What work has been done in the period of this report, why was that work necessary and what has been the financial benefit (if any) to creditors?

Details of the types of work that generally fall into the headings mentioned below are available on our firm's website - http://www.begbies-traynorgroup.com/work-details Under the following headings we have explained the specific work that has been undertaken on this case. Not every piece of work has been described, but we have sought to give a proportionate overview which provides sufficient detail to allow creditors to understand what has been done, why it was necessary and what financial benefit (if any) the work has provided to creditors.

The costs incurred in relation to each heading are set out in the Time Costs Analysis which is attached at Appendix 2. There is an analysis for the period of the report and also an analysis of time spent on the case since the date of our appointment. An office holder is required to submit a report on the conduct of the Directors who were in office in the period three years prior to the commencement of the insolvency process, to the Insolvency Service, in accordance with legislation. Occasionally such investigations identify further potential asset recoveries. Further information with regards to the investigations undertaken to date are detailed in Section 9.

Best practice means that we should respond to creditor queries in a timely manner. This involves work in dealing with creditor queries and correspondence, including reports and where funds permit agreeing creditor claims and provision of dividends to creditors.

ESTIMATED OUTCOME FOR CREDITORS

The sums owed to creditors at the date of appointment (based upon the information detailed in the statement of affairs submitted by the director) are as follows:

Secured creditor

There are no secured creditors.

Preferential creditors

The claims of the Department for Business, Energy and Industrial Strategy represent employees' estimated claims under The Employment Rights Act 1996 in respect of arrears of pay to a maximum of £800 per employee and holiday pay which are claimed preferentially, and pay in lieu of notice, redundancy pay and arrears of pay in excess of £800 which are unsecured.

There are no employees' preferential claims, which include outstanding wages and holidays.

Secondary preferential creditors

The Finance Act 2020 which took effect from 1 December 2020, has given HM Revenue & Customs, ("HMRC") a secondary preferential claim in insolvencies. This secondary preferential status will enable HMRC to be paid in priority to the floating charge holder and the general unsecured creditors in respect of certain taxes owed by the business to HMRC. These taxes include VAT, PAYE, Income Tax, Employee National Insurance Contributions, Student loan deductions and Construction Industry Scheme deductions.

The secondary preferential claim was estimated at Nil in the Statement of Affairs, and no secondary preferential claim was submitted by HMRC.

Unsecured creditors

Unsecured creditors were estimated at £360,785.11 in the Statement of Affairs. Claims have been received from 13 creditors in the total sum of £280,195.14. These were agreed in full following adjudication.

Dividend Prospects

Notice of intended dividend was issued to unsecured creditors and advertised in the London Gazette providing a final date to prove claims of 5 December 2023. A dividend was to be issued within 2 months of this deadline.

A first and final dividend of 17.80p in the £ was declared and paid to unsecured creditors on 30 January 2024. There will be no further dividend.

Prescribed Part for unsecured creditors pursuant to Section 176A of the Act

Section 176A(1)(a) of the Act requires the liquidators to set aside the prescribed part of the Company's net property for the satisfaction of unsecured debts. "Net property" means the amount which would, if it were not for this provision, be available to floating charge holders (i.e., after accounting for preferential debts and the costs of realisation) and if the floating charge was created on or after 15 September 2003. The prescribed part of the Company's Net property is calculated by reference to a sliding scale as follows:

- □ 50% of the first £10,000 of net property;
- □ 20% of net property thereafter;
- ☐ Up to a maximum amount to be made available of £600,000

The liquidator will not be required to set aside the prescribed part if:

- a. The net property is less than £10,000 <u>and</u> he thinks that the cost of distributing the prescribed part would be disproportionate to the benefit;
- b. Or if the net property is more than £10,000, if the provision is dis-applied by the court on the application of the liquidator on cost-benefit grounds.

If the floating charge was created before 15 September 2003 there is no net property and, consequently, no prescribed part of net property.

There is no floating charge creditor and therefore, the prescribed part will not apply.

BEGBIES TRAYNOR CHARGING POLICY

INTRODUCTION

This policy applies where a licensed insolvency practitioner in the firm is acting as an office holder of an insolvent estate and seeks creditor approval to draw remuneration on the basis of the time properly spent in dealing with the case. It also applies where further information is to be provided to creditors regarding the office holder's fees following the creditors' decision being made for the office holder to be remunerated on a time cost basis. Best practice guidance* requires that such information should be disclosed to those who are responsible for approving the basis of an office holder's remuneration. Within our fee estimate creditors can see how we propose to be remunerated.

This policy applies where creditor approval is sought to make a separate charge by way of expenses or disbursements to recover the cost of facilities provided by the firm. It also applies where payments are to be made to parties other than the firm, but in relation to which the office holder, the firm or any associate has an interest. Best practice guidance* indicates that such charges should be disclosed to those who are responsible for approving the basis of the office holder's remuneration, together with an explanation of how those charges are calculated.

