### BBB UK PROPERTY LTD REGISTERED NUMBER: 13128790

### STATEMENT OF FINANCIAL POSITION (CONTINUED) AS AT 31 DECEMBER 2022

The financial statements have been prepared in accordance with the provisions applicable to companies subject to the small companies regime and in accordance with the provisions of FRS 102 Section 1A - small entities.

The financial statements have been delivered in accordance with the provisions applicable to companies subject to the small companies regime.

The Company has opted not to file the statement of comprehensive income in accordance with provisions applicable to companies subject to the small companies' regime.

The financial statements were approved and authorised for issue by the board and were signed on its behalf on 28 September 2023.

#### **Graham Bird**

Director

The notes on pages 3 to 10 form part of these financial statements.

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2022

#### 1. General information

The Company was incorporated and registered in England and Wales on 12 January 2021 as a private company limited by shares with registered number 13128790. The Company's registered office is Boom Battle Bar Oxford Street Ground Floor And Basement Level, 70-88 Oxford Street, London, W1D 1BS. Its principal activity is that of running the owned and operated site at The O2, London. The venue comprises a bar surrounded by competitive socialising games such as axe throwing and crazy golf. The Company is a wholly owned subsidiary of XP Factory plc.

On 7 July 2023 the company name changed from BBB Seven Ltd to BBB UK Property Ltd.

#### 2. Accounting policies

#### 2.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention unless otherwise specified within these accounting policies and in accordance with Section 1A of Financial Reporting Standard 102, the Financial Reporting Standard applicable in the UK and the Republic of Ireland and the Companies Act 2006.

Prior year figures are not entirely comparable due to the period ended 31 December 2021 being the first year of incorporation and thus does not represent a full year.

The financial statements are presented in sterling which is the functional currency of the Company and rounded to the nearest £.

The following principal accounting policies have been applied:

#### 2.2 Going concern

Notwithstanding net liabilities of £1,095,926 as at 31 December 2022, the financial statements have been prepared on a going concern basis which the directors consider to be appropriate for the following reasons.

The sites at the O2 in London, Birmingham and in Leeds are all performing satisfactorily and the Directors are confident that the company will become profitable and cash generative in time. The balance sheet contains £2,083,953 liabilities due to companies within the XP Factory Group, which arose largely as a result of funding the fit-out of the company's operating sites. The directors have made reasonable inquiries of the parent company and other companies in the parent company's group, and the parent company has confirmed its intention, if required, to provide financial support to enable the Company to settle its liabilities as they fall due to that financial support will continue to be available for the foreseeable future and that neither the parent company nor other associated subsidiaries will seek repayment of the loans so as to impact the Company's ability to operate as a going concern for a period of at least twelve months from the date of signing these financial statements.

Having undertaken a detailed budgeting exercise, the Directors have a reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future and are confident that the company will have sufficient funds to continue to meet its liabilities as they fall due for at least 12 months from the date of approval of the financial statements and therefore have prepared the financial statements on a going concern basis.

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2022

#### 2. Accounting policies (continued)

#### 2.3 Revenue

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Revenue is measured as the fair value of the consideration received or receivable, excluding discounts, rebates, value added tax and other sales taxes. The following criteria must also be met before revenue is recognised:

#### Sale of goods

Revenue from the sale of goods is recognised when all of the following conditions are satisfied:

- the Company has transferred the significant risks and rewards of ownership to the buyer;
- the Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- the amount of revenue can be measured reliably;
- it is probable that the Company will receive the consideration due under the transaction; and
- the costs incurred or to be incurred in respect of the transaction can be measured reliably.

#### 2.4 Operating leases: the Company as lessee

Rentals paid under operating leases are charged to profit or loss on a straight-line basis over the lease term.

#### 2.5 Pensions

#### Defined contribution pension plan

The Company operates a defined contribution plan for its employees. A defined contribution plan is a pension plan under which the Company pays fixed contributions into a separate entity. Once the contributions have been paid the Company has no further payment obligations.

The contributions are recognised as an expense in profit or loss when they fall due. Amounts not paid are shown in accruals as a liability in the Statement of Financial Position. The assets of the plan are held separately from the Company in independently administered funds.

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2022

#### 2. Accounting policies (continued)

#### 2.6 Tangible fixed assets

Tangible fixed assets under the cost model are stated at historical cost less accumulated depreciation and any accumulated impairment losses. Historical cost includes expenditure that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

Depreciation is charged so as to allocate the cost of assets less their residual value over their estimated useful lives, using the straight-line method.

Depreciation is provided on the following basis:

Short-term leasehold acquisition - over the life of the lease
Short-term leasehold improvements - 5 years straight-line
Fixtures and fittings - 5 years straight-line
Assets under construction - not depreciated
Computer equipment - 3 years straight-line
Boom games - 2 years straight-line

The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted prospectively if appropriate, or if there is an indication of a significant change since the last reporting date.

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised in profit or loss.

#### 2.7 Stocks

Stocks are stated at the lower of cost and net realisable value, being the estimated selling price less costs to complete and sell. Cost is based on the cost of purchase on a first in, first out basis.

At each reporting date, stocks are assessed for impairment. If stock is impaired, the carrying amount is reduced to its selling price less costs to complete and sell. The impairment loss is recognised immediately in profit or loss.

#### 2.8 Financial instruments

The company has elected to apply the provisions of Section 11 'Basic Financial Instruments' and Section 12 'Other Financial Instruments Issues' of FRS 102 to all of its financial instruments.

Financial instruments are recognised in the company's statement of financial position when the company becomes party to the contractual provisions of the instrument.

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is an enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or to realise the asset and settle the liability simultaneously.

#### **Basic financial assets**

Basic financial assets, which include receivables and cash and bank balances, are initially measured at transaction price including transaction costs and are subsequently carried at amortised cost using the effective interest method unless the arrangement constitutes a financing transaction, where the transaction is measured at the present value of the future receipts discounted at a market rate of interest. Financial assets classified as receivable within one year are not amortised.

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2022

#### 2. Accounting policies (continued)

#### 2.8 Financial instruments (continued)

#### Impairment of financial assets

Financial assets, other than those held at fair value through profit and loss, are assessed for indicators of impairment at each reporting end date.

#### Derecognition of financial assets

Financial assets are derecognised only when the contractual rights to the cash flows from the asset expire or are settled, or when the company transfers the financial asset and substantially all the risks and rewards of ownership to another entity, or if some significant risks and rewards of ownership are retained but control of the asset has transferred to another party that is able to sell the asset in its entirety to an unrelated third party.

#### Classification of financial liabilities

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.

#### **Basic financial liabilities**

Basic financial liabilities, including payables and loans from fellow group companies, are initially recognised at transaction price unless the arrangement constitutes a financing transaction, where the debt instrument is measured at the present value of the future payments discounted at a market rate of interest. Financial liabilities classified as payable within one year are not amortised.

Debt instruments are subsequently carried at amortised cost, using the effective interest rate method. Trade payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Amounts payable are classified as current liabilities if payment is due within one year or less.

#### Derecognition of financial liabilities

Financial liabilities are derecognised when the company's contractual obligations expire or are discharged or cancelled.

#### 3. Employees

The average monthly number of employees during the year was 51 (2021 - 4).

During the year, staff were transferred to BBB UK Trading Ltd, a fellow subsidiary Company, who legally employ the staff. Staff costs are now recharged from BBB UK Trading Ltd to BBB UK Property Ltd.
