NOTES TO THE ABBREVIATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 NOVEMBER 2014

1 Accounting policies

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the financial statements.

1.1 Basis of preparation

The financial statements have been prepared in accordance with United Kingdom generally accepted accounting practice and statute comprising the Companies Act 2006 and the Financial Reporting Standard for Smaller Entities (effective April 2008).

1.2 Cashflow

The financial statements do not include a cashflow statement because the company, as a small reporting entity, is exempt from the requirement to prepare such a statement under the Financial Reporting Standard for Smaller Entities (effective April 2008).

1.3 Turnover

Turnover represents amounts receivable for goods and services net of VAT and trade discounts.

1.4 Tangible fixed assets and depreciation

Tangible fixed assets other than freehold land are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost less estimated residual value of each asset over its expected useful life, as follows:

Land and buildings Freehold	2% straight line
Plant and machinery	25% straight line
Fixtures & fittings	25% and 33.3% reducing balance
Motor vehicles	25% reducing balance

1.5 Leasing and hire purchase commitments

Assets obtained under hire purchase contracts and finance leases are capitalised as tangible assets and depreciated over the shorter of the lease term and their useful lives. Obligations under such agreements are included in creditors net of the finance charge allocated to future periods. The finance element of the rental payment is charged to the profit and loss account so as to produce a constant periodic rate of charge on the net obligation outstanding in each period.

Rentals payable under operating leases are charged against income on a straight line basis over the lease term.

1.6 Stock

Stock is valued at the lower of cost and net realisable value.

1.7 Pensions

The company operates a defined contribution scheme. Pension contributions in respect of the scheme of employees are charged to the profit and loss account as they become payable in accordance with the rules of the scheme. The assets are held separately from those of the company in an independently administered fund. Differences between the amounts charged in the profit and loss account and payments made to pension funds are treated as assets or liabilities.

FOR THE YEAR ENDED 30 NOVEMBER 2014

1 Accounting policies (continued)

1.8 Deferred taxation

Full provision for deferred tax assets and liabilities is provided at current tax rates on differences that arise between the recognition of gains and losses in the financial statements and their recognition in the tax computation, except for differences arising on the revaluation of fixed assets (if no commitment to sell), or gains on any assets sold that will benefit from rollover relief.

1.9 Government grants

Grants are credited to deferred revenue. Grants towards capital expenditure are released to the profit and loss account over the expected useful life of the assets. Grants towards revenue expenditure are released to the profit and loss account as the related expenditure is incurred.

1.10 Capital instruments

Shares are included in shareholders' funds. Other instruments are classified as liabilities if not included in shareholders' funds and if they contain an obligation to transfer economic benefits. The finance cost recognised in the profit and loss account in respect of capital instruments other than equity shares is allocated to periods over the term of the instrument at a constant rate on the carrying amount.

1.11 Dividends

Dividends to the company's ordinary shareholders are recognised as a liability of the company when approved by the company's directors.
