### Notes to the Financial Statements For The Year Ended 5 April 2019

#### 1. STATUTORY INFORMATION

Braid Investments (Milton Keynes) LLP is registered in England and Wales. The LLP's registered number and registered office address can be found on the General Information page.

The presentation currency of the financial statements is the Pound Sterling (£).

#### 2. ACCOUNTING POLICIES

#### Basis of preparing the financial statements

These financial statements have been prepared in accordance with the provisions of FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" including Section 1A "Small Entities" and the Companies Act 2006. The financial statements have been prepared under the historical cost convention.

#### Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Plant and machinery - 20% on cost

Tangible fixed assets are stated at cost less accumulated depreciation and accumulated impairment losses. Cost includes costs which are directly attributable in bringing the asset to its location and condition so that it is capable of operating in the manner intended by management.

Profits and losses on the disposal of fixed assets are included in the calculation of profit for the year.

The directors assess the company's tangible assets for evidence of impairment at each reporting date. Where there are indicators of impairment, the directors calculate recoverable amount of the asset(s) and compare this with the carrying amount. If recoverable amount is lower than carrying amount, the asset is written down to recoverable amount by way of an impairment loss which is recognised in profit or loss for the year. Impairment losses are reversed when there is evidence that the reasons giving rise to the original impairment loss have ceased to apply. Impairment losses are reversed through profit and loss, but only to the extent that the reversal does not increase the carrying amount of the asset to the amount which would have been stated, net of depreciation, had no impairment loss been recognised.

#### Investment property

Investment property is shown at most recent valuation. Any aggregate surplus or deficit arising from changes in fair value is recognised in profit or loss.

#### Rents received

Rents received represent income from investment property, net of Value Added Tax and invoiced as the rentals become due.

#### 2. **ACCOUNTING POLICIES - continued**

#### Financial instruments

Financial assets and financial liabilities are recognised when the company becomes a party to the contractual provisions of the financial instrument.

Basic financial Instruments are initially recognised at transaction price and measured at amortised cost using the effective interest method, where investments in non-derivative financial instruments are publicly traded, or their fair value can otherwise be valued reliably, the investment is subsequently measured at fair value through profit and loss, all other investments are subsequently measured at cost less impairment.

Financial assets which are measured at cost or amortised cost are reviewed for objective evidence of impairment at each balance sheet date. If there is objective evidence of impairment, an impairment loss is recognised in profit or loss immediately. All equity instruments, regardless of significance, and other financial assets that are individually significant, are assessed individually for impairment. Other financial assets are either assessed individually or grouped on the basis of similar credit risk characteristics.

Any reversals of impairment are recognised in profit or loss immediately, to the extent that the reversal does not result in a carrying amount of the financial asset which exceeds what the carrying amount would have been had the impairment loss not previously been recognised.

Cash and Cash equivalents
These comprise cash at bank and other short-term, highly liquid bank deposits with an original maturity of three months or less.

#### Bank loans and overdrafts

Bank loans meet the criteria to be classed as basic financial instruments and are accounted for under Section 11 of FRS 102. Bank loans are accounted for using the amortised cost method and interest is recognised in profit or loss using the effective interest rate method.

### 4. INVESTMENT PROPERTY - continued

The director has not carried out a valuation of the investment property at the balance sheet date as required by FRS 102, Section 16 'Investment Property'. In the absence of fair value for the investment property at the balance sheet date, it is not possible for the balance sheet to reflect the fair value of the investment property. Any consequential adjustments to the carrying amount fo the investment property would be recorded in the profit and loss for the year.
