2 Accounting policies

Summary of significant accounting policies and key accounting estimates

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

Statement of compliance

These financial statements have been prepared using the historic cost convention except that as disclosed in the accounting policies certain items are shown at fair value. The financial statements have been prepared in accordance with Financial Reporting Standard 102 Section 1A - The Financial Reporting Standard applicable in the UK and Republic of Ireland and the Companies Act 2006.

These are the company's first set of financial statements prepared in accordance with FRS102. No adjustments have been necessary in making the transition

Going concern

As at the year end, the company's balance sheet shows net current liabilities and an overall deficiency of assets of £9,901 (2016 £1,949). Accordingly, the director has had to consider the basis upon which the accounts should be prepared and determine whether a going concern basis remains appropriate. The accounts have been prepared on a going concern basis, as the director continues to provide financial support to the company, when necessary. The director has also reviewed the position for twelve months from the date the accounts were approved and in their opinion, the company will reduce the balance sheet deficiency and will show positive results for the next financial period.
