Key messages

Why we've sent you this report

I'm writing to update you on the progress of the administration of the Company in the six months since our last report dated 2 September 2020.

You can still obtain copies of our earlier reports by contacting Syed Shah on 0113 289 4314.

How much creditors may receive

The following table summarises the possible outcome for creditors*, based on what we currently know

	Current estimate	Previous estimate	
Class of creditor	(p in £)	(p in £)	
Secured Creditors	Final amount uncertain	Final amount uncertain	
Preferential Creditors (paid)	100p in the £	100p in the £	
Unsecured Creditors	nil	. " nil	

^{*}Please note this guidance on dividends is only an indication and should not be used as the main basis of any bad debt provision or debt trading.

Secured Creditor

As you may recall from our earlier reports, we don't think the Secured Creditor will be fully repaid its lending of £6.35 million out of its security over the Company's assets. Funds of £300,000 have been distributed to the Secured Creditor from assets realised to date, however the level of final recovery for the Secured Creditor remains uncertain and will be dependent on the final outcome of asset realisations.

The Secured Creditor's lending is secured by a mortgage debenture created on 31 May 1995 which gives fixed and floating charge security over all of the Company's assets, as well as by certain later charges dated between 1999 and 2016.

Preferential Creditors

A first and final preferential dividend of 100p in the £ was declared on 15 March 2019 and a total of £144,571 was distributed between 117 employees and the Redundancy Payments Service. Unclaimed dividends have now been passed to the Insolvency Service. Preferential Creditors with unclaimed dividends need to contact the Insolvency Service directly to recover these funds.

Unsecured Creditors

The Prescribed Part is a fund that has to be made available for Unsecured Creditors. It's paid out of "net property". Net property is floating charge realisations after costs, and after paying - or setting aside enough to pay - Preferential Creditors in full. However, the Prescribed Part is only made available where the floating charge was created on or after 27 March 2006.

In this case the Prescribed Part doesn't apply because the first floating charge registered against the Company predates the coming into force of the IO89 (Prescribed Part) Order (Northern Ireland) 2006.

Given the level of realisations expected at this stage, and the sizeable quantum of secured debt, we do not think there will be any funds available for the Unsecured Creditors.

What you need to do

This report is for your information and you don't need to do anything.

Overview of what we've done to date

As you will recall from previous reports, the Company specialised in environmental engineering services, undertaking subcontracted work on water treatment plants, and designing and installing anaerobic digestion waste treatment facilities across the UK and ROI.

The Company's assets included:

- A limited quantity of plant, machinery and equipment;
- A motor vehicle fleet consisting of 18 Company owned vehicles;
- An interest in one freehold and two leasehold properties;
- Book debts with a book value of c.£1.3 million;
- Work in progress which had not been invoiced with a book value of circa £2.2 million;
- A £0.5m loan agreement with a third party, in favour of the Company; and
- Retentions with a book value of circa £1 million.

We remain in office mainly to realise the remaining assets of the Company, some of which are complex in nature and may require legal action to resolve, and pay distributions to the Secured Creditor.

When we last reported, the key outstanding matters in the administration were as follows:

- Liaising with the Secured Creditor, and distributing funds to the Secured Creditor;
- Sale of part of a property owned by the Company;
- Seek approval from the Secured Creditor on our strategy for the remaining contentious assets of the Company;
- Conclusion of book debts, WIP and retentions matters;
- Assisting with legal action regarding balances owed to the Company and professional indemnity insurance claims on contracts;
- Recovery of a loan payment from a third party; and
- Prepare and submit tax returns and seek tax clearance from HMRC

Progress since we last reported

Realisation of assets

Property

We arranged for a freehold unit part owned by the Company at Hydepark Commercial Centre to be independently valued to enable the property to be sold. This is the last remaining tangible asset of the Company that has not yet been realised. We have agreed a purchase price with an interested party for our share of the freehold unit. We have appointed Arthur Cox LLP to act as conveyancers on our behalf and have supported our conveyancers where appropriate to progress the sale.

Book debts, Work in Progress and Retentions

The Joint Administrators have spent time in the period covered by this report, engaging with and exchanging communication with a number of former customers of the Company to obtain payment for works completed by the Company or book debts outstanding as at the date of the administration. A number of these debts have quite complex conditions attached or require reconciliation of final accounts, particularly where they relate to incomplete contracts. We have worked closely with our solicitors to review the relevant contracts and carry out analysis on how best to recover the outstanding amounts. This has culminated in the preparation of an action plan around the options available to pursue these debts further, which has been presented to the Secured Creditor along with the expected legal costs of taking these options forward. This plan is presently being reviewed by the Secured Creditor.

Most customers with contracts in progress at the date of administration chose to invoke insolvency termination clauses to bring the contracts to an end and, when appropriate, employ alternative contractors to complete the works. We have liaised with customers to protect and recover monies for the Company for work already undertaken.

The Joint Administrators will continue to seek to recover amounts owed to the Company in respect of book debts, work in progress and retentions. To date, recoveries from customer contracts total £836,986; no further funds have been realised in the period of this report.

Loan recovery

The Company made a commercial loan to a customer to support the customer's working capital requirements and enable the progression of one of the Company's largest contracts. This was provided under a formal loan agreement dated January 2016, with the loan amount attracting interest, which continues to accrue. The loan remains outstanding however the conditions for repayment have not yet been fully met. Conditions include passing the second anniversary of the Completion of the project as defined in the EPC contract, and/or the refinance of the facilities provided to the customer by its funders. We have sought to arrange an early repayment/settlement of this loan, taken legal advice around options to accelerate the repayment, and will keep creditors updated on our progress on this matter.

