2 Accounting policies

Summary of significant accounting policies and key accounting estimates

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

Statement of compliance

These financial statements have been prepared using the historic cost convention except that as disclosed in the accounting policies certain items are shown at fair value. The financial statements have been prepared in accordance with Financial Reporting Standard 102 Section - 1A - The Financial Reporting Standard applicable in the UK and Republic of Ireland and the Companies Act 2006.

Going concern

The accounts have been prepared on a going concern basis, taking into account the impact on the business caused by the Coronavirus outbreak. To cope with the pandemic, the business accessed the relevant emergency government aid available to support it through the lockdown and expects to be in a position to commence normal trading, once the peak of the crisis has passed.

Revenue recognition

Turnover comprises the fair value of the consideration received or receivable for the sale of goods and provision of services in the ordinary course of the company's activities. Turnover is shown net of sales/value added tax, returns, rebates and discounts.

The company recognises revenue when:

The amount of revenue can be reliably measured;
it is probable that future economic benefits will flow to the entity;
and specific criteria have been met for each of the company's activities.

Foreign currency transactions and balances

The financial statements are presented in Sterling, which is also the functional currency of the Company. Transactions in currencies, other than the functional currency of the Company, are recorded at the rate of exchange on the date the transaction occurred.

Monetary items denominated in other currencies are translated at the rate prevailing at the end of the reporting period.

Non-monetary items that are measured at historic cost in a foreign currency are not retranslated.

Tax

The tax expense for the period comprises current and deferred tax. Tax is recognised in profit or loss, except that a change attributable to an item of income or expense recognised as other comprehensive income is also recognised directly in other comprehensive income.

The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the reporting date in the countries where the company operates and generates taxable income.

Deferred tax is recognised in respect of all timing differences between taxable profits and profits reported in the financial statements.

Unrelieved tax losses and other deferred tax assets are recognised when it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Deferred tax is measured using the tax rates and laws that have been enacted or substantively enacted by the reporting date and that are expected to apply to the reversal of the timing difference.

Investment property

Investment property is carried at fair value, derived from the current market prices for comparable real estate determined annually by the director, adjusted if necessary for any difference in the nature, location or condition of the specific asset. Changes in fair value are recognised in the profit or loss account. Deferred taxation is provided on the gains at the rate expected to apply when the property is sold.

3 Staff numbers

The average number of persons employed by the company (including the director) during the year, was 3 (2019 - 2).
