## Statement of directors' responsibilities

The directors are responsible for preparing the Directors' Report and the financial statements in accordance with applicable law and regulations

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements, the directors are required to

- select suitable accounting policies and then apply them consistently,
- make judgements and accounting estimates that are reasonable and prudent,
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements,
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

## Notes to the financial statements

### 1 Accounting policies

The following accounting policies have been applied consistently in the company's financial statements

#### ***Basis of preparation***

The company is incorporated in the Cayman Islands and registered in both the Cayman Islands and the UK. The company is not required to publish audited financial statements. The purpose of these financial statements is to meet the obligations for filing in both the UK and the Cayman Islands. The filing requirements for the Cayman Islands are significantly less in scope than those for the UK. These financial statements have been prepared in accordance with applicable UK accounting standards and UK companies' legislation as applied to overseas companies and under the historical cost convention. References in these financial statements to the Companies Act and other legislation are therefore references to UK legislation. These financial statements comply with the Companies Act 2006 as applied to overseas companies.

The ultimate parent company, Crown Newco 1 Limited, has confirmed that it will continue to provide financial support to the company for the foreseeable future and for at least 12 months from the date of approval of these financial statements. Accordingly the financial statements have been prepared on the going concern basis.

Under Financial Reporting Standard 1 (revised) the company is exempt from the requirement to prepare a cash flow statement on the grounds that a parent undertaking includes the company in its own published consolidated financial statements.

As the company is a wholly owned subsidiary of Priory Investments Holdings Limited, the company has taken advantage of the exemption contained in Financial Reporting Standard 8 and has therefore not disclosed transactions or balances with entities which form part of the group.

#### ***Tangible fixed assets and depreciation***

Tangible fixed assets are stated at cost, net of depreciation and any provision for impairment.

Depreciation is provided to write off the cost or valuation less the estimated residual value of tangible fixed assets by equal instalments over their estimated useful economic lives as follows:

Freehold buildings and long leasehold properties -	50 years
Plant, fixtures and fittings -	3 to 16 years

Land is not depreciated on the basis that land has an unlimited life.

#### ***Taxation***

The charge for taxation is based on the profit for the year and takes into account taxation deferred. Deferred tax is recognised, without discounting, in respect of all timing differences between the treatment of certain items for taxation and accounting purposes which have arisen but not reversed by the balance sheet date, except as otherwise required by FRS 19.

#### ***Group relief***

Payment is generally made for group relief at the current tax rate at the time of first estimating the tax provision. To the extent that amendments are subsequently made to the group relief plan, there is generally no payment or receipt in respect of change.

#### ***Turnover and revenue recognition***

Turnover represents rental income from fellow group undertakings. Revenue is recognised in the period to which the rental income relates. All of the company's turnover is in the United Kingdom.

A number of further changes to the UK Corporation tax system were announced in the March 2011 UK Budget Statement. A resolution passed by Parliament on 29 March 2011 has reduced the main rate of corporation tax from 27% to 26% from 1 April 2011. Legislation to reduce the main rate of corporation tax from 26% to 25% from 1 April 2012 is expected to be included in the Finance Act 2011.
