# Notes to the Abbreviated Accounts for the year ended 31st March 2016

### 1. ACCOUNTING POLICIES

### **Accounting convention**

The financial statements have been prepared under the historical cost convention as modified by the revaluation of certain assets and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2015) and the requirements of the Statement of Recommended Practice, Accounting by Limited Liability Partnerships.

#### **Turnover**

Turnover represents rental income receivable under contracts net of VAT.

### Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life or, if held under a finance lease, over the lease term, whichever is the shorter.

Plant and machinery

- 10% on cost

Motor vehicles

- Straight line over the life of the lease

Computer equipment

- 25% on reducing balance

### Hire purchase and leasing commitments

Assets obtained under hire purchase contracts or finance leases are capitalised in the balance sheet. Those held under hire purchase contracts are depreciated over their estimated useful lives. Those held under finance leases are depreciated over their estimated useful lives or the lease term, whichever is the shorter.

The interest element of these obligations is charged to the profit and loss account over the relevant period. The capital element of the future payments is treated as a liability.

### Investment properties

Investment properties are revalued annually and included in the balance sheet at their open market value. Surpluses and deficits arising on revaluation are transferred to revaluation reserve. Any permanent diminutions in the values are charged directly to the profit and loss account.

In accordance with SSAP 19 no depreciation or amortisation is provided in respect of freehold and leasehold investment properties. This departure from the Companies Act 2006, which requires all properties to be depreciated is, in the opinion of the directors, necessary for the financial statements to show a true and fair view. Depreciation is one of the factors reflected in the annual valuation and therefore cannot be separately quantified
