Notes to the Abbreviated Accounts for the period ended 30 April 2014

1 Accounting Policies

Basis of measurement and preparation of accounts

The financial statements have been prepared under the historical cost convention and in accordance with applicable accounting standards.

Turnover policy

Turnover is the total amount receivable by the company for services provided excluding VAT and trade discounts, derived from the ordinary activities of the company.

Tangible assets depreciation policy

Tangible fixed assets are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost less estimated residual value of each asset over its expected useful life

Intangible assets amortisation policy

Goodwill is the difference between the fair value of the consideration given on the acquisition of a business and the aggregate fair value of the separate net assets acquired. It is being amortised through the profit and loss account in equal instalments over its estimated economic life of 10 years on a straight-line basis. Goodwill is reviewed for impairment at the end of the first full financial year following acquisition and in other periods if events or changes in circumstances indicate that the carrying value may not be recoverable.
