NOTES TO THE ACCOUNTS

FOR THE YEAR ENDED 31st MAY, 2020

1. ACCOUNTING POLICIES

BASIS OF ACCOUNTING

The accounts have been prepared under the historical cost accounting convention and in accordance with the Financial Reporting Standard for smaller entities (effective April 2008).

TURNOVER

Turnover is the total amount, receivable by the Company for services provided.

WORK IN PROGRESS

Work in Progress is valued at cost of direct materials and labour plus a reasonable proportion of overheads based on normal levels of activity.

DEFERRED TAXATION

No provision is made for deferred taxation arising due to timing differences between profit as computed for taxation purposes and profits as stated in the accounts. This is on the grounds that the Company is a going concern and the director does not foresee that a liability is likely to arise as a result of timing differences for some considerable period (at least three years) ahead. There is also no indication that after this period the situation is likely to change. Timing differences are primarily due to the excess of tax allowances on tangible assets over the corresponding depreciation charged in the accounts.
