1 ACCOUNTING POLICIES

(1) CONVENTION

The principal accounting policies which the Directors have adopted within the historical cost convention are set out below.

(11) TURNOVER

Turnover is the amount derived from the provision of goods and services falling within the company's ordinary activities after deduction of trade discounts and value added tax.

(111) TANGIBLE FIXED ASSETS AND DEPRECIATION

Depreciation is calculated at rates appropriate to write off the cost of tangible fixed assets over their estimated useful lives.

(1V) STOCK

Stocks and work-in-progress are stated at the lower of cost and net realisable value.

(v) LEASED ASSETS

Fixed assets acquired under finance leases and hire purchase contracts are capitalised at their fair value and depreciated on the same basis as other fixed assets. Finance charges included in the rentals are allocated over the term of each lease so as to produce a constant rate of charge on the remaining balance of the obligation in each accounting period.

Property rentals and operating leases of other assets are accounted for by charging rentals against profits as payments accrue.
