Turnover

Turnover represents net invoiced sales of goods and services, excluding VAT, except in respect of service contracts where turnover is recognised when the company obtains the right to consideration.

Goodwill

Goodwill, being the amount paid in connection with the acquisition of a business in 2003, was amortised evenly over its estimated useful life of five years.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Freehold property	- not provided
Improvements to property	- 4% on reducing balance
Plant and machinery	- 10% on cost
Motor vehicles	- 25% on cost
Computer equipment	- 33% on reducing balance

The company has adopted a policy of revaluation in respect of freehold property.

Stocks

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date except that the recognition of deferred tax assets is limited to the extent that the company anticipates making sufficient taxable profits in the future to absorb the underlying timing differences.

Pension costs and other post-retirement benefits

The company operates a defined contribution pension scheme. Contributions payable to the company's pension scheme are charged to the profit and loss account in the period to which they relate.

Revenue recognition

In accordance with UITF 40, revenue arising on service contracts is recognised on the "stage of completion" method where a profitable outcome can be assessed with reasonable certainty. Losses are provided for in full where identified.
