### **Notes to the abbreviated accounts for the Year Ended 31 August 2014**

#### **1 Accounting policies**

##### **Basis of preparation**

The full financial statements, from which these abbreviated accounts have been extracted, have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008), and in accordance with the requirements of the Statement of Recommended Practice 'Accounting by Limited Liability Partnerships' issued in March 2010 (SORP 2010).

##### **Turnover**

Turnover represents amounts chargeable in respect of the sale of goods and services to customers.

##### **Depreciation**

Depreciation is provided on tangible fixed assets so as to write off the cost or valuation, less any estimated residual value, over their expected useful economic life as follows:

Fixtures and fittings	25% straight line basis
-----------------------	-------------------------

##### **Members' remuneration**

Remuneration is paid to certain members under a contract of employment and is included as an expense in the profit and loss account after arriving at 'profit for the financial year before members' remuneration and profit shares'.

In addition, the LLP agreement provides that fixed amounts, determined for each member each year, be paid to members, irrespective of the profits of the LLP. These amounts are also included within members' remuneration charged to the profit and loss account.

A member's share of the profit or loss for the year is accounted for as an allocation of profits. Unallocated profits and losses are included within 'other reserves'.

##### **Financial instruments**

Financial instruments are classified and accounted for, according to the substance of the contractual arrangement, as financial assets, financial liabilities or equity instruments. An equity instrument is any contract that evidences a residual interest in the assets of the LLP after deducting all of its liabilities.