OFFICE HOLDER'S FEES IN RESPECT OF THE ADMINISTRATION OF INSOLVENT ESTATES

The office holder has overall responsibility for the administration of the estate. He/she will delegate tasks to members of their staff. Such delegation assists the office holder as it allows him/her to deal with the more complex aspects of the case and ensures that work is being carried out at the appropriate level. There are various levels of staff that are employed by the office holder and these appear below.

The firm operates a time recording system which allows staff working on the case along with the office holder to allocate their time to the case. The time is recorded in 6 minute units at the individual's hourly rate in force at that time which is detailed below.

EXPENSES INCURRED BY OFFICE HOLDERS IN RESPECT OF THE ADMINISTRATION OF INSOLVENT ESTATES

Expenses are payments from the estate which are neither an office holder's remuneration nor a distribution to a creditor or a member. Expenses also include disbursements, which are expenses that are initially paid by the office holder's own firm, but which are subsequently reimbursed from the estate when funds are available.

Best practice guidance classifies expenses into two broad categories:

- Category 1 expenses (approval not required) Specific expenditure that is directly related to the case and referable to an independent external supplier's invoice. All such items are charged to the case as they are incurred.
- Category 2 expenses (approval required) Items of expenditure that are directly related to the case and either:
 - (i) include an element of shared or allocated cost and are based on a reasonable method of calculation, but which are not payable to an independent third party; or
 - (ii) are items of expenditure which are payable to an associate of the office holder and/or their firm.

Shared or allocated costs (pursuant to (i) above)

The following expenses include an element of shared or allocated cost and are charged to the case (subject to approval).

- □ Internal meeting room usage for the purpose of physical meetings of creditors is charged at the rate of £100 per meeting;
- □ Car mileage which is charged at the rate of 45 pence per mile

Payments anticipated to be made to associates (pursuant to (ii) above)

Services provided by other entities within the Begbies Traynor group

The following expenses which relate to services provided by entities within the Begbies Traynor group, of which the office holder's firm is a member, are also to be charged to the case (subject to approval):

In addition to the services detailed above, it may become necessary to instruct Eddisons Commercial Limited to provide additional services, not currently anticipated, during the course of the case. In such circumstances and to avoid the costs associated with seeking further approval, the charges for such services will be calculated on a time costs basis at the prevailing hourly rates for their various grades of staff which are currently as follows:

Grade of staff	Charge-out rate (£ per hour)

Director	£275
Associate	£180
Surveyor	£120
Graduate	£100
Administration	£80
Porters	£35

Instruction of Eddisons Insurance Services Limited ("EIS") to provide insurance broking services and specifically open cover insurance for the insurable risks relating to the case. The cost of open cover insurance will vary during the course of the case depending upon the value of the assets and liability risks. The costs of insurance cover for subsequent quarter periods will be dependent upon prevailing insurance market conditions and the ongoing insurable risks on the case. Where relevant, administration fees may be charged. These costs are taken into consideration and included within the forecasted cost of insurance, above.

In accordance with standard insurance industry practice, EIS will receive payment of commission for the services it provides from the insurer. The commission is calculated as a percentage of the insurance premiums payable and such percentage will depend upon the class or classes of assets being insured.

EIS will invoice the insolvent estate for the premium(s) due on the insurer's behalf and receive payment from the estate. EIS will in turn, account to the insurer for the premium(s) payable after deducting any commission payable by the insurer.

Where EIS have initially been consulted on a policy, but the policy has not been taken out, EIS will charge an administration fee of £150.

Additional payments received by Eddisons Commercial Limited from purchasers where assets are disposed of by way of auction

In addition to the charges of Eddisons Commercial Limited detailed above for providing the services to the office holder, where any machinery and business assets (other than freehold/leasehold property) are disposed of by way of auction, Eddisons Commercial Limited will also receive a payment from the purchaser, known as a buyer's premium, equivalent to 15% of the successful bid. Where any freehold/leasehold property is disposed of by way of auction, Eddisons Commercial Limited will also receive a payment from the purchaser, known as a buyer's administration fee, in the sum of £600. It is standard auction industry practice for a buyer's premium and buyer's administration fee to be charged. The buyer's premium and buyer's administration fee is paid by the purchaser of the assets and is not paid by the office holder from the assets of the estate.

General Office Overheads.

The following items of expenditure will normally be treated as general office overheads and will not be charged to the case although a charge may be made where the precise cost to the case can be determined because the item satisfies the test of a Category 1 expense:

- □ Telephone and facsimile
- □ Printing and photocopying
- □ Stationery
