ONDURR INVESTMENTS LLP

Notes to the Financial Statements For the Period 1st May 2014 to 30th April 2015

Accounting Policies

The financial statements have been prepared under the historical cost convention and in accordance with the Statement of Recommended Practice (SORP), Accounting by Limited Liability Partnerships, issued in March 2006 (United Kingdom Generally Accepted Accounting Practice)

Other Operating Charges

Other Operating Charges represents necessary expenses wholly and exclusively incurred in the running of the partnership for the period in question by the partners.

Other Interest Receivable and Similar Income

This represents the income received in interest payments, dividends and sales of investments held by the partnership.

Investments

Equities and precious metals are included at cost or their market values at the close of their relevant market on the balance sheet date using the last price whichever is the lesser.

Members Capital

This represents the total of the capital accounts of all the partners of the partnership. Amounts subscribed or otherwise contributed by members, for example members' capital, are classed as equity as the LLP has an unconditional right to refuse payment to members.

Profits

Profits made by the LLP are divided only after a decision by the LLP and so the LLP has an unconditional right to refuse payments. Such profits, as here, are classed as an appropriation of equity rather than an expense. They are therefore shown as a residual amount available for the discretionary division amongst member in the Profit and Loss Account and are Equity appropriations in the Balance sheet.

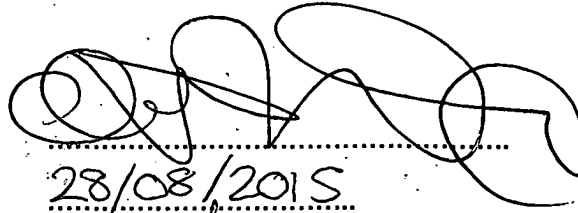

Control

The LLP is controlled by all of the designated members' who each have an equal say in the management of the LLP, as such no one designated member is in control.

These financial statements were approved by the following Designated Members on behalf of the Partnership:
