## NOTES TO THE ACCOUNTS

For the year ended 31 December 2006

#### 1 ACCOUNTING POLICIES

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the non-statutory financial statements

#### Basis of preparation

These non-statutory financial statements have been prepared in accordance with the Companies Act 1985, as if these requirements were to apply, UK applicable accounting standards and applicable Statements of Recommended Practice. The directors have decided to prepare these non-statutory financial statements to support the tax return made to the UK authorities. The particular accounting policies are described below.

#### (a) CONVENTION

These non-statutory financial statements are prepared in accordance with applicable UK accounting standards and under the historical cost convention

## (b) INCOME RECOGNITION

Interest income and expense is accounted for on an accrual basis

#### (c) FIXED ASSET INVESTMENTS

Fixed asset investments are held at cost less provision for any permanent diminution in value. Any such provision is charged to the profit and loss account in the period in which it arises

#### (d) TAXATION

The charge for taxation is based on profit for the year and takes into account taxation deferred because of timing differences between the treatment of certain items for taxation and accounting purposes

Deferred tax is recognised, without discounting, in respect of all timing differences between the treatment of certain items for taxation and accounting purposes which have arisen but not reversed by the balance sheet date, except as otherwise required by FRS19

## (e) CLASSIFICATION OF FINANCIAL INSTRUMENTS ISSUED BY THE COMPANY

In accordance with FRS 25, financial instruments issued by the Company are treated as equity (i.e. forming part of Shareholder's Funds) only to the extent that they meet the following two conditions

- (i) they include no contractual obligations upon the Company to deliver cash or other financial assets or to exchange financial assets or financial liabilities with another party under conditions that are potentially unfavourable to the Company, and
- (ii) where the instrument will or may be settled in the Company's own equity instruments, it is either a non-derivative that includes no obligation to deliver a variable number of the Company's own equity instruments or is a derivative that will be settled by the Company's exchanging a fixed amount of cash or other financial assets for a fixed number of its own equity instruments.

To the extent that this definition is not met, the proceeds of issue are classified as a financial liability. Where the instrument so classified takes the legal form of the Company's own shares, the amounts presented in these financial statements for called up share capital and share premium account exclude amounts in relation to those shares.

Finance payments associated with financial liabilities are dealt with as part of interest payable and similar charges. Finance charges associated with financial instruments that are classified as part of Shareholder's funds (see dividends policy), are dealt with as appropriations in the Reconciliation of Movements in Shareholder's Funds.

## (f) CASH FLOW STATEMENT

The Company is exempt from the requirement to prepare a cash flow statement under Financial Reporting Standard 1 (Revised 1996) as it is a wholly owned subsidiary undertaking of a company which prepares consolidated financial statements which are publicly available
