**NOTES TO THE ABBREVIATED ACCOUNTS
for the Year Ended 30 September 2016**

1. ACCOUNTING POLICIES

Accounting convention

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2015) and the requirements of the Statement of Recommended Practice, Accounting by Limited Liability Partnerships.

The LLP was dormant throughout the year ended 30 September 2016. However, reference to information relating to the period ended 30 September 2015 has been made where appropriate.

Turnover

Turnover represents net invoiced sales of services, excluding value added tax. Turnover is recognised on an apportionment of work completed.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Leasehold property	- Over the period of the leases
Fixtures & fittings	- 25% reducing balance method
Motor vehicles	- 25% reducing balance method

Work in progress

The work in progress figure incorporates amounts recoverable under contract (as required by UITF 40) and represents unbilled work which is recognised within the profit and loss account as fees billable.

Hire purchase and leasing commitments

Rentals paid under operating leases are charged to the profit and loss account on a straight line basis over the period of the lease.

Members' remuneration

Remuneration is paid to certain members and is included as an expense in the profit and loss account after arriving at "profit for the financial year before members' remuneration and profit shares".

In addition, the LLP agreement provides that fixed amounts, determined for each member each year, be paid to members, irrespective of the profits of the LLP. These amounts are also included within members' remuneration charged to the profit and loss account.

A members' share of the profit or loss for the year is accounted for as an allocation of profits. Unallocated profits and losses are included within "other reserves"

Financial instruments

Financial instruments are classified and accounted for, according to the substance of the contractual arrangement, as financial assets, financial liabilities or equity instruments. An equity instrument is any contract that evidences a residual interest in the assets of the LLP after deducting all of its liabilities.

NOTES TO THE ABBREVIATED ACCOUNTS - continued
for the Year Ended 30 September 2016

1. ACCOUNTING POLICIES - continued

Members' participation rights

Members' participation rights are the rights of a member against the LLP that arise under the members' agreement (for example, in respect of amounts subscribed or otherwise contributed, remuneration and profits).

Members' participation rights in the earnings or assets of the LLP are analysed between those that are, from the LLP's perspective, either a financial liability or equity, in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2015). A member's participation right results in a liability unless the right to any payment is discretionary on the part of the LLP.

Amounts subscribed or otherwise contributed by members, for example members' capital, are classed as equity if the LLP has an unconditional right to refuse payment to members. If the LLP does not have such an unconditional right, such amounts are classified as liabilities.

Where profits are automatically divided as they arise, so the LLP does not have an unconditional right to refuse payment, the amounts arising that are due to the members are in the nature of liabilities. They are therefore treated as an expense in the Profit and Loss Account in the relevant year. To the extent that they remain unpaid at the year end, they are shown as liabilities in the Balance Sheet.

Conversely, where profits are divided only after a decision by the LLP or its representative, so that the LLP has an unconditional right to refuse payment, such profits are classed as an appropriation of equity rather than as an expense. They are therefore shown as a residual amount available for discretionary division among members in the Profit and Loss Account and are equity appropriations in the Balance Sheet.

Other amounts applied to members, for example remuneration paid under an employment contract and interest on capital balances, are treated in the same way as all other divisions of profits, as described above, according to whether the LLP has, in each case, an unconditional right to refuse payment.

All amounts due to members that are classified as liabilities are presented in the Balance sheet within "Loans and other debts due to members" and are charged to the Profit and Loss account within "Members' remuneration charged as an expense". Amounts due to members that are classified as equity are shown in the Balance sheet within "Members other interests".
