Members' remuneration

Remuneration is paid to certain members under a contract of employment and is included as an expense in the profit and loss account after arriving at 'profit for the financial year before members' remuneration and profit shares'

In addition, the LLP agreement provides that fixed amounts, determined for each member each year, be paid to members, irrespective of the profits of the LLP. These amounts are also included within members' remuneration charged to the profit and loss account.

A member's share of the profit or loss for the year is accounted for as an allocation of profits. Unallocated profits and losses are included within 'other reserves'.

Pensions

The LLP operates a defined contribution pension scheme. Contributions are charged in the profit and loss account as they become payable in accordance with the rules of the scheme.

Taxation

The taxation payable on the partnership profits is the personal liability of the members during the year and consequently neither taxation nor related deferred taxation are accounted for in the financial statements. Amounts retained for tax are treated in the same way as other profits of the partnership and are so included in "Members' interests" or in Loans and other debts due to members' depending on whether or not division of profits has occurred.
