REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of USEC Inc.:

We have completed an integrated audit of USEC Inc.'s 2004 consolidated financial statements and of its internal control over financial reporting as of December 31, 2004 and audits of its consolidated financial statements as of and for the year ended December 31, 2003, the six month period ended December 31, 2002, and the fiscal year ended June 30, 2002 in accordance with the standards of the Public Company Accounting Oversight Board (United States). Our opinions, based on our audits, are presented below.

Consolidated financial statements

In our opinion, the consolidated financial statements listed in the accompanying index present fairly, in all material respects, the financial position of USEC Inc. and its subsidiaries at December 31, 2004 and 2003, and the results of their operations and their cash flows for each of the two years in the period ended December 31, 2004, for the six month period ended December 31, 2002 and the fiscal year ended June 30, 2002 in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit of financial statements includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As discussed in Note 2 to the consolidated financial statements, the Company has restated its previously issued consolidated financial statements to correct its accounting for revenue recognition and deferred tax assets.

Internal control over financial reporting

Also, we have audited management's assessment, included in the restated Management's Report on Internal Control Over Financial Reporting appearing under Item 9A, that USEC Inc. did not maintain effective internal control over financial reporting as of December 31, 2004, because the Company did not maintain effective controls over (i) the recognition of revenue, and (ii) the valuation of deferred tax assets including the associated tax valuation allowance, based on criteria established in *Internal Control — Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting. Our responsibility is to express opinions on management's assessment and on the effectiveness of the Company's internal control over financial reporting based on our audit.

We conducted our audit of internal control over financial reporting in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. An audit of internal control over financial reporting includes obtaining an understanding of internal control over financial reporting, evaluating management's assessment, testing and evaluating the design and operating effectiveness of internal control, and performing such other procedures as we consider necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinions.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

A material weakness is a control deficiency, or combination of control deficiencies, that results in more than a remote likelihood that a material misstatement of the annual or interim financial statements will not be prevented or detected. The following material weaknesses have been identified and included in management's assessment:

- Revenue recognition

As of December 31, 2004, USEC did not maintain effective controls over the timing of the recognition of revenue. Specifically, USEC's revenue recognition determination with respect to "bill and hold" transactions was not sufficiently complete to support that revenue was recorded in the appropriate period. This control deficiency resulted in a) the restatement of USEC's revenue, cost of sales, deferred revenue and other current assets in the consolidated financial statements for the year ended December 31, 2003 (including the comparative financial information for the year ended December 31, 2002), the six-month period ended December 31, 2002, the fiscal year ended June 30, 2002, the first, second and third quarters of 2004 and the four quarters of 2003 as previously reported in USEC's 2004 Annual Report on Form 10-K filed March 16, 2005 and discussed in Note 2 to the consolidated financial statements; (b) an audit adjustment to the 2004 annual and fourth quarter financial statements; and (c) the restatement of USEC's revenue, cost of sales, deferred revenue and other current assets in the consolidated financial statements for the years ended December 31, 2004 and 2003 (including the comparative financial information for the year ended December 31, 2002), the four quarters of 2004, and the fourth quarter of 2003 as described in the third paragraph of Note 2 to the consolidated financial statements as reported in this Form 10-K/A.

Furthermore, this control deficiency could result in a material misstatement to the revenue, cost of sales, deferred revenue and other current asset accounts that would result in a misstatement to the annual or interim consolidated financial statements that would not be prevented or detected. Accordingly, this control deficiency constitutes a material weakness.

- Deferred tax assets

As of December 31, 2004, USEC did not maintain effective controls over the valuation of deferred tax assets, including the associated tax valuation allowance. Specifically, USEC's controls over the initial determination and subsequent monitoring of factors affecting the realization of deferred tax assets, including the associated tax valuation allowance, were insufficient to determine that deferred tax assets, including the associated tax valuation allowance, were appropriately reported. This control deficiency resulted in (a) the restatement of USEC's valuation allowance associated with deferred tax assets and retained earnings in the consolidated financial statements for the year ended December 31, 2003 (including the comparative financial information for the year ended December 31, 2002), the six-month period ended December 31, 2002, the fiscal year ended June 30, 2002, and the first, second and third quarters of 2004 and the corresponding periods in 2003 as

Furthermore, this control deficiency could result in a material misstatement to the deferred tax asset and tax provision accounts that would result in a misstatement to the annual or interim consolidated financial statements that would not be prevented or detected. Accordingly, this control deficiency constitutes a material weakness.

These material weaknesses were considered in determining the nature, timing, and extent of audit tests applied in our audit of the 2004 consolidated financial statements, and our opinion regarding the effectiveness of the Company's internal control over financial reporting does not affect our opinion on those consolidated financial statements.

In our opinion, management's assessment that USEC Inc. did not maintain effective internal control over financial reporting as of December 31, 2004, is fairly stated, in all material respects, based on criteria established in *Internal Control — Integrated Framework* issued by the COSO. Also, in our opinion, because of the effects of the material weaknesses described above on the achievement of the objectives of the control criteria, USEC Inc. has not maintained effective internal control over financial reporting as of December 31, 2004, based on criteria established in *Internal Control — Integrated Framework* issued by the COSO.

Management and we previously concluded that the Company did not maintain effective internal control over financial reporting as of December 31, 2004 because of the material weaknesses described above. In connection with the restatements of the Company's consolidated financial statements described in the third and fifth paragraphs of Note 2 to the consolidated financial statements, management has determined that the restatements were an additional effect of the material weaknesses described above. Accordingly, these restatements did not affect management's assessment or our opinions on internal control over financial reporting.

/s/ PricewaterhouseCoopers LLP

McLean, Virginia

March 11, 2005, except for the restatements described in the third and fifth paragraphs of Note 2 to the consolidated financial statements and the matter described in the penultimate paragraph of Management's Report on Internal Control Over Financial Reporting, as to which the date is August 3, 2005.

See notes to consolidated financial statements.

earliest date presented in the consolidated financial statements (June 30, 2001) are reduced by \$5.1 million with a corresponding decrease in deferred tax assets of \$4.5 million and increase in accrued income taxes payable of \$.6 million. As of December 31, 2004, this correction is reflected as a decrease in retained earnings of \$5.1 million with a corresponding decrease in deferred tax assets of \$3.8 million and increase in accrued income taxes payable of \$1.3 million. There was no impact on previously reported net income for any of the periods included in this Form 10-K/A as a result of either of the restatements related to the accounting for deferred taxes.

The effects of the Original and Second Restatements are as follows (in millions, except per share data):

(1) As reported in the Annual Report on Form 10-K for the year ended December 31, 2003.

(2) As reported in the Annual Report on Form 10-K for the year ended December 31, 2004.

3. ACQUISITION OF NAC HOLDING INC.

In November 2004, USEC acquired all the outstanding common stock of NAC Holding Inc. and its wholly owned subsidiary NAC International Inc. (collectively "NAC") from Pinnacle West Capital Corporation for \$10.1 million in cash plus the assumption of certain liabilities of NAC. As part of the acquisition agreement, we deposited an additional \$6.0 million in an escrow fund pending the outcome of a contingency relating to the renewal or replacement of a contract with DOE that is expected to be resolved during 2005. NAC provides U.S. and foreign customers with spent nuclear fuel storage solutions, nuclear materials transportation, and nuclear fuel cycle consulting services.
