NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2018

1. General information

Label1 Television Limited is a private company limited by shares incorporated in the United Kingdom and registered in England & Wales. The address of its registered office is 55 New Oxford Street, 1st Floor, London, England. WC1A 1BS.

2. Accounting policies

2.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention unless otherwise specified within these accounting policies and in accordance with Section 1A of Financial Reporting Standard 102, the Financial Reporting Standard applicable in the UK and the Republic of Ireland and the Companies Act 2006.

The company's functional and presentational currency is GBP.

The following principal accounting policies have been applied:

2.2 Going concern

The company had net liabilities of £199,334 at the reporting date. The company has long term loan facilities provided by one of its shareholders, of which £200,000 was drawn at the balance sheet date. On the basis of these loan facilities and the increased activity forecast for the company, the directors consider it appropriate to prepare the financial statements on a going concern basis. The financial statements do not include any adjustments that would result from the repayment of these facilities.

2.3 Revenue

Turnover comprises of revenues receivable by the company in respect of television programme development and production services supplied during the period, exclusive of Value Added Tax, and is recognised on an 'episodic basis' once delivery of the completed development or production to the customer has been made in accordance with the delivery pattern as outlined in the underlying contractual agreement.

Both under and overspends are accounted for once known and are recognised in accordance with the delivery pattern.

Provisions are made for any loss making contracts (i.e. expected overspend is in excess of originally anticipated margin) as soon as identified.

2.4 Operating leases: the company as lessee

Rentals paid under operating leases are charged to the Statement of comprehensive income on a straight line basis over the lease term.

2.5 Tangible fixed assets

Tangible fixed assets under the cost model are stated at historical cost less accumulated depreciation and any accumulated impairment losses. Historical cost includes expenditure that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2018

2. Accounting policies (continued)

2.5 Tangible fixed assets (continued)

Depreciation is charged so as to allocate the cost of assets less their residual value over their estimated useful lives, using the straight-line method.

Depreciation is provided on the following basis:

Short-term leasehold property

Over the life of the lease

Office equipment

33.33%

Computer equipment

33.33%

The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted prospectively if appropriate, or if there is an indication of a significant change since the last reporting date.

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised in the Statement of comprehensive income.

2.6 Stocks

Stocks comprise of costs incurred up to the balance sheet date on developments and productions yet

to be delivered as at the balance sheet date and are valued at the lower of cost and net realisable value.

Net realisable value is based on estimated selling price less any further costs to completion expected to be incurred.

2.7 Debtors

Short term debtors are measured at transaction price, less any impairment.

2.8 Cash and cash equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours.

2.9 Creditors

Short term creditors are measured at the transaction price

2.10 Financial instruments

The company only enters into basic financial instruments transactions that result in the recognition of financial assets and liabilities like trade and other debtors and creditors.

Debt instruments that are payable or receivable within one year, typically trade debtors and creditors, are measured, initially and subsequently, at the undiscounted amount of the cash or other consideration expected to be paid or received.

Financial assets that are measured at cost and amortised cost are assessed at the end of each reporting period for objective evidence of impairment. If objective evidence of impairment is found, an impairment loss is recognised in the statement of income and retained earnings.
