ADMIRALS ROWLEY LLP

PRINCIPAL ACCOUNTING POLICIES

For the year ended 5 April 2015

BASIS OF ACCOUNTING

The financial statements have been prepared in accordance with applicable United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice) including the Statement of Recommended Practice, 'Accounting by Limited Liability Partnerships (revised 2010)' (see below), and under the historical cost convention.

STATEMENT OF RECOMMENDED PRACTICE, 'ACCOUNTING BY LIMITED LIABILITY PARTNERSHIPS' (SORP 2010)

The SORP 2010 requires that members' remuneration, which includes an automatic share of profits and losses, is charged to the profit and loss account as an expense and any unpaid amount is classified in the balance sheet as a liability of the Limited Liability Partnership.

GOING CONCERN

The members of the LLP have agreed to provide such support as necessary to allow the LLP to meet its financial liabilities as they fall due for payment. Accordingly, the members have a reasonable expectation that the LLP has adequate resources to continue in operational existence for the foreseeable future, thus they continue to adopt the going concern basis of accounting in preparing the financial statements.

CASH FLOW STATEMENT

The members have taken advantage of the exemption in Financial Reporting Standard including a cash flow statement in the financial statements on the grounds that the LLP is small.

FINANCIAL INSTRUMENTS

Members' participation rights are the rights of a member against the LLP that arise under the members' agreement (for example, in respect of amounts subscribed or otherwise contributed, remuneration and profits).

Members' participation rights in the earnings or assets of the LLP are analysed between those that are, from the LLP's perspective, either a financial liability or equity, in accordance with Financial Reporting Standard 25 (IAS 32) Financial Instruments: Disclosure and Presentation and Urgent Issues Task Force abstract 39 Members' shares in co-operative entities and similar instruments. A member's participation right results in a liability unless the right to any payment is discretionary on the part of the LLP.

Amounts subscribed or otherwise contributed by members, for example members' capital, are classed as equity if the LLP has an unconditional right to refuse payment to members. If the LLP does not have such an unconditional right, such amounts are classified as liabilities.

Where profits and losses are automatically divided as they arise, so the LLP does not have an unconditional right to refuse payment, the amounts arising that are due to members are in the nature of liabilities. They are therefore treated as an expense in the profit and loss account in the relevant year. To the extent that they remain unpaid at the year end, they are shown as liabilities in the balance sheet. Any amounts due from the members are shown as current assets in the balance sheet.

Other amounts applied to members, for example remuneration paid under an employment contract and interest on capital balances, are treated in the same way as all other divisions of profits and losses, as described above, according to whether the LLP has, in each case, an unconditional right to refuse payment.

All amounts due to members that are classified as liabilities are presented in the balance sheet within 'Loans and other debts due to members' and are charged to the profit and loss account within 'Members' remuneration charged as an expense'. Amounts due to members that are classified as equity are shown in the balance sheet within 'Members' other interests'.

TAXATION

Taxation on all LLP profits and losses is solely the personal liability of individual members. Consequently neither taxation nor related deferred taxation arising in respect of the LLP is accounted for in these financial statements.
