**Directors' report
For the year ended 31 December 2021**

The directors present their report and the financial statements of Butterfly (Finance) Limited ("the company") for the year ended 31 December 2021.

Principal activity

The company's principal activity throughout the year was provision of finance.

Results

The profit for the year after taxation amounted to £7,585 (2020: loss of £13,400).

Basis of preparation – other than going concern

The company has no recoverable debtors or assets at the balance sheet date and intend for the entity to cease trading. Accordingly, the directors do not consider the company to be able to be presented as going concern. The financial statements have been prepared on a basis other than going concern and all amounts within the balance sheet are shown at their recoverable/ payable amounts.

Given these factors, the directors are of the opinion that the global pandemic COVID-19 has no material impact on the company.

Directors

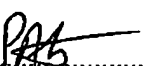

The directors who served the company during the year and up to the date of approval of this report were:

**Notes to the financial statements
For the year ended 31 December 2021**

1. General information

Butterfly (Finance) Limited is a private company limited by shares incorporated and domiciled in England and Wales. The address of its registered office is 2 Merchants Drive Parkhouse, Carlisle, Cumbria, England, CA3 0JW.

The principal activity of Butterfly (Finance) Limited is that of a provider of finance.

2. Accounting policies**2.1. Basis of preparation of financial statements**

The financial statements have been prepared under the historical cost convention, and in accordance with Financial Reporting Standard 102 ("FRS 102"), "The Financial Reporting Standard applicable in the UK and Republic of Ireland"; and the Companies Act 2006, as applicable to the small companies regime. These financial statements have been prepared on a basis other than going concern.

The preparation of financial statements in compliance with FRS 102 requires the use of certain critical accounting estimates. It also requires management to exercise judgement in applying the company's accounting policies (note 3).

The presentational currency is pound sterling and rounding to the nearest pound has been applied.

The following principal accounting policies have been applied:

2.2. Financial reporting standard 102 – reduced disclosure exemptions

The disclosure requirements of section 1A of FRS 102 have been applied other than where additional disclosure is required to show a true and fair view.

2.3. Going concern

The company has no recoverable debtors or assets at the balance sheet date and intend for the entity to cease trading. Accordingly, the directors do not consider the company to be able to be presented as going concern. The financial statements have been prepared on a basis other than going concern and all amounts within the balance sheet are shown at their recoverable/ payable amounts. The directors have confirmed with the company's principal lenders that any interest accruing will not be pursued in the short term.

Given the above facts the directors are of the opinion that the global pandemic COVID-19, has no material impact on the company.

2.4. Debtors

Short term debtors are measured at transaction price, less any impairment. Loans receivable are measured initially at fair value, net of transaction costs, and are subsequently measured at amortised cost using the effective interest method, less any impairment.

2.5. Cash and cash equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours.

Notes to the financial statements (continued)
For the year ended 31 December 2021

2. Accounting policies (continued)**2.6. Turnover**

Turnover is made up of interest receivable. Turnover is recognised as the interest accrues on an effective interest rate basis.

2.7. Financial instruments*Financial assets*

Basic financial instruments, including trade and other debtors are initially recognised at transaction price, less any impairment.

Financial assets that are measured at cost and amortised cost are assessed at the end of each reporting period for objective evidence of impairment. If objective evidence of impairment is found, an impairment loss is recognised in the Statement of comprehensive income.

Financial liabilities

Financial liabilities, including trade and other payables, and bank loans are initially recognised at transaction price, less any impairment.

Financial liabilities that are measured at cost and amortised cost are assessed at the end of each reporting period for objective evidence of impairment. If objective evidence of impairment is found, an impairment gain is recognised in the Statement of comprehensive income.

2.8. Creditors

Short term creditors are measured at transaction price. Other financial liabilities, including bank loans, are measured initially at fair value, net of transaction costs, and are subsequently measured at amortised cost using the effective interest method.

2.9. Finance costs

Finance costs are charged to the Statement of comprehensive income over the term of the debt using the effective interest method so that the amount charged is at a constant rate on the carrying amount. Issue costs are initially recognised as a reduction in the proceeds of the associated capital instrument.

2.10. Borrowing costs

All borrowing costs are recognised in the Statement of comprehensive income in the period in which they are incurred.

Notes to the financial statements (continued)
For the year ended 31 December 2021

2. Accounting policies (continued)**2.11. Taxation**

Tax is recognised in the Statement of comprehensive income and is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the reporting date in the countries where the company operates and generates income.

Deferred tax balances are recognised in respect of all timing differences that have originated but not reversed by the Statement of financial position date, except that:

- The recognition of deferred tax assets is limited to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits; and
- Any deferred tax balances are reversed if and when all conditions for retaining associated tax allowances have been met.

3. Judgements in applying accounting policies and key sources of estimation uncertainty

In applying the company's accounting policies, the directors may be required to make judgements and estimates that could impact the amounts reported for assets and liabilities as at the reporting date and the amounts reported for turnover and expenses during the year.

The directors have not been required to use a significant degree of judgement in determining the timing and value of amounts recognised in the financial statements, with the exception of their assessment of the recoverability of debtors. These are considered for indications of impairment each year and if required an impairment review will be carried out and decision made on possible impairment.

The directors are not aware of any significant sources of estimation uncertainty in the preparation of the financial statements.

4. Interest receivable and similar income

Interest receivable comprises interest receivable from other loans for the year. Interest was charged at 0% on all loans for the year. Accordingly no interest receivable arises for 2021.
