the accrual of the right to consideration by reference to the value of work performed. Revenue not billed to clients is included in debtors. Payments on account in excess of the relevant amount of revenue are included in creditors.

Fee income that is contingent on events outside the control of the firm is recognised when the contingent event occurs.