Professional Indemnity claims

Two parties have made claims against the pre appointment professional indemnity insurance of the Company due to losses they claim to have incurred on contracts with the Company. In the period covered by this report, the Joint Administrators have assisted in relation to the professional indemnity claims and incurred time dealing with insurers and solicitors.

Bank Interest

Following a reduction in the Bank of England base rate to 0.1% on 19 March 2020, we have not received any interest on funds held in our account in the period covered by this report.

Statutory and compliance

During the period covered by this report we have:

- Finalised and distributed the progress report for the period from 6 February 2019 to 5 August 2020;
- Prepared and submitted quarterly VAT returns;
- Complied with our tax reporting obligations; and
- Liaised with our post appointment insurance broker to ensure appropriate insurance cover remained in place.

Connected party transactions

There have been no transactions with connected parties during the period of this report.

Investigations and actions

As administrators we undertake investigations into the affairs of the Company in order to discover any claims that the Company may have and to fulfil statutory duties to investigate the conduct of the directors. The majority of this work is undertaken in the period immediately following our appointment, but we continue to review any further information we come across or that is provided to us during the course of the administration.

Nothing has come to our attention during the period under review to suggest that we need to do any more work in line with our duties under the Company Directors' Disqualification Act 1986 and Statement of Insolvency Practice No.2 (Investigations by office holders in administrations and insolvent liquidations). If you have any information on the conduct of the directors that you want to bring to the attention of the Joint Administrators, please email my colleague Syed Shah on syed.s.shah@pwc.com.

Our receipts and payments account

We set out in Appendix A an account of our receipts and payments in the administration from 6 August 2020 to 5 February 2021.

Our expenses

We set out in Appendix B a statement of the expenses we've incurred to the date covered by this report and an estimate of our future expenses.

Our fees

We set out in Appendix C an update on our remuneration which covers our fees, disbursements and other related matters in this case.

Creditors' rights

Any request for further information about the Administrators' remuneration or disbursements should be made in writing. In addition, should you consider the Administrators' remuneration excessive and this is supported by 25% in value of the Creditors, you have the right to challenge the amounts in accordance with rule 2.110 IR01.

Please contact Syed Shah on 0113 289 4314 or at syed.s.shah@pwc.com if you'd like a paper copy free of charge or have any questions in this regard.

Next steps

As outlined in our previous reports, the administration of the Company will come to an end on 5 August 2021 unless we seek an extension to this. As there are still significant assets to realise, we are currently considering the best strategy for extending the administration, taking into account outstanding matters in the case.

We'll provide an update on this in our next report. We expect to send our next report to creditors in about six months.

If you've got any questions, please get in touch with Syed.

Yours faithfully For and on behalf of

sill

Graham Frost Joint Administrator

Appendix B: Expenses

The following table provides details of our expenses. Expenses are amounts properly payable by us as Joint Administrators from the estate and includes our fees, but excludes distributions to creditors. The table also excludes any potential tax liabilities that we may need to pay as an administration expense because amounts becoming due will depend on the position at the end of the tax accounting period.

The table should be read in conjunction with the receipts and payments account at Appendix A, which shows expenses actually paid during the period and the total paid to date.

Please note the estimation for future Office holders' fees is dependent on the time required to conclude the outstanding work, that has been disclosed in the body of this report, which is uncertain at this time. The amounts noted do not necessarily reflect how much we will eventually draw for Office holders' fees.

Appendix C: Remuneration update

Our fees were approved on a time costs basis by the Secured and Preferential Creditors. To date we have drawn fees of £156,500 in line with the approval given, as shown on the enclosed receipts and payments account.

The time cost charges incurred in the period covered by this report are £55,385. This amount does not necessarily reflect how much we will eventually draw as fees for this period.

Our time charging policy and hourly rates

We and our team charge our time for the work we need to do in the administration. We delegate tasks to suitable grades of staff, taking into account their experience and any specialist knowledge that is needed, and we supervise them properly to maximise the cost effectiveness of the work done. Anything complex or important matters of exceptional responsibility are handled by our senior staff or us.

All of our staff who work on the administration (including our cashiers, support and secretarial staff) charge time directly to the case and are included in any analysis of time charged. Each grade of staff has an hourly charge out rate which is reviewed from time to time. Work carried out by our cashiers, support and secretarial staff is charged for separately and isn't included in the hourly rates charged by partners or other staff members. Time is charged in six minute units. The minimum time chargeable is three minutes (i.e. 0.05 units). We don't charge general or overhead costs.

We set out below the maximum charge-out rates per hour for the grades of our staff who already or who are likely to work on the administration.

We call on colleagues in our Tax, VAT, Real Estate and Pensions departments where we need their expert advice. Their specialist charge-out rates vary but the following are the maximum rates by grade per hour.

Grade	Maximum rate per hour to 30 June 2020 (£)	Maximum rate per hour from 1 July 2020 (£)	Specialist maximum rate per hour (£)
Partner	690	850	1200
Director	595	720	975

Manager	405	475	630
Senior Associate	310	390	500
Associate	210	245	275
Support staff	120	120	140

In common with many professional firms, our scale rates may rise to cover annual inflationary cost increases.

Payments to associates

We have not made any payments to associates during the period covered by this report.
