MEMBERS RESPONSIBILITY STATEMENT

The members are responsible for preparing the financial statements in accordance with applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

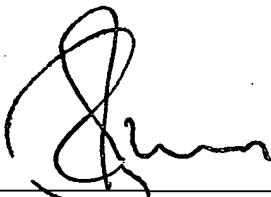

Company law, as applied to LLPs, requires the members to prepare financial statements for each financial year. Under that law the members have elected to prepare the financial statements in accordance with the United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law, as applied to LLPs, the members must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the LLP and of the profit or loss of the LLP for that period. In preparing these financial statements, the members are required to:

- Select suitable accounting policies and then apply them consistently;
- Make judgements and accounting estimates that are reasonable and prudent;
- Prepare the financial statements on the going concern basis unless it is inappropriate to presume that the LLP will continue in business.

The members are responsible for keeping adequate accounting records that are sufficient to show and explain the LLP's transactions and disclose with reasonable accuracy at any time the financial position of the LLP and enable them to ensure that the financial statements comply with the Companies Act 2006. The members are responsible for the maintenance and integrity of the LLP and financial information included on the LLP's website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

ELYSIAN FUELS NO. 8 LLP

**BALANCE SHEET
FOR THE YEAR ENDED 5 APRIL 2015**

The financial statements have been prepared in accordance with the provisions applicable to small LLPs within Part 15 of the Companies Act 2006 as applied by The Limited Liability Partnerships (Accounts and Audit) (Application of Companies Act 2006) Regulations 2008 and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

The financial statements were approved and authorised for issue by the members and were signed on their behalf by:

Future Fuels (Management Services) Limited
Designated member

Date: 24/12/2015

The notes on pages 7 to 9 form part of these financial statements.

1. ACCOUNTING POLICIES

1.1 Basis of preparation of financial statements

The accounts have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008) and the requirements of the Statement Of Recommended Practice ("SORP") "Accounting by Limited Liability Partnerships", March 2006, (except as otherwise stated).

1.2 Turnover

Turnover comprises revenue recognised by the LLP in respect of bio-ethanol related consultancy and technical services supplied during the year, exclusive of Value Added Tax and trade discounts.

1.3 Revenue expenditure

Revenue expenditure consists of service costs for the proposed design, establishment and operation of bio-ethanol production plant. Such expenditure is deferred and carried forward in the balance sheet either as a prepayment or as work in progress to the extent that there is reasonable certainty that it will be recovered under contractual arrangements. In the absence of such reasonable certainty, the expenditure is charged to the profit and loss account in the period in which it is incurred.

1.4 Taxation

Taxation on partnership profits is solely the personal liability of the individual members. Consequently neither taxation nor deferred taxation arising in the partnership has been accounted for in these financial statements.

1.5 Stocks

Long-term contract balances are stated at cost incurred, net of amounts transferred to cost of sales, after deducting foreseeable losses less any applicable payments on account. The asset is only recognised to the extent that the future economic benefits that the partnership will receive can be reliably estimated with reasonable certainty.

The estimate of the future economic benefits attributed to the long-term contract for stock is the estimated present value of the future cash-flows that the partnership will receive as a result of the long-term contract costs incurred, discounted at an appropriate discount rate reflecting the risk of those cash-flows, and the time value of money. The valuation is based on forecasts created by third parties who are experts in the market to which the long-term contract relates.

The underlying assumptions to which the estimate is sensitive are the discount rate used, and the assumptions regarding the level of future revenues that will accrue to the partnership as consideration for their work done. No account is taken of the future revenues where the degree of certainty that they will arise is insufficient to provide any reliable estimate.

The amount recorded as turnover in respect of long-term contracts is ascertained by reference to the value of the work carried out to date. Attributable profit is recognised as the difference between recorded turnover and related costs.

NOTES TO THE ACCOUNTS AT 5 APRIL 2015

1. ACCOUNTING POLICIES**1.6 Members' capital**

The financial statements have been prepared in accordance with the requirements of FRS 25 as applied to limited liability partnerships by the applicable SORP. Since the profits of the LLP are, under the terms of the Amended LLP Agreement, distributed at the discretion of the LLP, FRS 25 requires members' capital to be disclosed as equity. There is also no entitlement for the members to draw out, or receive back at any time while they are members of the LLP, the amounts contributed by them as capital.

1.7 Members' remuneration

Members' remuneration is any outflow of benefits to a member. Where the payment of any remuneration is not at the discretion of the LLP, this is charged to the profit and loss account as an expense.

The LLP has provided consultancy and technical services to Vireol Limited in relation to the operation of a bio-ethanol production plant in Hopewell, Virginia USA and in relation to the design and establishment of a bio-ethanol production plant in Grimsby, UK. During the period the global crude oil price dropped considerably by more than 50%, which had a significant knock on effect on the bio-ethanol plants and the ability of Vireol Limited to pay its debts. At the date of signing these financial statements the amount owed by Vireol Limited to the LLP is still outstanding. The Designated Members, who have been in regular communications with Vireol Limited in pursuit of the balance owed, have assessed the amount they believe will be ultimately recovered. Accordingly, the members have included within these financial statements a provision against the Vireol Limited balance included within Trade debtors of £591,564.
