NOTES TO THE ABBREVIATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2011

1 Principal accounting policies

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the company's financial statements.

1.1 Basis of preparation

The financial statements have been prepared in accordance with United Kingdom generally accepted accounting practice and statute comprising the Companies Act 2006 and the Financial Reporting Standard for Smaller Entities (effective April 2008).

1.2 Cash flow

The financial statements do not include a cashflow statement because the company, as a small reporting entity, is exempt from the requirement to prepare such a statement under Financial Reporting Standard for Smaller Entities (effective April 2008).

1.3 Turnover

Turnover is stated net of trade discounts, VAT and similar taxes and derives from the provision of services falling within the company's ordinary activities.

1.4 Tangible fixed assets and depreciation

All tangible fixed assets are initially recorded at historic cost. Depreciation is provided on all tangible fixed assets, other than freehold land and investment properties, at rates calculated to write off the cost or valuation, less estimated residual value, of each asset systematically over its expected useful life, as follows:

Office equipment	15% per annum straight line
Fixtures and fittings	10% per annum reducing balance

1.5 Investment properties

In accordance with SSAP 19,

(i) investment properties are revalued annually and the aggregate surplus or deficit is transferred to a revaluation reserve, and

(ii) no depreciation or amortisation is provided in respect of freehold investment properties and leasehold investment properties with over 20 years to run. The directors consider that this accounting policy results in the financial statements giving a true and fair view. Depreciation or amortisation is only one of the many factors reflected in the annual valuation and the amount which might otherwise have been shown cannot be separately identified or quantified.

Full valuations are made by professional qualified valuers every five years and in the intervening years these valuations are updated by directors with the assistance of professional advice as required. The basis of valuation is explained in note 2.

NOTES TO THE ABBREVIATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2011

1 Principal accounting policies (continued)

1.6 Pensions

The company operates a defined contribution scheme . Pension contributions in respect of the scheme for employees are charged to the profit and loss account as they become payable in accordance with the rules of the scheme. The assets are held separately from those of the company in an independently administered fund.

Differences between the amounts charged in the profit and loss account and payments made to pension funds are treated as assets or liabilities.

1.7 Deferred taxation

Full provision for deferred tax assets and liabilities is provided at current tax rates on differences that arise between the recognition of gains and losses in the financial statements and their recognition in the tax computation, except for differences arising on the revaluation of fixed assets (if no commitment to sell), or gains on any asset sold that will benefit from rollover relief.

1.8 Capital instruments

Shares are included in shareholders' funds. Other instruments are classified as liabilities if not included in shareholders funds and if they contain an obligation to transfer economic benefits. The finance cost recognised in the profit and loss account in respect of capital instruments other than equity shares is allocated to periods over the term of the instrument at a constant rate on the carrying amount.

1.9 Dividends

Dividends to the company's ordinary shareholders are recognised as a liability of the company when approved by the company's directors.
