### **Registered office, legal form and registration number at the chamber of commerce**

The registered and actual address of Minorco Exploration (Indonesia) B.V. (CoC file 34101568) is 17 Charterhouse Street, EC1N 6RA in London.

### **Estimates**

In applying the principles and policies for drawing up the financial statements, the directors of Minorco Exploration (Indonesia) B.V. make different estimates and judgments that may be essential to the amounts disclosed in the financial statements. If it is necessary in order to provide the transparency required under Book 2, article 362, paragraph 1, the nature of these estimates and judgments, including related assumptions, is disclosed in the notes to the relevant financial statement item.

### **Group structure**

In accordance with article 2:408 of the Netherlands Civil Code (intermediate holding exemption) no consolidated annual account have been prepared. The financial statements of the Company and its subsidiaries are included in the consolidated accounts of Anglo American plc.

### **GENERAL ACCOUNTING PRINCIPLES FOR THE PREPARATION OF THE ANNUAL ACCOUNTS**

The financial statements are drawn up in accordance with the provisions of Title 9, Book 2, of the Dutch Civil Code and the Dutch Accounting Standards applicable to small legal entities, as published by the Dutch Accounting Standards Board ('Raad voor de Jaarverslaggeving').

Valuation of assets and liabilities and determination of the result takes place under the historical cost convention. Unless presented otherwise as the relevant principle for the specific balance sheet item, assets and liabilities are presented at nominal value.

Income and expenses are accounted for on accrual basis. Profit is only included when realized on the balance sheet date. Losses originating before the end of the financial year are taken into account if they have become known before preparation of the financial statements.

## **Foreign currency**

Receivables, liabilities and obligations denominated in foreign currency are translated at the exchange rates prevailing at balance sheet date. Transactions in foreign currency during the financial year are recognised in the annual account at the exchange rates prevailing at transaction date. The exchange differences resulting from the conversion as of balance sheet date, taking into account possible hedge transactions, are recorded in the profit and loss account.

## **Financial instruments**

Financial instruments can be both primary financial instruments, such as receivables and payables, and financial derivatives. The accounting principles for primary financial instruments follow the general accounting principles for assets and liabilities stated above. The Company does not have financial derivatives.

## **ACCOUNTING PRINCIPLES APPLIED TO THE VALUATION OF ASSETS AND LIABILITIES**

### **Financial fixed assets**

#### ***Participations***

Financial fixed assets are valued individually at their acquisition cost less any impairment charges when deemed necessary. Valuation at cost is permitted in the context of the international structure of the group and the fact that the Company has opted for the consolidation exemption in accordance with the provisions of Section 2:408 of The Netherlands Civil Code.

The other securities are valued at fair value.

In the event of an impairment loss, valuation takes place at the realisable value (see also section "Impairment of fixed assets"); an impairment is recognised and charged to the income statement.

### **Impairment of non-current assets**

On each balance sheet date, the Company assesses whether there are any indications that a fixed asset may be subject to impairment. If there are such indications, the realisable value of the asset is determined. If it is not possible to determine the realisable value of the individual asset, the realisable value of the cash-generating unit to which the asset belongs is determined.

An impairment occurs when the carrying amount of an asset is higher than the realisable value; the realisable value is the higher of the realisable value and the value in use. An impairment loss is directly recognised in the income statement while the carrying amount of the asset concerned is concurrently reduced.

### **Receivables and deferred assets**

Receivables are carried at nominal value net of a provision for doubtful debts where deemed necessary. The provision for doubtful debt is determined on an individual basis.

### **Cash and cash equivalents**

The cash is valued at face value. If cash equivalents are not freely disposable, then this has been taken into account in the valuation.

### ***ACCOUNTING PRINCIPLES FOR THE DETERMINATION OF THE RESULT***

#### **General**

The result is defined as the difference between the revenue from services performed, income from participations and other financial activities less the costs, expenses and charges for that year, valued at historical costs.

#### **Taxes**

Corporate income tax is calculated at the applicable rate on the result for the financial year, taking into account permanent differences between profit calculated according to the annual account and profit calculated for taxation purposes, and with which deferred tax assets (if applicable) are only valued insofar as their realisation is likely.

The Company is centrally managed and controlled from the United Kingdom and is therefore tax resident in the United Kingdom.
