NOTES TO THE ABBREVIATED ACCOUNTS YEAR ENDED 30 SEPTEMBER 2009

1 ACCOUNTING POLICIES

Basis of accounting

The financial statements have been prepared under the historical cost convention and in accordance with applicable UK accounting standards.

Cash flow statement

The directors have taken advantage of the exemption in Financial Reporting Standard No. 1 ('Revised 1996') from including a cash flow statement in the financial statements on the grounds that the company is small.

Turnover

The turnover shown in the profit and loss account represents amounts invoiced during the year exclusive of Value Added Tax.

Fixed assets

All fixed assets are initially recorded at cost.

Depreciation

Depreciation is calculated so as to write off the cost of an asset less its estimated residual value over the useful economic life of that asset as follows:

Freehold property	2½ straight line
Plant and machinery	written off over seven years on a straight line basis
Fixtures and fittings	20% straight line
Motor vehicles	25% reducing balance
Equipment	20% straight line

Stocks

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

Pension costs

The company operates a defined contribution pension scheme for employees. The assets of the scheme are held separately from those of the company. The annual contributions payable are charged to the profit and loss account.

Deferred taxation

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more or a right to pay less or to receive more tax with the following exception:

NOTES TO THE ABBREVIATED ACCOUNTS **YEAR ENDED 30 SEPTEMBER 2009**

1 ACCOUNTING POLICIES (CONTINUED)

Provision is made for tax on gains arising from the revaluation (and similar fair value adjustments) of fixed assets and gains on disposal of fixed assets that have been rolled over into replacement assets, only to the extent that, at the balance sheet date, there is a binding agreement to dispose of the assets concerned. However, no provision is made where, on the basis of all available evidence at the balance sheet date, it is more likely than not that the taxable gain will be rolled over into replacement assets and charged to tax only where the replacement assets are sold.

Deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be sufficient taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax is measured on a discounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse based on tax rates and laws enacted or substantially enacted at the balance sheet date.

Financial instruments

Financial instruments are classified and accounted for according to the substance of the contract: an arrangement as either financial assets, financial liabilities or equity instruments. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.
