SECTION B: Community Interest Statement – Activities & Related Benefit

Please indicate how it is proposed that the company's activities will benefit the community, or a section of the community. Please provide as much detail as possible to enable the CIC Regulator to make an informed decision about whether your proposed company is eligible to become a community interest company. It would be useful if you were to explain how you think your company will be different from a commercial company providing similar services or products for individual or personal gain.

Activities (Tell us here what the company is being set up to do)	How will the activity benefit the community? (The community will benefit by)
Beekeeping	<i>The community will benefit by maintaining the population of native bees, honey bees as pollinators, which have been in decline for many years. Threats from varroa mites, small hive beetle and Asian hornets as well as colony collapse disorder affecting mostly commercially scale beekeepers points to the importance of small scale non commercial projects which work exclusively with native strains which are best suited to the local climate and offer the best chances of survival for bees in the area, maintaining essential pollination for those with gardens and crops. Working without commercial constraints such as honey yields and profitability.</i>
Leisure gardens	<i>With local authorities strapped for land and money to provide allotment space, the need for specialist allotment space is best met privately, but with many purely commercial allotments offering no guidance on sustainable fruit and vegetable production or use of chemicals, a small dedicated number of allotments where only approved pesticides and insecticides are used allows those with a preference for sustainable gardening an opportunity for an oasis of spaces with clear sustainability and environmental advantage. Those with physical or learning disabilities will have exclusive use of at least 4 accessible plots , and a local schools will be offered plots for gardening/food production clubs. This only needs to generate a small return on the land and infrastructure costs as opposed to making a profit.</i>
If the company makes any surplus it will be used for The company will need to provide a small return on any large cash outlay for land or facilities (no more than 3% above bank base rate), Expenses for the manager and maintenance and improvement of the site Paying advisers to give workshops and seminars
