GREENBERG CAPITAL PARTNERS LTD

Notes to the financial statements

Year ended 31 October 2021

1. General information

The company is a private company limited by shares, registered in England and Wales. The address of the registered office is 52 Grosvenor Gardens, Nwms Office 514, 5th Floor, Belgravia, London, SW1W 0AU.

2. Statement of compliance

These financial statements have been prepared in compliance with the provisions of FRS 102, Section 1A, 'The Financial Reporting Standard applicable in the UK and Republic of Ireland'.

3. Accounting policies

Basis of preparation

The financial statements have been prepared under the historical cost convention. The financial statements are prepared in euros, which is the functional currency of the entity and rounded to the nearest euro.

Going concern

The future realisable value and profitability of the company's investment remain highly uncertain. At the time of approving the financial statements, the director has reasonable expectation that the company has adequate resources to continue in operational existence for a period of at least twelve months from the date of approval of the financial statements. Thus the director continues to adopt the going concern basis of accounting in preparing the financial statements.

Consolidation

The company has taken advantage of the option not to prepare consolidated financial statements contained in Section 398 of the Companies Act 2006 on the basis that the company and its subsidiary undertakings comprise a small group.

Fixed asset investments

Fixed asset investments are initially recorded at cost, and subsequently stated at cost less any accumulated impairment losses.

Impairment

A review for indicators of impairment is carried out at each reporting date, with the recoverable amount being estimated where such indicators exist. Where the carrying value exceeds the recoverable amount, the asset is impaired accordingly. Prior impairments are also reviewed for possible reversal at each reporting date.

Financial instruments

A financial asset or a financial liability is recognised only when the entity becomes a party to the contractual provisions of the instrument. Basic financial instruments are initially recognised at the transaction price, unless the arrangement constitutes a financing transaction, where it is recognised at the present value of the future payments discounted at a market rate of interest for a similar debt instrument. Debt instruments are subsequently measured at amortised cost. Financial assets that are measured at cost or amortised cost are reviewed for objective evidence of impairment at the end of each reporting date. If there is objective evidence of impairment, an impairment loss is recognised in profit or loss immediately. For all equity instruments regardless of significance, and other financial assets that are individually significant, these are assessed individually for impairment. Other financial assets are either assessed individually or grouped on the basis of similar credit risk characteristics. Any reversals of impairment are recognised in profit or loss immediately, to the extent that the reversal does not result in a carrying amount of the financial asset that exceeds what the carrying amount would have been had the impairment not previously been recognised.
